❖ **Atlanta Science Festival: BIOLOGY OF THE DESPISED: SNAKES!**

- The Amphibian Foundation seeks to elevate awareness of the global amphibian declines. Here in Atlanta, AF also works to address some of the urban pressures impacting reptiles as well. There is perhaps no group more misunderstood and despised than venomous snakes. AF has been working with the community since the beginning to help people discern facts from fiction and even teaches a training course on how to handle venomous reptiles safely. Come explore these awe-inspiring animals, and let's see how much of that fear is actually fascination.
- Audience: All ages/ 6:00pm to 7:30pm/ FREE / Visit <https://atlantasciencefestival.org/events-2023/417-biology-of-the-despised/>

❖ **Atlanta Science Festival: CHEMISTRY BONANZA DEMO SHOW!**

- Come see exciting chemistry reactions and demonstrations! We will explore the chemistry of polymers, combustion reactions, cloud formation, and even a few fireballs. How do you speed up a reaction? Or slow it down? We will explore it all! Liquid nitrogen ice cream will be served as well—tasty chemistry! There is limited seating for this event. Reserved tickets do not guarantee a seat. Arrive early to ensure your seat.
- Audience: ES/MS / 5-6pm / FREE with advanced registrations
