

Greetings Potential Career Day Participant,

Benjamin E. Mays High School is proud to announce our Annual College and Career Motivation Week for the 2019-2020 school year. We are a Title 1 public high school in the Atlanta Public School district. We are truly proud of our namesake, who inarguably set the path for careers in health, sciences, and agriculture, and in many ways paved the way for African Americans in this industry.

Please mark your calendar for **Wednesday, November 20, 2019**. We would like for you to volunteer to share highlights of your career, as well as lessons learned along the way. We will host Career Day from 8:30am-1:00 pm. This time includes a welcome and introduction period, a continental breakfast, and a short debrief following the event. If you can join us, please feel free to be as creative as you can to engage our students in various activities. All careers are welcome! This year our school theme is:

“Preparing Today for Future Endeavors”

We definitely encourage the use of the following to enhance your presentation: accompanying handouts, photographs, brief video presentations or any other prop or demonstration to enhance your presentation. Each classroom has a Promethan Board and a projector. Let us know if you need additional equipment.

We really appreciate you taking time out of your busy schedule to share your expertise and experiences. For your convenience, the registration link is included below. Once registered, additional information regarding your assigned timeframe will be sent out a week prior to the event. **However, please feel free to contact anyone from our team if you have any questions or concerns at 404-802-5100.**
