

APS Turnaround Strategy

Board of Education Meeting

November 2, 2015

Agenda

Overview of turnaround strategy

Preliminary implementation plan & next steps

Reminder: APS has developed a high level school turnaround strategy; school-by-school strategy still to be developed

8-week engagement with The Boston Consulting Group

Aug 11 – Oct 6

Develop district turnaround strategy,
building on district's existing work

Ongoing APS work

After October 6

Develop school-by-school
turnaround strategy

Over the course of the project, we:

- **Engaged stakeholders to gain their perspectives on the current state and gather input on potential strategies:**
 - Interviews with principals, parents, and other community members
 - School-based conversations with parents, teachers, and students
 - Engagement of the wider community via Community Advisory Committee, Community Town Hall, Community survey, and public focus group
- **Conducted data analysis** of CCRPI scores to help understand current performance
- **Synthesized external research** on turnaround strategies

These inputs as well as ideas from a joint APS-BCG Working Group and Steering Committee informed the development of a high-level turnaround strategy

Next steps include:

- **Assess school needs and context and partner with schools and communities** in matching strategies with schools
- **Continue dialogue with the broader community**
- **Continue existing efforts** and begin taking **near-term actions** that are part of the strategy

Multiple inputs informed the development of the strategy

Current APS efforts

- Build upon existing work at APS
- Get input from district leadership

External research

- What has worked elsewhere?
- What does research/evidence say?

Stakeholders

- How do stakeholders view/react to options?

Beating the odds

- What are APS turn-arounds doing well?
- What can we learn from them?

Evaluation of ideas

- Theory of change
- Strength of evidence
- Strategic fit
- Level of support
- What you need to believe

POTENTIAL STRATEGIES

Ideas

- Guiding principles
- Evaluation of cost, operational feasibility
- Engagement plan

STRATEGY

CURRENT PERFORMANCE, NEEDS & ROOT CAUSES BY GRADE SPAN/CLUSTER/COMMUNITY

Data analysis

- Analyze data to identify trends/patterns to inform strategy

Educators/communities

- Hear from educators, parents, students & community
- Identify cross cluster and cluster specific needs/root cause issues

District leadership input

- Learn from leaders' experience within and outside APS
- Understand cross cluster and cluster distinctions and needs

As reported at October board meeting, several major themes emerged from engagement and research

① Academics	<ul style="list-style-type: none">• Low-performing schools lack consistent high-quality classroom instruction• Low-performing schools have large numbers of students who are behind; we must provide additional instructional supports to help them catch up
② School leadership	<ul style="list-style-type: none">• Many APS principals are not equipped with necessary turnaround expertise; APS must both support the current team and recruit additional turnaround leaders• Must build strong bench of future leaders by investing in teacher leaders and APs
③ Teachers	<ul style="list-style-type: none">• High-quality classroom instruction is central to turnaround. Many teachers in low-performing APS schools need a solid foundation of support from the district, school administrators, and coaches to improve• APS must have a strategy to attract and retain talented educators
④ Students engaged and ready to learn	<ul style="list-style-type: none">• Many kids in low-performing schools have non-academic needs (e.g. mental health, nutrition, housing, safety) that keep them from being ready to learn<ul style="list-style-type: none">– Schools, city services, and community partners must do more to help
⑤ Urgency of the situation	<ul style="list-style-type: none">• Given the number of schools with dire student need and very low performance, something more than programmatic changes may be needed<ul style="list-style-type: none">– Structural changes made elsewhere include school reconstitution, consolidation, and partnering with non-profit charter school operators• APS must be thoughtful about any structural changes and work with communities, taking into account school context and the need for stability

Our strategy is designed to address all five themes

1

Academics

- Provide all APS students with access to consistent, high-quality instruction delivered by teachers with knowledge of both the content and the standards
- Supplement instruction with intensive direct-to-student support targeted at expediting progress in literacy and math

2

School leadership

- Increase coaching and support to school leaders to develop their skills as turnaround leaders
- Recruit and place strong, turnaround-experienced leaders

3

Teachers

- Attract, develop, support, and retain high quality teachers across the district
- Differentially staff high-quality teachers in high-need schools

4

Students engaged and ready to learn

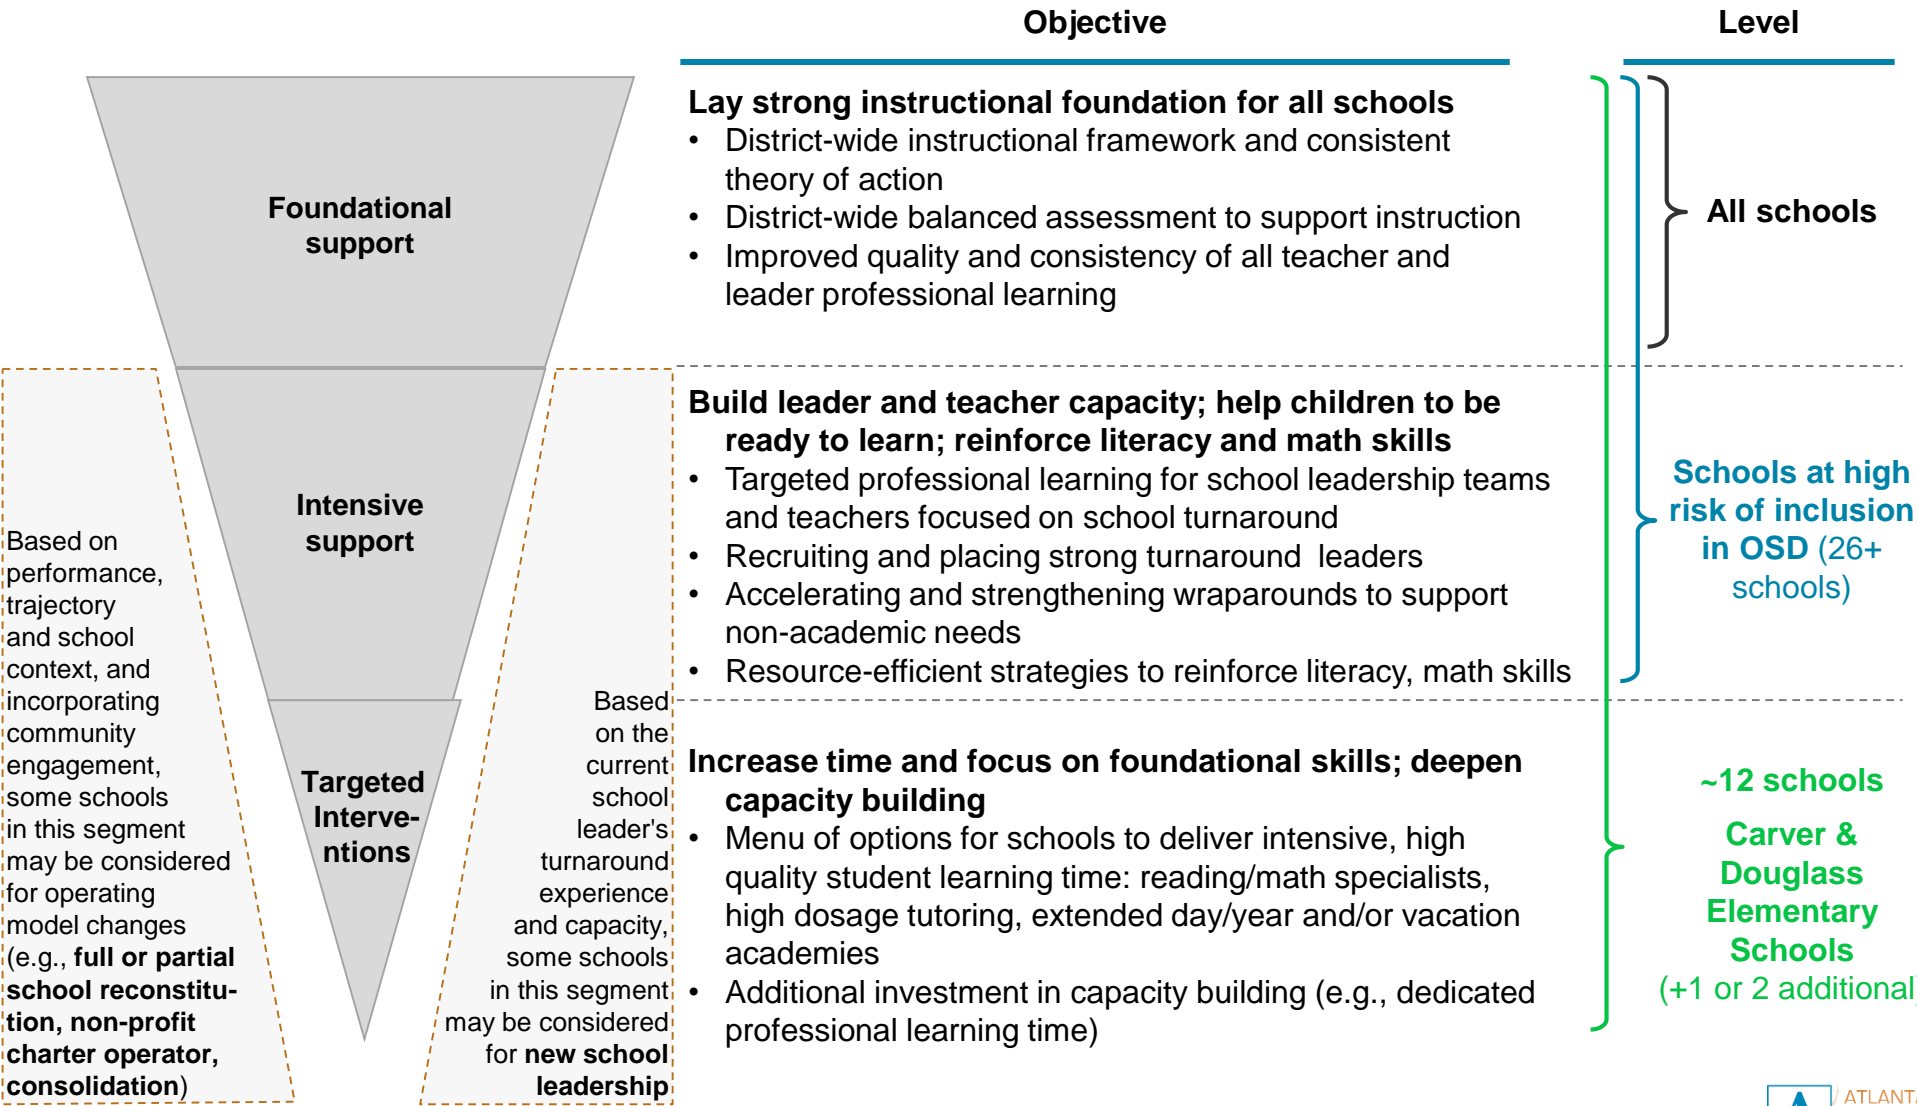

- Deliver targeted support to address non-academic needs (e.g. social/emotional, health, nutrition) enabling children to be more ready to learn

5

Urgency of the situation

- In collaboration with communities, pursue operating model changes where turnaround requires more significant change than the district can address using programmatic approaches (e.g., consolidation, partnership with non-profit charters to operate schools, school reset)

Tiered approach will provide most extensive support to a small subset of schools

Note: Mobility support segment TBD

We explored several scenarios for selecting initial schools to receive targeted interventions; ultimately chose cluster strategy

Approach Selected

Scenario 1: Achievement

- Select ten lowest performing schools based 3-year CCRPI average

Scenario 2: Achievement + growth

- Start with scenario 1
- Adjust for upward trajectory in CCRPI score, i.e. schools with strong progress may be taken out of consideration for targeted support in favor of others with less strong trajectory

Scenario 3: Include all grade spans

- Start with scenario 2
- Include at least one low-performing MS and HS by further adjusting for CCRPI growth

Scenario 4: Cluster strategy

- Start with schools with lowest three-year average CCRPI
- Focus on 1-2 clusters with highest concentration
- Add schools from other clusters based on 2015 data

Initial focus will be on elementary schools in Carver and Douglass clusters (12), with potential to add a few additional elementary schools from other clusters based on 2015 CCRPI data

- Nearly all of lowest performing schools are Elementary
- Through 2014, 9 of 14 lowest-performing ES in Carver or Douglass cluster
- Targeting by grade span and cluster allows focus in execution, aligns with cluster strategy
- May choose to intervene in additional ES if data suggests extreme need

Schools with lowest three year average CCRPI (page 1 of 2)

School	Cluster	Grade level	SY '15 enrollment (utilization)	Three yr average CCRPI	2012 CCRPI	2013 CCRPI	2014 CCRPI	State progress percentile
Thomasville Heights Elementary School	Carver	E	366 (39%)	38.3	34.7	37	41.9	10th
Mary Mcleod Bethune Elementary School	Washington	E	520 (63%)	42.1	39	42	45.2	1st
Grove Park Intermediate Elementary	Douglass	E	285 (39%)	46.5	-	49.8	43.1	3rd
Elija Lewis Connally Elementary School	Washington	E	384 (38%)	46.5	42.7	57	39.8	3rd
Thomas Heathe Slater Elementary School	Carver	E	556 (70%)	47.7	51.7	45.9	45.6	12th
5 Daniel H. Stanton Elementary School	Jackson	E	249 (30%)	47.9	56.5	48.4	38.7	1st
William J Scott Elementary School	Douglass	E	331 (41%)	49.0	35.9	58.5	52.6	1st
Paul L. Dunbar Elementary School	Jackson	E	406 (81%)	49.5	45.1	51.2	52.3	21st
Charles L. Gideons Elementary School	Carver	E	458 (56%)	49.6	43.5	57.1	48.2	10th
George A. Towns Elementary School	Douglass	E	339 (50%)	49.8	40.9	59.1	49.3	7th
10 Benteen Elementary School	Jackson	E	304 (51%)	49.8	44.7	56.6	48	17th
T. J. Perkerson Elementary School	Carver	E	589 (84%)	50.3	55	54.4	41.5	2nd
William M. Boyd Elementary School	Douglass	E	505 (88%)	50.7	53.1	50.7	48.3	13th
Carver Tech (now Early Coll.)	Carver	H	626 ¹ (N/A)	50.8	52.5	50.9	48.9	18th
F. L. Stanton Elementary School	Douglass	E	280 (66%)	51.5	50.9	53.5	50	5th

Highlighted schools represent Carver & Douglass elementary schools that will receive targeted interventions

1. Combines Carver Tech and Carver Early College enrollments; utilization would include other Carver high schools

Schools with lowest three year average CCRPI (page 2 of 2)

	School	Cluster	Grade level	2015 enrollment (utilization)	Three yr average CCRPI	2012 CCRPI	2013 CCRPI	2014 CCRPI	State progress percentile
	Peyton Forest Elementary School	Mays	E	461 (74%)	51.6	52.3	53.8	48.6	7th
	Booker T. Washington High School	Washington	H	835 (51%)	51.8	43.2	57.1	55.2	65th
	Bazoline E. Usher Elementary School	Douglass	E	436 (48%)	52.2	51.2	48.1	57.4	78th
	John Wesley Dobbs Elementary School	South Atlanta	E	531 (59%)	52.3	53.6	49.8	53.4	12th

	Harper-Archer Middle School	Douglass	M	667 (61%)	53.4	47.5	52.7	60.1	32nd
	Fred A. Toomer Elementary School	Jackson	E	343 (49%)	54.1	58.1	52.3	51.9	9th
25	L. O. Kimberly Elementary School	Therrell	E	508 (62%)	54.2	48	58.9	55.6	41st
	BEST Academy Middle School	Single gender	M	309 (32%)	54.2	43.9	64.2	54.6	23rd
	William Finch Elementary School	Carver	E	552 (58%)	54.3	51.9	62.5	48.6	7th
	Continental Colony Elementary School	Therrell	E	472 (79%)	54.8	53.1	57.1	54.2	9th
	Emma Hutchinson Elementary School	South Atlanta	E	438 (53%)	55.2	42.8	55	67.9	15th

Highlighted schools represent Carver & Douglass elementary schools that will receive targeted interventions

Agenda

Overview of turnaround strategy

Preliminary implementation plan & next steps

The implementation plan is still in development, but may include the following:

	Begin this school year (15-16)	Begin next school year (16-17) (in addition to continuing Yr 1 work)	Begin after next school year (in addition to continuing Yr 1 /2)
Foundational (all schools)	<ul style="list-style-type: none"> Build instructional framework, incl. planning, delivery, analysis & approved supports Provide improved PL & instr. coaching Add principal coaches 	<ul style="list-style-type: none"> Build out teacher retention efforts (e.g., prof. learning opptys, pathways) Implement balanced assessment sys. Add principal manager/coaching capacity (hire Spring 2016) 	
Intensive (26+)	<ul style="list-style-type: none"> Lay the groundwork for placement of high quality staff in SY17 <ul style="list-style-type: none"> Turnaround leaders Highly effective teaching staff Instructional coaches (potentially rehire) Engage selected communities on consolidation, non-profit charter options 	<ul style="list-style-type: none"> Place new leaders, teachers, instructional support staff Run leader academy (over summer) Run teacher academy (over summer) Strengthen instructional support staff Continue rolling out SEL/PBIS/RJ Place mental health/other support FTEs Potentially execute some operating model changes: consolidate, initiate non-profit charter partnerships, or reconstitute 	<ul style="list-style-type: none"> Continue with initiatives started in previous two years, working to evaluate, refine, continually improve, and to expand to broader subset of schools Focus on long-term talent strategy of building instructional staff and school leader pipelines Begin / continue implementation of complementary initiatives in turnaround schools (e.g., expanded Pre-K)
Targeted (~12)	<ul style="list-style-type: none"> Begin rolling out high-dosage literacy tutoring Pilot "more time" initiatives where feasible Hire reading & math specialists to support schools during next school year 	<ul style="list-style-type: none"> Ext. student learning focused on foundational skills (e.g. ext. day/year, vaca acad) Support quality collaboration via PLCs Refine "leveling" policy to allow schools to retain recently hired top teacher talent Support schools/partners in providing wraparound services 	
Implementation Support	<ul style="list-style-type: none"> Increase project management capacity Set up process for evaluating implementation Secure resources for turnaround Secure third-party support in targeted areas (e.g., talent sourcing) 	<p>DRAFT – WILL BE REFINED OVER THE COURSE OF THE 15-16 SCHOOL YEAR</p>	

Implementation of the turnaround strategy requires several key next steps

Final alignment on which initiatives are priorities for this year, which are priorities for next year /beyond

Identify cross-department leadership team to guide the overall effort

Project management function to coordinate the effort

- Ensures timely execution
- Measures progress against implementation goals

Owners and teams aligned to each major set of near-term activities

- Includes initiatives and interventions such as development of Leader Academy
- Also include supporting activities such as coordination between district and schools

Sufficient resources put against each initiative with a focus on equity

- Includes agreement on reallocation within existing budget

Structure and process for working with and supporting schools

- Evaluation of needs
- Developing school strategies and implementation plans
- Engaging school communities

Comprehensive public engagement and communications strategy

- Cluster-specific town halls
- Faculty meetings

Appendix

Current high-level view: District-level turnaround strategies and sequencing

	Already in progress	Starting in the near term (ASAP)	In the medium term (after this school year)
1 Academics	Establishment of cluster signature programs	<p>Define excellence in planning, delivery and analysis of classroom instruction for all students & require teachers to have knowledge of content and standards; roll-out high dosage tutoring in select schools</p> <p>Plan and begin roll-out of supplemental academic supports and real time assessment system</p>	Provide additional intensive academic supports (e.g., reading/math specialists, extended learning time)
2 School leadership	Strategic school leadership hires and proposal for ALDP with TNTP	<p>Develop and support current leaders by creating a Leader Academy and providing appropriate central district support (e.g. reduce ratio of principal to coach/supt)</p> <p>Assess current leadership, begin building turnaround leader pipeline</p>	Hire and place turnaround leaders, continue building pipeline
3 Teachers	Implementation of district level talent management strategy for teachers	Plan/begin implementation of teacher development strategy (e.g., training) and prioritized staffing policy	Attract, develop, support, and retain high-quality teachers in turnaround schools, including prioritized staffing
4 Students engaged and ready to learn	Initial roll out of social & emotional learning programs intended to improve behavior in schools	Plan expansion of wraparound supports, social/emotional programs, early childhood education and development of community partners	Expand wraparound supports (e.g., mental health), social/emotional programs, early childhood education and development of community partnerships
5 School operating model	Establishment of the Charter System model to meet the needs of all students		<p>Engage community to consider broader changes as warranted by school-specific conditions</p> <ul style="list-style-type: none"> E.g., full or partial school reconstitution, partnership with non-profit charter operator, consolidation /school closure

1 Define what high quality classroom instruction looks like and ensure teachers are capable of delivering effectively

Goal

Provide all APS students with access to consistent, high-quality instruction delivered by teachers with knowledge of both the content and the standards

Actions needed

1. For all APS schools, articulate an academic theory of action and a framework for delivery of instruction

- Articulate a thinking curriculum aligned with each cluster's signature program, infrastructure of support, and formative assessment process
- Define instructional framework (lesson planning, delivery of instruction, formative assessment, use of data, balanced assessment system)
- Align to Georgia Standards of Excellence with a focus on literacy and math (including appropriate use of instructional time and appropriate resources – e.g., balanced literacy)
- Implement a set of district-wide instructional shifts and practices that are aligned with the theory of action and framework for delivery of instruction

2. Build capacity of teaching staff by providing more instructionally focused professional learning for teachers, leaders, and instructional support staff

- District-led professional learning 4-5x during the school year by grade level or grade span for all schools (may shift professional learning days before / after school year)
- School-level implementation of high quality collaboration time (Professional Learning Communities) for lowest-performing schools
- Turnaround school instructional staff return one additional week prior to start of school year for intensive planning, professional learning and targeted training
- Training and support of the development of strong instructional support staff (instructional coaches, content-area specialists, etc.)
- Implementation of a shared data inquiry methodology

Provide intensive supplemental academic supports

Goal

Supplement Tier 1 instruction with intensive support targeted at enhancing and expediting progress towards achievement

Actions needed

- 1. Establish and communicate to educators a short-list of proven academic supports and interventions; reduce low-efficacy practices in the classroom**
 - E.g., Supply reading specialists to students who struggle with reading
- 2. Develop and fund rigorous and engaging extended day and/or extended year programs**
 - Provide additional high quality instruction and learning time for high-need students
- 3. Offer high-dosage tutoring to students in high-need schools**
 - Provide intensive and personalized tutoring in small group settings (e.g., 45 min tutoring per student per day) to accelerate remediation and engage students
 - Explore partnerships with local universities or programs for recent graduates for tutoring talent (e.g., City Year, Match Corps)
- 4. Offer intensive literacy and math instruction during school breaks to struggling students through "vacation academies"**
 - Explore models that would support educator professional learning (e.g., recruit exemplar educators to serve as coaches)
- 5. Explore strategies to better meet needs of our students with disabilities**

Develop and support current leaders and build pipeline

Goal

Develop and place strong turnaround leaders with the specific skills required to support and drive turnaround in low performing schools

Actions needed

1. Design, fund and implement a Leader Academy program for turnaround leader cohort tailored to the unique needs of each turnaround leader

- Focused and intensive training targeting existing APS leaders (Associate Supes & principals) with capacity and receptiveness to develop turnaround-specific skills
- Leverage TNTP leader development program funded by i3 to build a pipeline of turnaround leaders by investing in associate principals and teacher leaders

2. Develop and execute talent strategy to identify, attract, and place school leaders with successful turnaround experience in high-need schools

- Explore financial and non-financial incentives to attract strong talent to lead low performing schools

3. Reduce the ratio of principals to associate superintendents / principal coaches to ensure turnaround leaders receive adequate supports from central district

- Add roles as necessary to ensure ratio is consistent with current best practice
- Review job description of principal coaches and refine if needed to ensure instructional support focus

Attract, develop, support, and retain high-quality educators in turnaround schools

Goal

Develop a holistic talent strategy to ensure we attract, develop and support high quality educators in our underperforming schools to serve high-need students

Actions needed

- 1. Prioritize placement of highly effective educators in highest need schools**
 - Adjust policies to enable prioritized staffing for eligible, high need schools
 - Explore financial and non-financial incentives to attract strong teaching talent to low-performing schools (e.g., offer high quality PL and compensate for time)
 - Explore staffing policies which would allow turnaround leaders to bring key administrative and instructional staff to immediately bolster talent in the building
- 2. Create programs to invest in and recognize high quality teachers to drive retention**
 - Explore creative ways to recognize and support educators such as offering attractive professional learning opportunities
 - Expand development of teacher leader pathway to allow highly effective teachers to take on more responsibility and increase their individual impact
- 3. Pursue "hold-harmless" policy to shield high need schools from staff leveling**
 - Lock staffing allocation for eligible schools at the outset of the year and maintain staff levels for duration of school year even if enrollment declines
 - If required to move staff out, relax the "last in, first out" policy to keep highly effective staff

Expand non-academic supports that help ensure children are ready to learn

Goal

Deliver targeted support to address non-academic needs (e.g. social/emotional, health, nutrition) enabling children to be more ready to learn

Actions needed

- 1. Refine and accelerate implementation of SEL, PBIS, and restorative justice**
 - Focus on the deployment of a single SEL/PBIS program for each cluster to deepen implementation and create cluster continuity for students
- 2. Increase support for students' mental health needs**
 - Need for mental health counselors and additional psychologists
 - Explore partnerships with local universities to deploy graduate students into high need schools for externships (e.g. Philadelphia School District & Drexel University)
- 3. Address mobility challenges to achievement through policy/program changes**
 - Evaluate options to enable students to finish year in original school after moving
 - *Likely requires significant transportation process change to enable*
- 4. Support clusters and schools in developing and deploying high quality partnerships with third party providers of comprehensive wraparound supports**
 - Supports such as early childhood education, social workers, nurses/clinics, etc.
 - E.g. Communities in Schools, Families First

Engage community to consider operating model changes as warranted by school-specific conditions

Goal

In collaboration with communities, pursue operating model changes where turnaround requires more significant change than the district can address using programmatic approaches

Actions needed

1. Consider reconstituting schools (i.e. placing new leader and requiring staff to reapply for their positions)

- Focus on schools with very low performance, where a new leader will be placed, and where there is low confidence that school can turn around with current teaching staff
- Work closely with cluster and school community to weigh benefits of reconstitution against potential disruption that would accompany staff turnover

2. Identify schools that could be candidates for consolidation

- Focus on schools with low and flat/declining enrollment and a broad set of needs, ideally located close to a higher performing school with capacity
 - Consolidation decisions will require deep understanding of local context
- Work closely with cluster and school community to evaluate option

3. Initiate discussions with successful non-profit school operators and with communities about potential for partnerships

- Focus on schools with low performance, where there are indications of community openness to charters
- Understand how many high-quality operators would be interested in operating an APS neighborhood school and their credentials for operating a turnaround school including track record of academic success and of partnering with communities
- Understand community interest in potential partnerships

APS schools ranked by three-year average CCRPI

(Page 1 of 5)

	School	Cluster	Grade level	SY '15 enrollment (utilization)	Three yr average CCRPI	2012 CCRPI	2013 CCRPI	2014 CCRPI	State progress percentile
