

MTSS at Cascade Elementary

MTSS (Multi-Tiered System of Supports) is a comprehensive framework designed to provide all students with the academic, behavioral, and social-emotional support they need to succeed. It uses a tiered approach, offering varying levels of interventions based on individual student needs—from universal classroom strategies to more intensive, personalized assistance.

At Cascade Elementary, MTSS ensures that every student receives tailored support to overcome challenges and reach their full potential. This system helps identify areas where students may need extra help, such as reading, math, behavior, or emotional regulation, and provides targeted interventions to address those needs effectively.

The MTSS process at Cascade Elementary involves regular monitoring of student performance, data-driven decision making, and collaboration among educators and families. If you have questions or would like to learn more about how MTSS can support your child, please reach out to the school's MTSS support specialist, Mrs. Sonyja Minor, at Sonyja.Minor@apsk12.org.
