

Enrollment and School Facility Utilization Report 2022-23 SY

Introduction

Atlanta Public Schools hired a consulting firm to develop a Facilities Master Plan (FMP) in October 2019. The plan was completed in July 2022 after a pause during the COVID pandemic. One of the recommendations by the consultant was for the APS Planning Department (within the Operations Division) to perform an annual review of enrollment projections and utilization (enrollment divided by capacity) for each school in the district.

Process

Enrollment projections for the next five school years are developed using a combination of historic enrollment trend (Figure 7 in Appendix), number of live births in the city (Figure 8 in Appendix), and residential building permits (Table 13 in Appendix) issued by the City of Atlanta.

Kindergarten (KK) enrollment is projected based on number of live births and US Census data. Historic capture rates (live births in each elementary school zone as compared to the kindergarten enrollment five years later, see Figure 2 in Appendix) are used to generate projected kindergarten enrollments for the next four years.

Progression rates based on historic enrollment data by school and grade are used to project enrollments for grades 01-12 at each neighborhood school. This process includes calibration of the model based on an analysis of the accuracy of prior years' projections and adjustments to the progression rates.

Residential building permit data is used to develop cluster-wide student yield rates, or the number of new students generated by each housing type. Table 13 in the Appendix shows cluster yield rates for each of the three housing types. Yield rates are then used to adjust projected enrollment to account for anticipated additional students due to new development.

The projected enrollment and historic enrollment by school are shown in the Appendix in Table 14.

Utilization at each school is calculated based on capacity and projected enrollment. Capacities for each facility are calculated by class size and number of core classrooms available. Class sizes for capacity calculations are shown in the Appendix in Table 15.

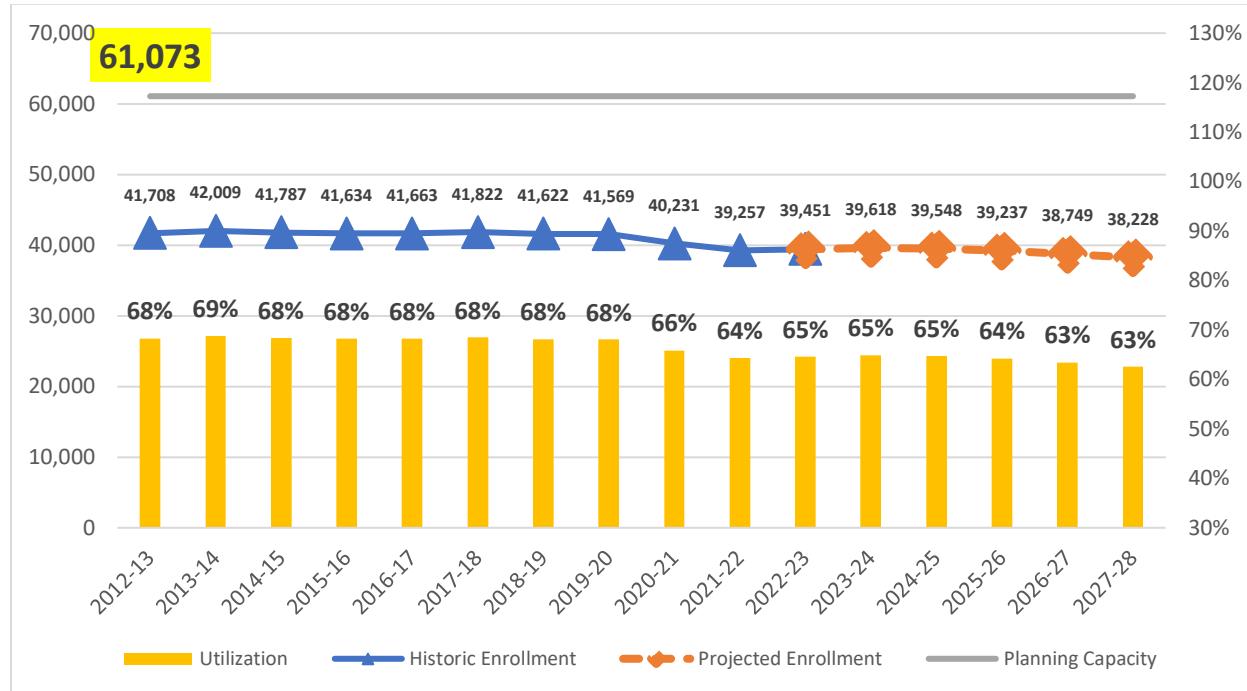

Planning staff develop enrollment projections annually, compare enrollments with facility capacity to assess utilization, and share projections and capacity with principals for review. This review by the principals is conducted in December of each year. The enrollment and capacities in this report reflect any feedback received from the principals.

Please note that some capacities in this report may differ from the capacities used during the Facilities Master Planning process, as detailed reviews were conducted in cases where there were discrepancies between internal calculations and consultant calculations. Principals confirmed capacities that were revised as part of this review process. Capacities for each facility are listed in the Appendix in Tables 16 through 19.

Results

The following chart shows the district's historic enrollment, capacity, utilization for the last 10 years and projections for the next five years. Total enrollment for the current year (2022-23) is 39,451 – excluding charter and non-traditional schools but including Centennial Academy (conversion charter) – while the district has over 61,000 seats. The current utilization for the district is 65% which represents over 21,000 excess seats. Projections indicate that enrollment will decline slightly in the next five years to a utilization rate of 63%.

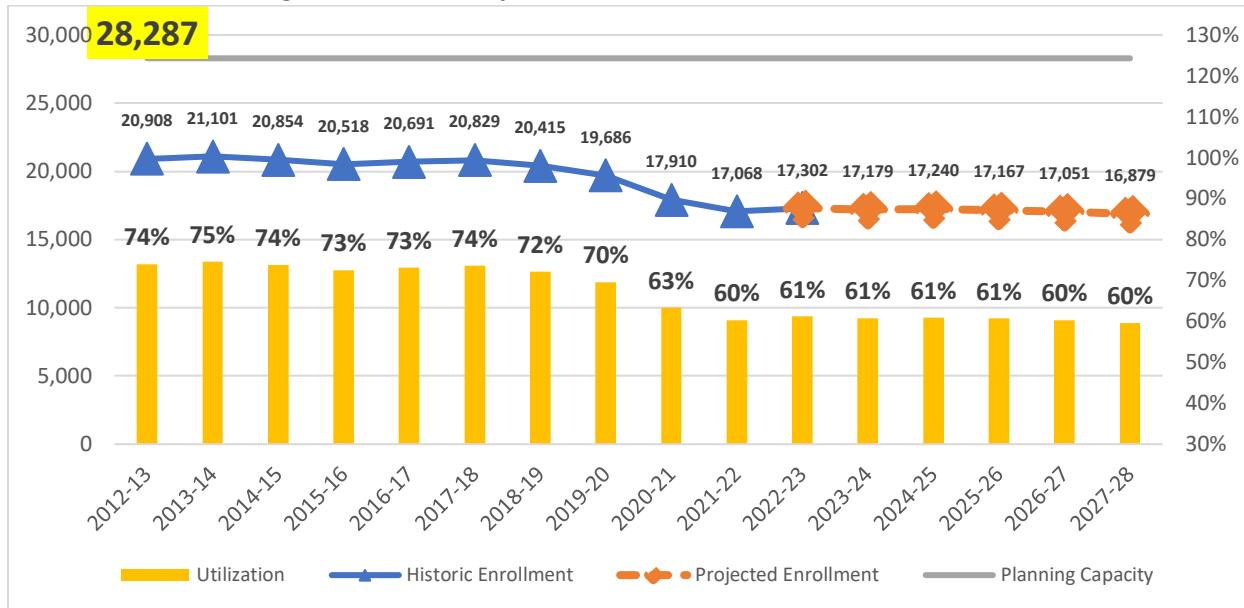

Figure 1. District Enrollment*: 2012-13 to 2027-28

*Excludes charter & non-traditional but includes Centennial Academy

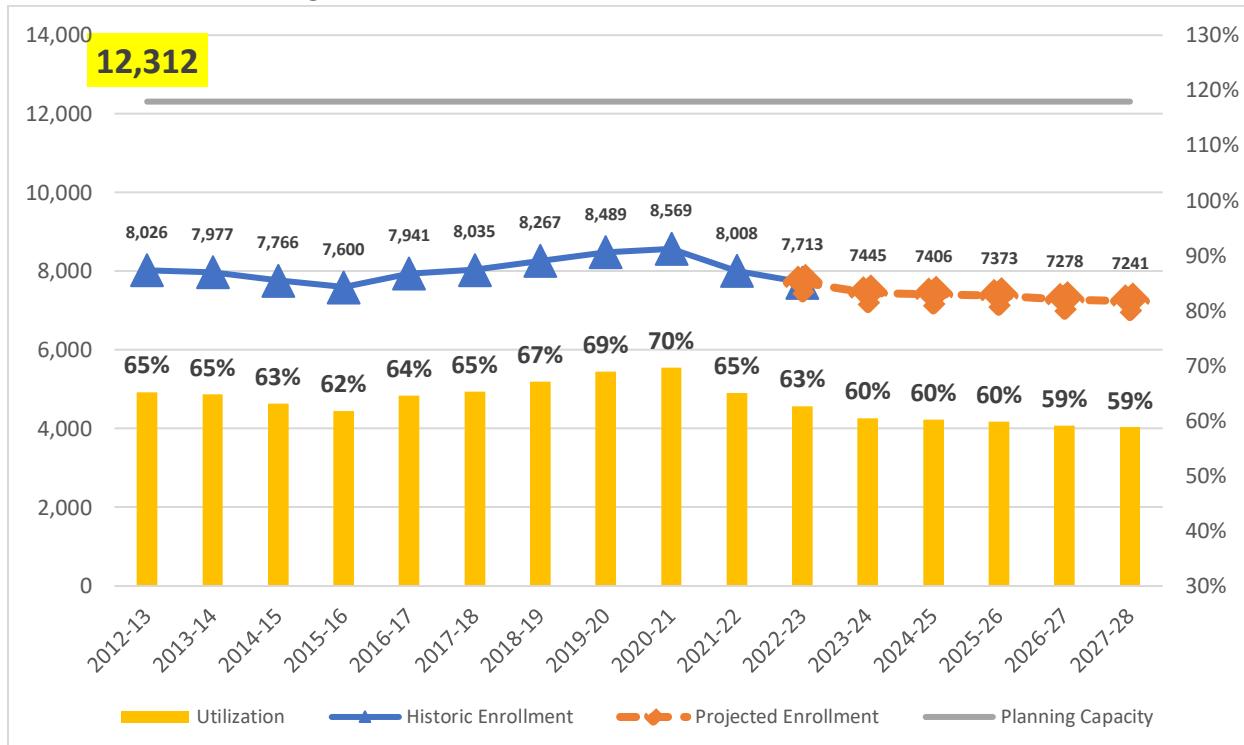

Charts for total elementary, middle, high, and alternative grades are below.

Figure 2. Elementary School Enrollment*: 2012-13 to 2027-28

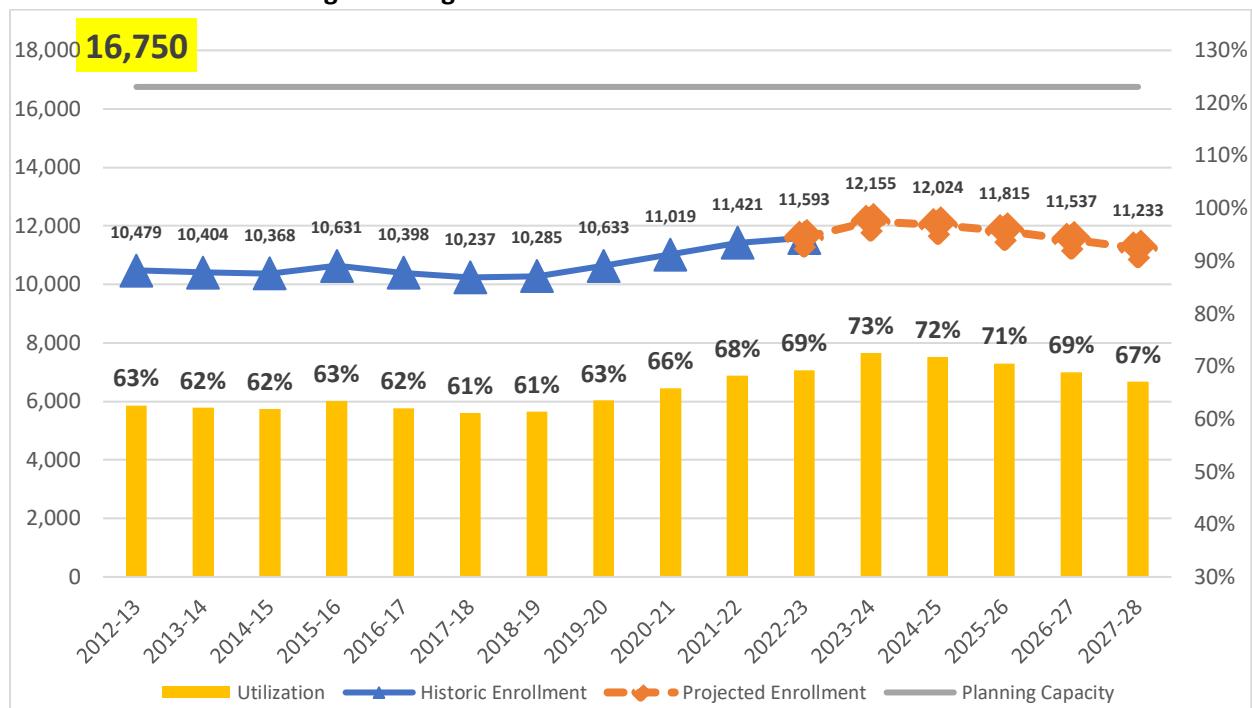

*Excludes charter & non-traditional but includes Centennial Academy

Figure 3. Middle School Enrollment*: 2012-13 to 2027-28

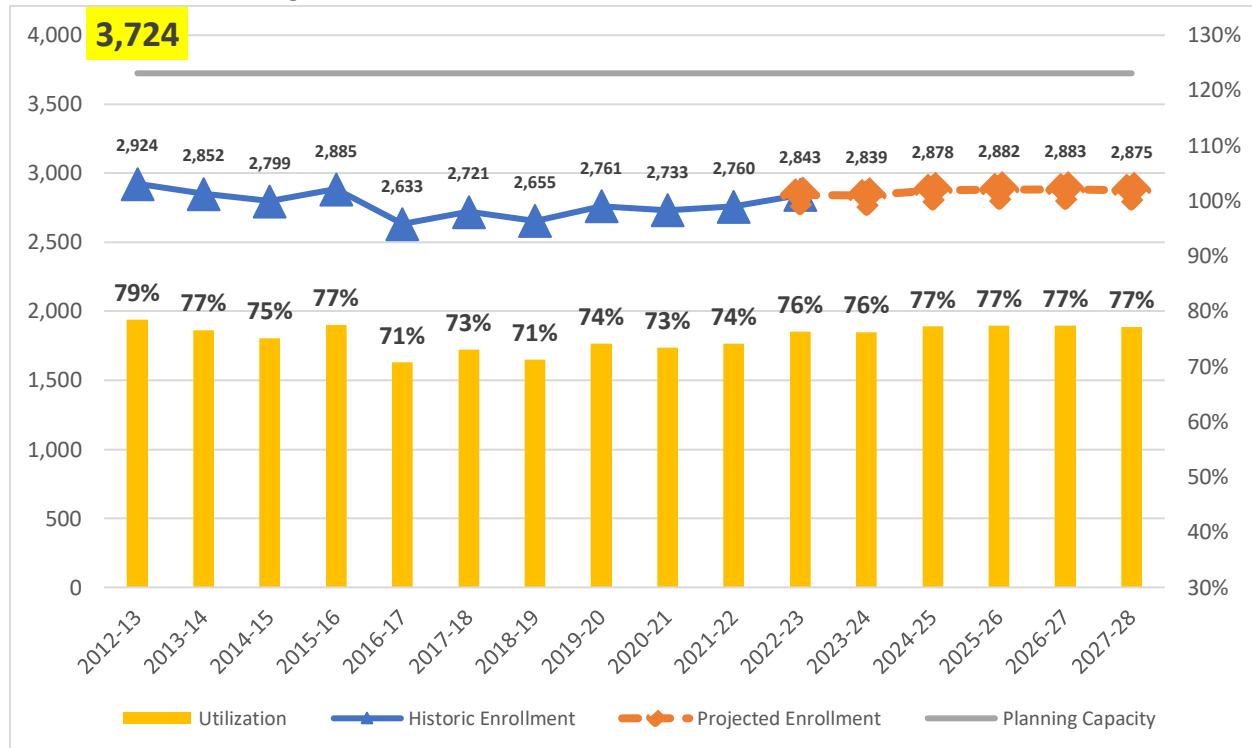

*Excludes charter & non-traditional but includes Centennial Academy

Figure 4. High School Enrollment*: 2012-13 to 2027-28

*Excludes charter & non-traditional

Figure 5. Alternative Grade Enrollment*: 2012-13 to 2027-28

Based on the analysis of projected enrollment, capacity, and utilization, APS has developed triggers for action as shown in Table 1.

Table 1. Utilization Categories

Utilization Levels	Category	Trigger/Action
>100% in 2 or more of next 3 years (action needed)	Red	Triggers action
>95% in 1 or more of next 5 years	Yellow	Monitor annually
80-95% over next 3 years	Green	No action
65-80% over next 3 years	Blue	No action
<65% in 2 or more of next 3 years	Purple	Monitor annually until possible action in 2025-26 SY*

*No action is proposed for under-utilized schools (<65%) for the next 2 years. Annual review and potential proposals in 2024-25 SY would be in effect for Fall 2026 (if any action is taken).

Actions to address over-capacity schools are discussed below in Next Steps.

Schools that have utilizations less than 90% based on projected enrollment and capacity are identified and students from out of zone are allowed to enroll as part general administrative transfer process.

The following table shows the number of schools in each category by cluster.

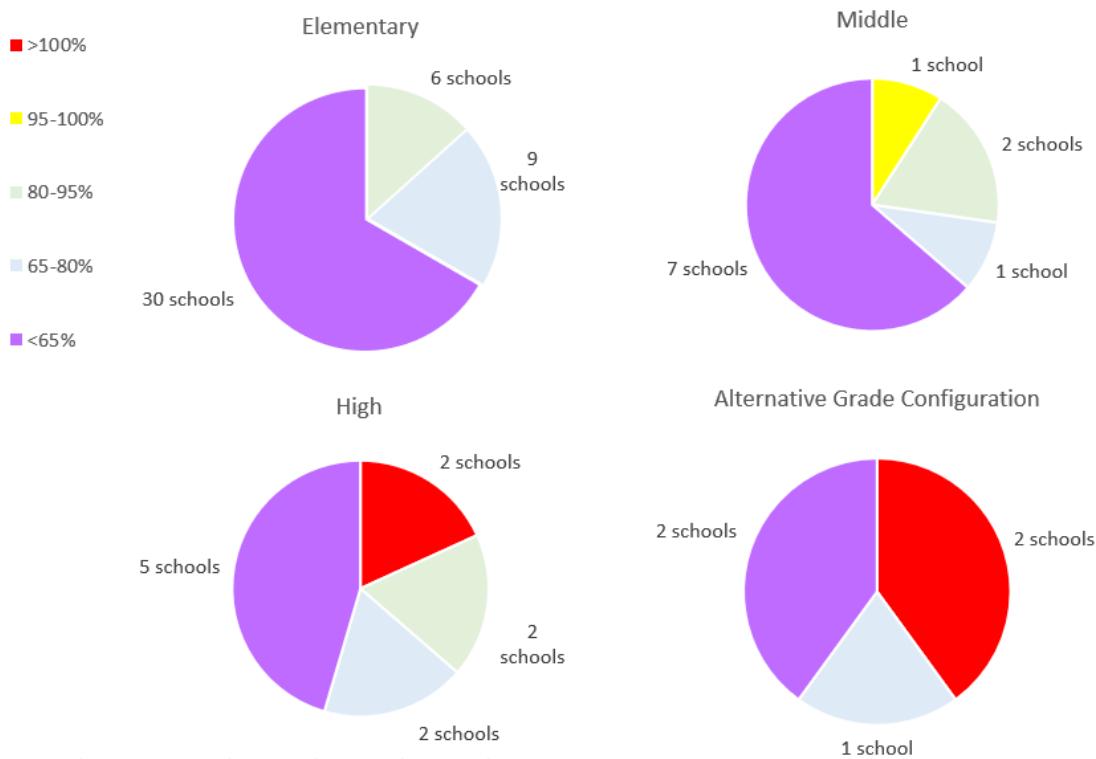

Table 2. Schools in Utilization Categories by Cluster

Cluster	Red (>100%, 2 of 3 years)	Yellow (>95%, 1 of 5 years)	Green (80-95% over 3 years)	Blue (65-80% over 3 years)	Purple or 3 years)	Total
Carver			1	1	6	8
Douglass	1		1	1	8	11
Jackson	1	1	2	1	3	8
Mays			1	1	5	7
Midtown	2		2	2	2	8
North Atlanta			2	6	4	12
South Atlanta					7	7
Therrell			1		5	6
Washington				1	4	5
District	4	1	9	14	44	72

Schools listed in the Red category (four schools) will be the focus when developing strategies in Spring 2023 while schools in the Purple category (forty-four schools) will be addressed starting Spring 2025.

The chart below shows categories by school type.

Figure 6. Projected Utilization Categories by School Type

The following tables list individual schools and category type by cluster.

Next Steps

Based on the SY2022-23 review, four schools have been identified for action this spring.

Table 12. Four Schools Triggering Action in Spring 2023

School	Capacity	23-24	24-25 Enr	24-25	25-26	26-27	27-28	5-Year Avg
Centennial Place (KK-08)	546	147%	807	148%	147%	148%	147%	147%

Maynard Jackson HS	1,500	102%	1,500	100%	100%	101%	99%	100%

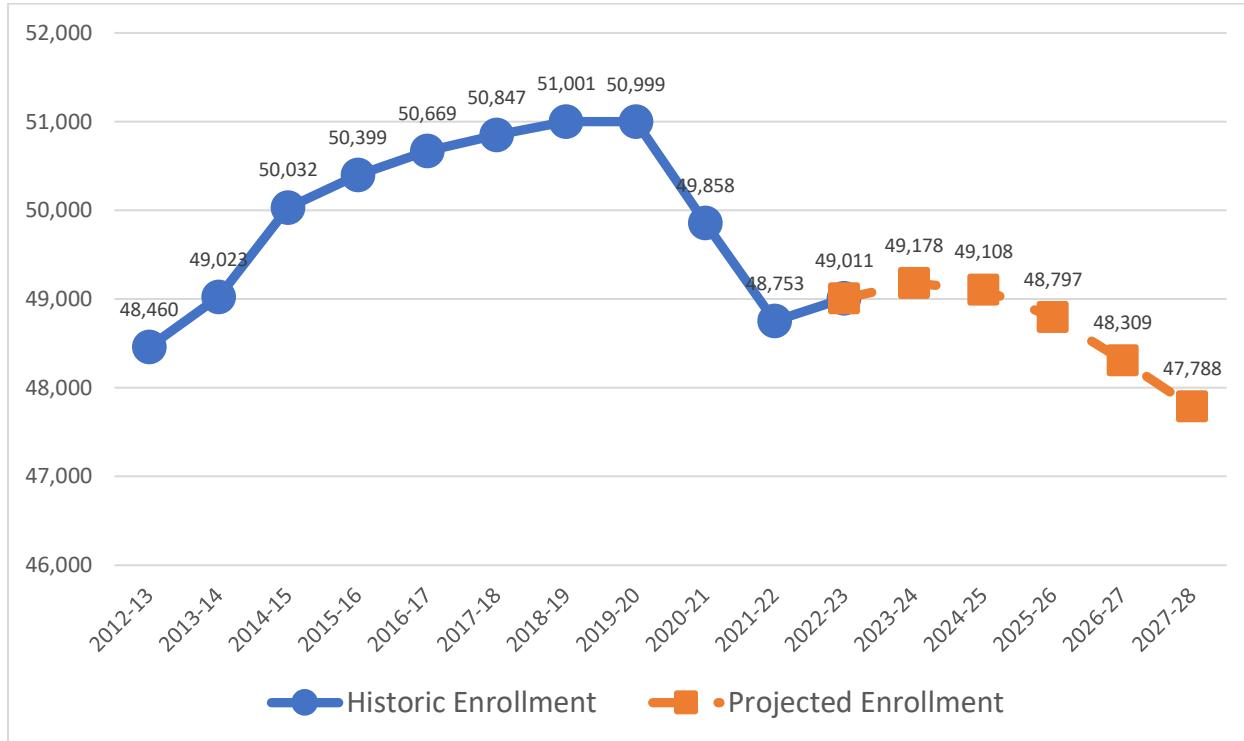

Timeline

Note: Engagement should leverage our Culturally-Responsive Stakeholder Engagement Strategies and ensure the voices of students, staff, families, and the community are heard and valued throughout the process.

- February (Data Overview): Share and receive feedback on the Annual Report data, potential impact, and timeline for the next steps.
- March (Scenarios): Share and receive feedback on 2-3 potential scenarios that resolve capacity issues and provide the rationale for each scenario.
- April (Draft Recommendation): Share and receive feedback on one staff-recommended option (not the final recommendation) and the rationale for recommendation.
- May (Board First Read, if needed): Share and receive feedback on the Superintendent's recommendation to the board as first read.
- June (Board Second Read, if needed): Share and receive feedback on the Superintendent's recommendation to the board as second read.
