Here in Atlanta, AF also works to address some of the urban pressures impacting reptiles as well. There is perhaps no group more misunderstood and despised than venomous snakes. AF has been working with the community since the beginning to help people discern facts from fiction and even teaches a training course on how to handle venomous reptiles safely. Come explore these awe-inspiring animals, and let's see how much of that fear is actually fascination.</li> <li>• Audience: All ages/ 6:00pm to 7:30pm/ FREE / Visit <a href="https://atlantasciencefestival.org/events-2023/417-biology-of-the-despised/">https://atlantasciencefestival.org/events-2023/417-biology-of-the-despised/</a></li>   <li>❖ Atlanta Science Festival: GET OUTSIDE AND GET INVENTING!</li> <li>• Sticky feet that climb anything. Trunk-like robotic arms. Super-sensitive hearing. Is this a kind of new superhero? No! These are examples of REAL technology made with bionics. In this FUN and interactive presentation by children's science author Jennifer Swanson, you will get an inside look at many awesome inventions being created by engineers right now. Then it'll be YOUR turn! You'll get instructions on how to go outside, find an animal and create your own bionic invention. What will YOU design? Please note that Little Shop of Stories asks that you mask for events in their store. First come, first seated until we reach capacity.</li> <li>• Audience: All ages/ 6:30pm to 7:30pm/ FREE / Visit <a href="https://atlantasciencefestival.org/events-2023/306-get-outside-and-get-inventing/">https://atlantasciencefestival.org/events-2023/306-get-outside-and-get-inventing/</a></li>   <li>❖ Atlanta Science Festival: STARS, "MOON ROCKS" AND OTHER OUT OF THIS WORLD AWESOMENESS</li> <li>• Join us for an evening of star gazing in our observatory and get a unique chance to explore objects from outer space!
