I. Executive Summary

IMPACT is a William J. Scott Elementary School 21st Century Community Learning Center afterschool program funded by the Georgia Department of Education. The results outlined in this Summative Report provide a descriptive picture of how well *IMPACT* staff performed in providing academic enrichment programs and other youth-development activities consistent with the approved goals, objectives, and performance measures. *Table 1* presents a snapshot of the program's performance data that indicates 6 of the stated 8 objectives are **Met** and 2 **Did Not Meet** at the time of this report.

OBJECTIVES FOR STUDENTS & PARTICIPATING PARENTS	DATA SOURCE	STATUS
Objective 1.1 : Fifty percent (50%) of regular attendees (students attending 30 or more days) in grades K-5 will meet their RIT Projected Growth Score in Reading on the Spring MAP Assessment.	MAP Assessment Reading Scores	Did Not Meet
Objective 1.2: Sixty-five percent (65%) of regular attendees (students attending 30 or more days) in grades K – 5 will maintain or improve their grade in Reading.	Report Card Reading Grades	Met
Objective 1.3 : Fifty percent (50%) of regular attendees (students attending 30 or more days) in grades K-5 will meet their RIT Projected Growth Score in Math on the Spring MAP Assessment.	MAP Assessment Math Scores	Did Not Meet
Objective 1.4: Seventy percent (70%) of regular attendees (students attending 30 or more days) in grades K – 5 will maintain or improve their grade in Mathematics.	Report Card Math Grades	Met
Objective 2.1: Fifty percent (50%) of parents of regular students attending 30 or more days) will attend at least two (2) school sponsored events such as parent conferences, curriculum night, open house, and PTA/PTO.	Sign-In Sheets	Met
Objective 2.2: Fifty percent (50%) of parents of regular attendees (students attending 30 or more days) will attend at least two (2) parent workshops related to academic support.	Sign-In Sheets	Met
Objective 3.1: Twenty percent or less (20%) of regular attendees (students attending 30 or more days) in grades K- 5 will receive discipline referrals during the regular school day.	Infinite Campus	Met
Objective 3.2: Ninety-five percent (95%) of regular attendees (students attending 30 or more days) will attend school during the regular school day at least 85% or better.	Infinite Campus	Met

Table 1: 2022-23 Snapshot of IMPACT Evaluation Results

II. Program Overview

IMPACT History

Since opening its doors in 2015, *IMPACT*, at William J. Scott has remained dedicated to providing research-based prevention services to address the multi-faceted needs of the most underserved, atrisk youth residing in their service area in Atlanta, Georgia. *IMPACT* is leveling the playing field for youth caught in a cycle of generational poverty by serving as an extended family, providing exposure to new experiences, and reinforcing the skills needed to thrive in adulthood.

Poverty is associated with teen pregnancy rates, relationship difficulties, substance abuse, low selfesteem, violence and gang activity, poor academic outcomes, college non-attendance, and parental stress. To help mitigate these outcomes, *IMPACT* operates under the premise that loosening the grip of poverty requires society to support children and families by cultivating healthy relationships, promoting healthy living, developing valuable life skills, strengthening academic abilities, and supporting the family.

Primarily supported by 21st Century Community Learning Center (CCLC) funding, in the 2020–2021 school year, *IMPACT* afterschool program began its second cycle of funding at William J. Scott and is a Title I school serving 100% economically disadvantaged students (Governor's Office of Student Achievement, 2021). The goals of the program are to (1) improve students' academic performance, (2) increase positive perceptions of school and peers, and (3) increase adult family member engagement and involvement. The pillars of the program design are highlighted below:

- Academic Achievement. The program offered daily educational support services to students in English language arts (ELA) and math in a small-group (whole groups and breakout rooms) setting, as well as tutoring and individual homework assistance. Academic instruction reinforced ELA and math skills and concepts that students focus on in school through collaboration with regular day schoolteachers. Rotating enrichment activities included Book Club and STEAM projects, which helped enhance the students' reasoning and problem-solving skills.
- Family Engagement. Family engagement occurred through the *IMPACT's* afterschool program. Parents, guardians, and/or other adult family members of afterschool students were offered workshops that helped them identify their child's needs and/or risky behaviors, support their child's academic growth, and develop effective parenting strategies.

• **Positive Perceptions.** Multiple activities were offered to address youth development and prevention of risky behaviors, including wellness activities, journaling, and art therapy, among others. The program also invited guest speakers to talk about making healthy decisions and addressing mental health issues.

FY22 IMPACT at Scott Elementary Overview

IMPACT is structured to serve 120 students and their families with academic enrichment and parenting engagement activities for 32 weeks during the academic year. Details of Year 2 are as follows:

- IMPACT began afterschool enrichment services from 2:45 pm to 6:00 pm, Monday-Friday starting on August 16, 2021, and ending April 20, 2022.
- IMPACT registered 156 students of which 130 attended 30 days or more: resulting in an overall retention rate of 83%. Attendance Records suggest an average daily attendance (ADA) of 101.

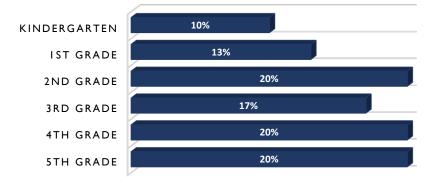

Figure 1: IMPACT Total Student Enrollment (156)

Of the 9 grant approved objectives, 5 were met, 1 did not meet, and 3 were unable to measure at the end of Year 2.

This year, *IMPACT* is on target to enhance the academic performance results for the elementary, middle, and high school program participants. The constant, positive, high satisfaction ratings expressed on student and parent surveys are a direct reflection of the afterschool staff's competence and commitment to the success of the program.

III. Program Evaluation

Qualifications of the External Evaluator

RW Educational Consultants, LLC (RW) served as the external evaluator for IMPACT at William J. Scott (Scott) for the 2022-23 academic year. The external evaluator has no investment in IMPACT, nor any affiliation with program staff, student participants, or program partners as stated in the guidelines.

RW is a team of consultants devoted primarily to research and program evaluation, grant writing, professional development, and program management. Dr. Gardner's research experiences combined with formal training in the biological sciences ensures the overall scientific integrity of the evaluation process of 21st CCLC afterschool programs with or without a STEM/STEAM/SEL focus.

Currently, RW evaluates and partners with 8 established 21st Century Community Learning Center afterschool programs in Metro Atlanta. RW staff 1) provides a robust and effective evaluation plan that collects research data for federal reporting of the formative and summative reports; 2) oversees aspects of the monitoring process in accordance with federal guidelines; and 3) staffs a former 21st CCLC program manager to provide integral feedback.

The Plan to Evaluate Program Implementation

IMPACT 21st Century Community Learning Center (CCLC) afterschool program at Scott delivers academic, social emotional learning, and enrichment opportunities to students and adult family members residing across the metropolitan communities of Atlanta. This endeavor represents a well-established collaborative partnership between Atlanta Public School District and Scott Elementary. The intended purpose of the program is to: (1) provide opportunities for academic enrichment, including supplemental instruction to support students in realizing increased skills in reading/language arts, mathematics, and science; (2) offer students a broad array of additional services, programs, and character enrichment activities; and (3) extend adult family members of regularly participating students' opportunities for expanded literacy and related educational development.

The three primary goals of the *IMPACT* 21st CCLC at Scott are:

- Goal 1: Increase Student Academic Performance in Mathematics and English and Language Arts.
- **Goal 2: Increase Students' Parental Involvement** in the afterschool program.
- **Goal 3: Reduce Negative Behavior** by providing character education.

This summative report is designed to highlight the multiple strengths and accomplishments of the IMPACT 21st CCLC program, acknowledge challenges and barriers, and make recommendations to support continued sustainability according to the Goals and Evaluation Objectives in *Table 2*. Relevant questions to each evaluation objective are listed in *Table 3*. RW and the Program

Manager for IMPACT created a work plan to develop clear data collection timeframes, tools, assessment deliverables, and milestones, and identify persons accountable for different phases and activities of the evaluation process for the five evaluation objectives. Consistent communication between the parties occurred regularly by email, phone, advisory meetings, and special school events during the 2022-23 school year.

	veen IMPACT Goals and the Evaluation Objectives
IMPACT 's Program Goals	Evaluation Objectives
Goal I: Increase student academic performance in Mathematics and English and Language Arts.	 Evaluation Objective 1: To assess the design and implementation of the afterschool program. Evaluation Objective 2: To assess academic performance in mathematics. Evaluation Objective 3: To assess academic performance in ELA.
Goal 2: Increase students' parental involvement in the afterschool program.	Evaluation Objective 4: To assess parental participation in the afterschool program.
Goal 3. Reduce negative behavior by providing character education.	Evaluation Objective 5: To assess student behavior during the school day.

IMPACT 2022-23 SUMMATIVE REPORT

William J. Scott Elementary

Evaluation Objectives	Relevant Questions
Evaluation Objective 1:	I. How is IMPACT designed?
To assess the design and implementation of the afterschool program.	2. Who are the stakeholders involved in the design and evaluation of IMPACT?
	3. Is the leadership team aware of data collected and the use of data-collection tools?
	4. Is there fidelity in the implementation of <i>IMPACT</i> ? If so, are changes being made according to recommendations?
Evaluation Objective 2: To assess student academic performance in Mathematics.	I. Are improvements made in Mathematics scores on the MAP Assessments for students who participate in IMPACT?
	2. Are improvement made in mathematics scores on the report cards?
Evaluation Objective 3: To assess student academic performance in Reading.	I. Are improvements made in Reading scores on the MAP Assessments for students who participate in IMPACT?
	2. Are improvements made in ELA scores on the report card?
Evaluation Objective 4: To assess positive student behaviors in program	I. Are improvements made in student attendance as evidenced by their school-based attendance records?
and daytime activities.	2. Are improvements made in student behaviors as evidenced by their school-based discipline records?
Evaluation Objective 6: To assess family participation in the afterschool program.	I. Are parents attending the family-oriented programs at <i>IMPACT</i> as evidenced by parent sign-in and volunteer sheets?
	2. Are parents made aware of date and time of parent engagements?

Table 1: IMPACT Evaluation Objectives and Relevant Questions

IMPACT 2022-23 SUMMATIVE REPORT William J. Scott Elementary

Evaluation Work Plan: The evaluation work plan was developed by RW and discussed with the Program Manager to organize the assessment activities, assessment tools, persons responsible for evaluation tasks, and timetable. *Table 4* provides the work plan organized by the evaluation objectives.

Table 2: IMPACT Work Plan

Evaluation Objective 1: To assess the design and implementation of IMPACT afterschool program.				
Measurement Activities and Tools	Person Responsible and Task(s)	Timetable		
 Develop evaluation work plan and list of data and information to be collected. 	Evaluator develops work plan and list of data and other information needed; informs Program Manager of data required.	July 2022		
2. Review the design/structure of <i>IMPACT</i> .	Evaluator , in consultation with Program Manager reviews staffing, program schedule, and parent enrichment activities.	August 2022		
3. Obtain descriptions of all academic and enrichment courses and names of all teachers/instructors.	Evaluator retrieves information from TransAct Systems.	December 2022		
4. Review data to be tracked and the use of data-tracking tools.	Evaluator reviews data tracking tools with Program Manager.	November 2021		
	Evaluator participates in EdVantage workshops and evaluation webinar.	October 2022 & January 2023		
	Evaluator reviews "Common Data Elements" documents and surveys required by the GaDOE.	December 2022 & April 2023		
5. Determine fidelity of implementation of <i>IMPACT</i> and the quality of improvements based on formative evaluation.	Evaluator reviews implementation of IMPACT in consultation with Program Manager.	January 2023		
6. Review and collect Teacher, Parent, and Student surveys required by GaDOE.	Evaluator in consultation with the Program Manager , develops and implements plan for disseminating and collecting all surveys.	March 2023		
7. Determine stakeholders' involvement in the design and implementation of IMPACT.	Evaluator in consultation with the Program Manager reviews stakeholders' involvement.	November 2022

Methods of Data Collection and Timeline

Table 3: Data Collection

IMPACT at Scott contracted with RW Educational Consultants, an Atlanta-based research and evaluation firm, to serve as the external evaluator for *IMPACT*. RW is responsible for assessing and reviewing all data sources used to measure progress toward achieving the goals and objectives and for the orchestrating of several data collection methods. Site visits by RW to Scott occurred in the fall of 2022 and in the spring of 2023. The purpose of the site visits is to conduct informal interviews with the Site Coordinator and Program Manager. Additionally, RW observed and collected information on the program's daily operations and procedures. Other regular visits included attendance at Advisory Council Meetings, Parental Engagement Activities, and Student Performances. Due to the nature of the data collection methods and reports received, simple descriptive statistics are used to analyze and report all data collected as outlined in the data collection schedule in *Table 5*.

Data Collection Activity	Timeframe
Reviewing original grant proposal and associated amendments	Fall 2022
Conducting classroom observations	Fall 2022 & Spring 2023
Attending Parent Events	Fall 2022 & Spring 2023
Analyzing teacher, student, and parent surveys	Spring 2023
Communicating with the Program Manager and Site Coordinator	Fall 2022 & Spring 2023
GaDOE Webinar Training	Fall 2022 & Spring 2023
GaDOE EdVantage Workshop	Fall 2022
Evaluator Training	Spring 2023
Attending Advisory Council Meetings	Fall 2022 & Spring 2023
Reviewing data in Transact System	Fall 2022 & Spring 2023
Analysis of data gathered from state assessment results, reports cards grades	Spring 2023

IV. Program Implementation

Program Recruitment

IMPACT staff is passionate regarding recruitment, retention, and servicing low-income students who may be at risk for lower levels of academic achievement. Every student enrolled in Scott Elementary, from kindergarten through grade 5, is eligible to enroll in *IMPACT*. The *IMPACT* recruitment process began with identifying students with the greatest academic needs based on the following academic indicators:

- iReady Reports
- Teacher grade reports
- Teacher recommendations

These students were given priority admission to *IMPACT*. *IMPACT* also sought to include students with special needs as indicated by their Individual Education Program (IEP) as well. At the time of enrollment, a copy of the students' IEP was requested along with accommodations for that student. Once paperwork was received a student file was created and stored in the *IMPACT* office. A Special Education teacher and paraprofessional were on staff to meet the needs and provide specific instruction to students with special needs selected for *IMPACT*.

Once all prospective students were identified, each child received an application for the program. Additional information for prospective participants was given via fliers sent home. Fliers were also available in the front office during the entire school year. In addition to this, a calling post was administered to all parents. Information about *IMPACT* was provided during Scott's initial PTA meeting for the current school year. This meeting provided parents whose children may not have been targeted for the program the opportunity to enroll their children into the program.

IMPACT has an open registration policy. Although *IMPACT* leadership team plan to operate at the program's fullest capacity, staff are aware that due to student mobility, slots may become available on a rolling basis. If no spots are available, students will be placed on the waiting list.

Program Operation

IMPACT afterschool program schedule was structured to maximize student success. After the regular school day ended, each participating student received 3.25 hours of academic instruction services (arts/academic enrichment, recreational activities, and nutritional services) from 2:45 p.m. to 6:00 p.m., Monday – Thursday. A sample schedule of activities is included in *Tables 6* and *7*. The overall *IMPACT* afterschool program structure is detailed in *Table 8*.

Although homework study time was scheduled Monday – Thursday within the first 45 minutes of the start of the afterschool program, completion of homework is also permitted within the 75 minutes of academic-content instruction, if needed. However, sometimes students were instructed to complete homework assignments at home. Several distinctive structural and operational features of the afterschool program included:

- Thirty-two weeks of academic enrichment services each year: 17 weeks each for two terms maintaining a low student-teacher ratio of 10:1.
- Three and a half hours of academic/enrichment services per day for each student participant totaling 13 hours per week.
- In kindergarten grade 5, 5 hours of content specific instruction delivered to students by certified teachers per week.
- * Nutritional snacks, dinner and a safe environment provided for all students.
- Transportation home for over 60% of student participants that reside in the surrounding community.

- Homaay a V	reancoury	_
Time	Program Activity	
2:45-3:15	Homework and Snack	
3:15-4:30	Mathematics	
4:30-5:45	ELA	
5:45-6:00	Supper on Site	

Table 6: IMPACT Program Schedule:

Table 7: IMPACT Program Schedule:

Time	Program Activity
2:45-3:15	Homework and Snack
3:15-4:30	Yoga, Art, or Healthy Me
4:30-5:45	Yoga, Art, or Healthy Me
5:45-6:00	Supper on Site

Program Academic Instruction

Monday & Wednesday

IMPACT scheduled academic instruction is conducted Monday – Thursday from 2:45 p.m. to 6:00 p.m. The first 30 minutes of each day began with homework assistance and a nutritional snack provided by Atlanta Public Schools and the last 15 minutes of each day ended with *Supper on Site*

funded by the United States Department of Agriculture. Certified teachers and paraprofessionals provide differentiated and/or small group instruction to ensure participating students receive aid or remediation that supports developing skills necessary to fill the learning gaps that exist.

Components	Explanation		
Location	William J. Scott Elementary School 1752 Hollywood Road, Atlanta, GA 30318		
Grades	Kindergarten – Grade 5		
Dates of Operation	September 6, 2022 – May 25, 2023		
Times of Operation	2:45 p.m 6:00 p.m., Monday – Thursday (125 days open/32 weeks)		
Contact Hours	Each student was scheduled to receive a 13 hours of program services per week		
Number of Regular Attendees	Total Student Participants = 157 Regular Attendees = 132 Average Daily Attendance = 101		
Classroom Environment	 Low student-teacher ratio =10:1 in Kindergarten/Grade 5 		
	Relaxed learning atmosphere		
Gender Composition of Classes	Mixed gender in both academic and enrichment classes		
Academic Courses/Content Areas & Tutorials	I. Reading 2. Mathematics		
Transportation	Provided for students who live in the William J. Scott school zone		
Staff: Academic Areas	Taught by certified teachers		
Staff: Enrichment Courses	Taught by subject matter experts		
Staff: Paraprofessionals	Helped prepare learning environment and supervise students		
Parent Liaison	Helped plan and execute parent-involved activities		
Advisory Council	Suggested recommendations and participated in program activities		

On Monday, Wednesday, and Thursday, 75 minutes of content instruction in Mathematics or ELA, is provided to correlate directly with the Georgia Standards of Excellence for each grade level to reinforce regular classroom instruction. Academic instruction is tiered to students' learning abilities, styles, challenges by incorporating *iREADY* an individual computerized learning program into the afterschool schedule. Splash Math is a fun yet rigorous instruction and practice program that fully prepares students for the Georgia Milestones in a highly supportive way.

Program Transportation

IMPACT has overcome one of the major hurdles to successful operation of an afterschool program which is transportation. Nearly 60% of *IMPACT* student participants ride the school bus home from the program. A major advantage of *IMPACT* 21st CCLC is the ease of transporting students quickly to the immediate school community where many of the students reside. Additionally, several students live within safe walking distance while others, 30%, are picked up by a family member. Although many program managers are concerned about the challenges of transportation, *IMPACT* is situated in a community where transportation home at the end of a school day does negatively impact program participation. Working parents or single parents who are not available to collect children or arrange for transportation for student participants receive an added advantage of the daily bus transportation home.

Staff Development and Training

Throughout this report the evaluator makes a distinction between a "teacher", "instructional support" and an "enrichment instructor," based on the following definitions:

- **"Teacher"** refers to an individual who is certified as a teacher and has primary responsibility for an academic course or an enrichment course.
- **"Instructional Support"** refers to an individual who is not a certified teacher and is usually a paraprofessional.
- **"Enrichment Instructor"** refers to an individual contracted with the program as a vendor providing enrichment services.

Table 9 outlines the number of teachers, instructional support, and administrative personnel within *IMPACT*.

Position	Number	Subject Taught	Qualification
		Subject Fungile	Quanneación
Teacher	10	Academic Courses	Certified
			Teacher
Instructional	6	Academic/Enrichment	Experience
Support		Courses	·
Bus Driver	Ι	N/A	Experiences
Leadership	3	Program Director,	Certified
•		Site Coordinators,	Teachers
		Lead Teacher	

Table 9: Impact Staff

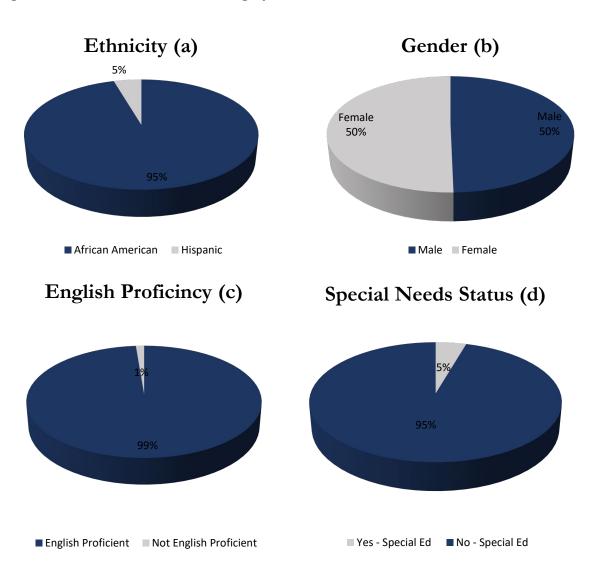

Recruitment efforts were successful in attracting both a well-qualified academic teaching staff and an enrichment staff. The instructional support has experience in working in partnerships with teachers, parents, and students. The program leadership is composed of a seasoned team of professionals possessing experience in management in afterschool, weekend, and summer programs. In addition, the programmatic structure maintains the projected student teacher ratio of 10:1 in both academic and enrichment activities. To ensure sufficient attention for students that require additional assistance, instructional support is strategically placed within academic and enrichment classes. This instructional design results in having one teacher and one instructional support present to provide necessary remediation, manage classroom behavior, and deliver reading and mathematics instruction. The student to teacher ratio in academic and enrichment components of the program are aligned with 21st CCLC guidelines. Training sessions are offered at least 2 times during the school year. The 2022-23 professional development training schedule is presented in *Table 10*.

Date	Professional Learning Activities
August 31, 2022	Staff Orientation
January 19, 2023 May 16, 2023	EverFi K-12 Workshop Make Music Count

V. Student Attendance and Enrollment

Demographics

Approximately 323 students attended Scott during the 2022-23 academic year of which *IMPACT* aimed to serve 120 as student participants of the afterschool program. *IMPACT* established attendance target is approximately 35% of the total school enrollment based on historical trends. During the reporting period, the program served 157 students in kindergarten through 5th grade.

Figures 2 a-d: IMPACT Student Demographics

While the program was available to all students, the ethnic homogeneity of the learning center program closely reflects that of Scott's neighborhoods in that 95% students are of African American descent and 5% are Hispanic. Additional analyses of student demographics (*Figure 2*) show that equal proportions of male and female were enrolled, and 99% were English proficient. Lastly, 5% of students qualify for special education services.

Student Enrollment and Attendance

Enrollment and Attendance are immediate measures of impact; both are a measure of the program's success. For 2022-23, 157 students enrolled in *IMPACT* for one day or more of which 132 attended at least 30 days. The number of Total Student Enrolled by grade level is summarized in *Figure 3* according to data retrieved from TransAct Systems. Many of the students who enrolled in the program and did not finish can be attributed to the unfortunate circumstances of highly mobile families that relocated often. *IMPACT* retained 84% (132 of 157) of the students for 30 days or more and maintained an average daily attendance (ADA) of 101. These numbers are particularly

impressive for an elementary afterschool program serving a socioeconomically disadvantaged community following a global pandemic.

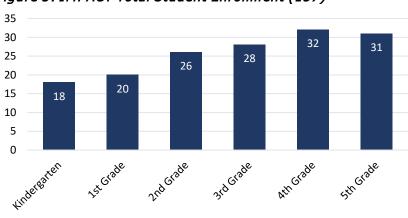

Figure 3: IMPACT Total Student Enrollment (157)

VI. Objective Assessment

Overview

IMPACT at Scott has 8 objectives that undergirds its 2022-23 21st Century Community Learning Center services. Each of the objectives, as well as the respective evaluation objectives, is addressed in this section of the Summative Report. All 21st CCLC programs are required to indicate progress towards attaining each of their stated objectives. To assess progress, each objective is rated using one of the three following categories: *1) Met, 2) Did Not Meet, or 3) Unable to Measure.* As shown in *Table 12*, the goals and objectives for *IMPACT* focus on improving academic achievement, increasing parental involvement, and increasing positive student behavior.

Table 12: IMPACT Goals and Objectives

	Objectives for IMPACT
Goal 1: Increase student academic performance in	Objective 1.1: Fifty percent (50%) of regular attendees (students attending 30 or more days) in grades K-5 will meet their RIT Projected Growth Score in Reading on the Spring MAP Assessment.
Mathematics and English and	Objective 1.2: Sixty-five percent (65%) of regular attendees (students attending 30 or more days) in grades $K - 5$ will maintain or improve their grade in Reading.
Language Arts.	Objective 1.3 : Fifty percent (50%) of regular attendees (students attending 30 or more days) in grades K-5 will meet their RIT Projected Growth Score in Math on the Spring MAP Assessment.
	Objective 1.4: Seventy percent (70%) of regular attendees (students attending 30 or more days) in grades $K - 5$ will maintain or improve their grade in Mathematics.
Goal 2: Increase students' parental involvement in the	Objective 2.1: Fifty percent (50%) of parents of regular students attending 30 or more days) will attend at least two (2) school sponsored events such as parent conferences, curriculum night, open house, and PTA/PTO.
afterschool program.	Objective 2.2: Fifty percent (50%) of parents of regular attendees (students attending 30 or more days) will attend at least two (2) parent workshops related to academic support.
Goal 3: Reduce negative behavior by providing character education.	 Objective 3.1: Twenty percent or less (20%) of regular attendees (students attending 30 or more days) in grades K- 5 will receive discipline referrals during the regular school day. Objective 3.2: Ninety-five percent (95%) of regular attendees (students attending 30 or more days) will attend school during the regular school day at least 85% or better.

Goal 1. Improve Student Academic Performance

Goal 1 examines regularly attending students' academic outcomes, meeting grade-level expectations, and increasing academic achievement. Objectives 1.1 and 1.3 measure the percentage of IMPACT students identified as having improved from fall to spring on the MAP (Measures of Academic Progress) Assessments in Reading and Mathematics. More specifically, Objective 1.1 measures if 50% of regularly participating kindergarten through fifth grade students will meet their MAP test RIT Projected Growth Score in Reading and Objective 1.3 measures if 50% of regularly participating students will meet their MAP test RIT Projected Growth score in math by spring test administration. All MAP RIT Scores for both Mathematics and Reading were obtained from Scott for both fall and spring test administration. Of the 132 regularly attending student participants, 118 matched scores were available for analysis from the Reading RIT scores, a match rate of 89%. Forty-six (46) IMPACT students in grades k-5 met their Reading RIT score as shown in Table 13. Objective 1.1 did not meet the grant approved benchmark of 50% with only 39% of IMPACT student participants meeting their Reading RIT Score. Likewise, of the 132 regularly attending student participants, 118 matched scores were available for analysis from the Math RIT scores, a match rate of 89%. Fifty-six (56) students in grades k-5 met their Projected Growth score. Objective 1.3 did not meet the grant approved benchmark of 50% with 47% of IMPACT student participants meeting their math RIT score.

Subject	Number of regularly attending	Number of regularly attending students meeting Growth Score	(N)	% of regularly attending students who met Growth Score
Math	132	56	118	47%
ELA/Reading	132	46	118	39%

Table 13: IMPACT MAP	PROJECTED	GROWTH SCORES
	I ROJLCILD	UNUN IN SCORES

Objectives 1.2 and 1.4 measure the student's academic performance in Mathematics and Reading from Report Card grades. More specifically, the Objective 1.2 measures the extent to which 65% of regularly attending students either increased or maintained their grades from fall to spring in Reading. All *IMPACT* grades were entered into TransAct Systems for Quarter 1 fall 2022 and Quarter 3 spring 2023 and retrieved by RW for comparative analysis. Of the 132 regularly attending student participants, 129 matched scores were available for evaluation from the Reading Report Card grades, a match rate of 98%. One hundred and fifteen (115) *IMPACT* students in grades 1-5

have numerical Reading Report Card scores and 14 IMPACT students have pass/fail Reading scores. After comparison analysis of the grades, RW determined 104 students maintained the same grade from fall to spring semester, and 21 students increased their Reading Report Card grades. **Objective 1.2** met and exceeded the grant approved benchmark of 65% with 96.8% of *IMPACT* students maintaining or improving their Reading Report Card grades in k - 5. (Table 14)

Table 14:	IMPACT F	Report Card Grades			
Site	Subject	Number of regularly attending students with fall grades	Number of regularly attending students with spring grades	Matched N	% of regularly attending students who increased or maintained grades
IMPACT	ELA	132	129	129	125 (96.8%)
	Math	130	127	127	124 (97.6%)

Similarly, Objective 1.4 measures the extent to which at least 70% of regularly attending students either increased or maintained their grades in math. RW conducted a comparative analysis of student Report Card grades from fall and spring (Table 14) to assess the objective. Of the 132 regularly attending student participants, 127 matched scores were available for analysis, a match rate of 96%. One hundred and seven (107) students maintained their math Report Card grades and 17 students increased their math Report Card scores by 1 or more letter grade. Objective 1.4 met and exceeded expectations with 97.6% of IMPACT students maintaining or improving their math score in k - 5.

GOAL 2: Increase Parent Involvement

Goal 2 is focused on encouraging parent/family involvement in their child's education and awareness of their needs. Objectives measure the percentage of parents of regularly attending students who attended engagement activities throughout the academic year. To assess progress towards Objectives 2.1 and 2.2, RW analyzed sign-in sheets from parent events for IMPACT. As displayed in Table 15, IMPACT offered a total of 6 parent engagement opportunities with 293 parents in attendance as evidenced by the sign-in sheets.

To meet the benchmark for Objective 2.1, at least 50% of parents of regular attendees will attend at least two school sponsored events such as parent conferences and curriculum night. IMPACT served 132 regular attendees throughout FY23. Therefore, 66 parents would need to attend 2

school sponsored events and conferences. Three (3) *IMPACT* parent engagements were provided, and 150 parents were in attendance (dark-shaded events in *Table 15*). *IMPACT* met and exceeded *Objective 2.1.* For Objective 2.2, at least 50% of parents of regular attendees will attend 2 parent workshops related to academic support. Again, 66 parents would need to attend 2 different workshops. *IMPACT* provided 3 parent workshops with 143 parents in attendance (light-shaded events in *Table 15*). *IMPACT* met and exceeded the objective. *IMPACT* also offered 2 advisory board meetings during fall and spring to discuss the programmatic goals, offerings, and recommendations from stakeholders where parents were also in attendance.

Date	Activity	Attendance
September 9, 2022	Grandparent's Day	38
September 13, 2022	Dinner with Data	87
October 25, 2022	Fall Tech Refresh Family	25
February 16, 2023	RAMP University	24
March 22, 2023	GMAS & Title I Workshop	67
April 20, 2023	Georgia Milestones Assessment TOTAL	52 293

Table 15: IMPACT Parent Engagements

Goal 3. Improve Youth Development

Goal 3 examines improvements in regularly attending students' youth development by analyzing daytime school attendance and behavior. More specifically, Objective 3.1 measures if at least 25% or less of regular attendees in grades k – 5 will receive discipline referrals during the regular school day. Also, Objective 3.2 investigates if 95% of regular attendees will attend school during the regular school day at least 85% or better. RW received the attendance and discipline records of *IMPACT* regular attendees during the school day for fall and spring semesters.

Analysis of discipline data for Objective 3.1 concluded that a total of 132 students attended *IMPACT* for 30 days or more in k – 5 and 131 students have both fall and spring discipline records, a match rate of 99%. Two (2) or 1% of *IMPACT* students received discipline referrals. Therefore, *Objective 3.1 is met.*

After analysis of the attendance data for Objective 3.2, RW concluded 131 students have both fall and spring attendance data. Of the 131 students, 124 attended daytime school 85% of the time. Therefore, longitudinal analyses of both spring and fall attendance data indicate that 95% of scholars attended daytime school 85% of the time. *Objective 3.2 is met.*

VII. Objective Status

Table 16 provides a summary status of the *IMPACT* at Scott Objectives at the end of the 2022-23 academic year. As reported in the FY23 Common Data Elements form, 6 of the objectives are *Met*, and 2 *Did Not Meet* the grant approved benchmarks. Data collected included results from MAP Assessments, Sign-In sheets, the school's student information system (Infinite Campus), and TransAct System.

Table 16: IMPAC	T Status of	Objectives
-----------------	-------------	------------

	Objectives for IMPACT	Status of Objectives
Objective I.I	Fifty percent (50%) of regular attendees (students attending 30 or more days) in grades K-5 will meet their RIT Projected Growth Score in Reading on the Spring MAP Assessment.	Did Not Meet
Objective I.2	Sixty-five percent (65%) of regular attendees (students attending 30 or more days) in grades $K - 5$ will maintain or improve their grade in Reading.	Met
Objective I.3	Fifty percent (50%) of regular attendees (students attending 30 or more days) in grades K-5 will meet their RIT Projected Growth Score in Math on the Spring MAP Assessment.	Did Not Meet
Objective I.4	Seventy percent (70%) of regular attendees (students attending 30 or more days) in grades $K - 5$ will maintain or improve their grade in Mathematics.	Met
Objective 2.1	Fifty percent (50%) of parents of regular students attending 30 or more days) will attend at least two (2) school sponsored events such as parent conferences, curriculum night, open house, and PTA/PTO.	Met
Objective 2.2	Fifty percent (50%) of parents of regular attendees (students attending 30 or more days) will attend at least two (2) parent workshops related to academic support.	Met
Objective 3.1	Twenty percent or less (20%) of regular attendees (students attending 30 or more days) in grades K- 5 will receive discipline referrals during the regular school day.	Met
Objective 3.2	Ninety-five percent (95%) of regular attendees (students attending 30 or more days) will attend school during the regular school day at least 85% or better.	Met

VIII. Program Sustainability

Partnership Development is a collaborative effort between *IMPACT* and Atlanta Public Schools. During the 2022–23 school year, the leadership team worked with 7 program partners who contributed resources such as books, school supplies, food, and other donations. These funds were used for all programs operated by *IMPACT*. The contribution amounted to a total of \$4,500 for the school year as shown in *Table 17*.

Partner	Contribution Type	Amount
I. Active Youth Academy	In-Kind	\$1,000
2. EverFi Financial	Monetary	\$1,000
3. Triple T Towing	Monetary	\$300
4. Pickens T-Shirts and Printing	Monetary	\$1,000
5. Immaculate Conceptions Videography	Monetary	\$200
6. Ga Tech Graduate Association	Enrichment	\$500
7. Questions with Qri, LLC	In-Kind	\$500
Total	\$4,500	

Table 17: FY23 IMPACT Partner Contributions

IX. Other Observations

The Afterschool Alliance began promoting the importance of afterschool programs in 1999 with the first Lights On Afterschool, a day for communities across the nation to raise awareness of the crucial contributions that afterschool programs make to students, families, schools and the community. According to the 2022 report of America after 3 pm, 11.3 million children in the United States remain unsupervised between the hours of 3 pm and 6 p.m. on weekdays. These children are losing the opportunity to participate in art and music classes, science experiments, field trips, and all the other activities that take place in afterschool programs across the country.

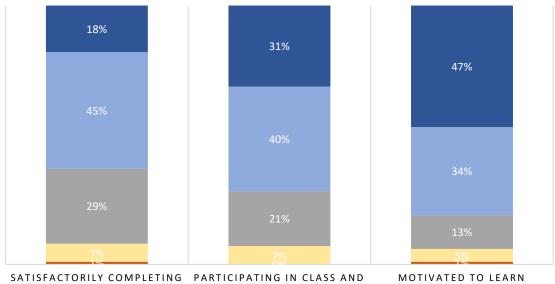

On October 27, 2022, *IMPACT* recognized Lights On Afterschool virtually by educating students about the 21st Century Community Learning Centers across Georgia and how the funding is dedicated to keeping kids safe. *IMPACT* scholars were allowed to celebrate Lights On Afterschool by playing academic games, coloring lightbulbs, and fun writing/drawing activities about why they enjoy *IMPACT*.

How Well Are We Doing? The purpose of this evaluation is to obtain feedback from school day teachers about their perception of the afterschool program and the habits of *IMPACT* scholars. Information is collected on homework completion, students' motivation, support from adults and attentiveness. More precisely, they were asked to assess the level of functioning and report the demonstrated level of improvement as: no need to improve, significant improvement, moderate improvement, no change, slight decline, moderate decline, and significant decline. These measurements are vital as they provide information that can be used to improve academic performance and social development. *IMPACT* is successful in receiving responses from 121 teachers to the state-mandated end-of-year Teacher Engagement in Learning Survey. The results of the Teacher Surveys are presented in *Figure 4*.

SATISFACTORILY COMPLETING PARTICIPATING IN CLASS AND MOTIVATED TO LEARN HOMEWORK ATTENTIVE

X. Summary of Findings and Recommendations

<u>Summary</u>

Based upon the program operation reported in this evaluation, it can be concluded that *IMPACT* at William J. Scott completed Year 3 with fidelity and designed an afterschool program tailored to address the pre-existing academic performance gaps within the student population. *IMPACT* programmatic activities are strategically aligned with the goals and objectives outlined in the 21st CCLC proposal funded by GaDOE. At the end of Year 3, *IMPACT* "Met" 6, and "Did Not Meet" 2 of the grant approved benchmarks. Additional significant accomplishments—based on analyses of program documentation, survey, and report card data—are listed below.

- *IMPACT* offered 3.25 hours of face-to-face afterschool programming four days per week, for 125 days from September 6, 2022, through May 25, 2023.
- *IMPACT* provided programming to 157 registered students, of which 132 or 84% were regularly attending students.
- Engaged students with high-*quality* academic support and instruction closely linked with the school day.
- Offered 12 students with disabilities high-quality enrichment opportunities.
- Yielded high program satisfaction among students and parents.
- Engaged 293 parents in high-quality workshops and other events designed to identify their child's needs and support their child's academic growth.
- Improved students' academic standing and academic behaviors.
- *IMPACT* maintained the standard of excellence with 99% of all students receiving less than 2 discipline referrals during the school year and 95% of all students attended the school day 85% of the time.

As with most 21st CCLC programs, the end of the year is a time of reflection, revision and amending. In addition to the previous recommendations, it is the opinion of RW to consider future discussions of the following in upcoming leadership meetings.

• Consider additional academic remediation in Reading and Mathematics. Student academic performance in both Reading and Mathematics resides below the 50% benchmark for the MAP Assessment. Perhaps tracking the students' academic progress on iReady with supplemental assignments to take home for areas of low performance will assist in academic attainment. Likewise, sending home iReady progress reports may highlight the areas of needed academic growth.

• Continue to gather program stakeholder feedback and make changes to programming accordingly. Consider allowing students and parents to play a larger role in the program planning process by inviting them to plan meetings and ensuring that their opinions are heard.

Recommendations are intended to identify ways for *IMPACT* to further enhance the activities that are currently in place so that each participating student can acquire the knowledge and skills needed to meet the expectations stated in the program objectives. All recommendations are carefully considered and are only included if they will help the program make greater impact.
