

2018 CCRPI Data Report

On October 29th, the Georgia Department of Education released the redesigned Career and College Readiness Performance Index (CCRPI). With the reauthorization of the main federal law governing public education as the Every Child Succeeds Act (ESSA) in 2015, Georgia had the opportunity to reflect on several years of CCRPI implementation and revise the CCRPI to expand upon its successes and address shortcomings. As a result, the redesigned CCRPI is simpler and streamlined, but due to changes in the CCRPI components and indicators, and the weighting of components, a one-to-one comparison of past CCRPI scores to recently released scores cannot be made. Still, comparisons across 2018 scores provide crucial detail on the performance of Atlanta Public Schools compared to the rest of the state.

The new CCRPI reporting system is composed of four components for elementary and middle schools and five for high schools.

Content Mastery – The achievement of students in English language arts, math, science, and social studies.

Progress – A measure of growth in ELA and math that students have made relative to academically-similar students across Georgia and a measure of the progress English-Learners are making towards English-language proficiency.

Closing Gaps – The extent to which all students and all student subgroups are meeting annual achievement improvement targets.

Readiness – A measure of literacy, student attendance, and enrichment beyond core academic subjects in middle and elementary schools, while additionally including accelerated enrollment, pathway completion, and a demonstration of college and career readiness for high schools.

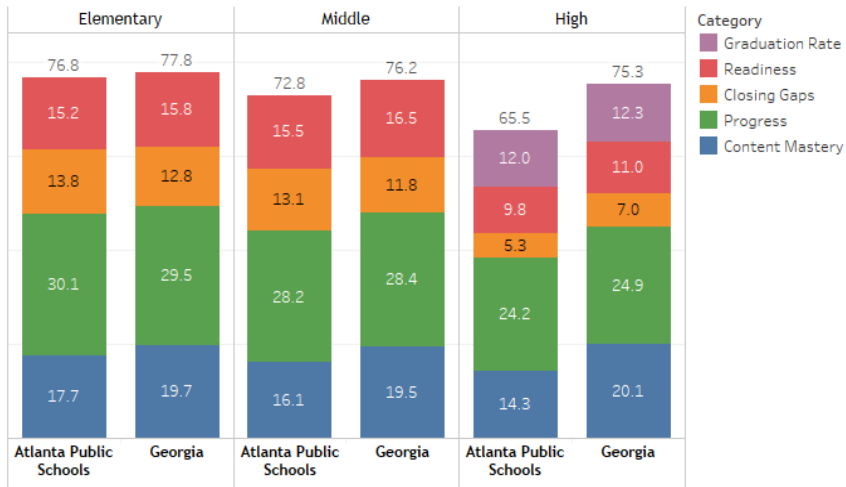

Graduation (high schools only) – Four year and five year adjusted cohort graduation rates.

Consistent with state law (O.C.G.A. § 20-14-33), CCRPI scores will be reported on a 0-100 scale. All CCRPI components are reported on a scale of 0-100 as well to increase ease of understanding. To calculate a school’s CCRPI overall score, components are weighted and then combined. The figure below details the weight of each component in overall CCRPI scores by grade band.

Figure 1: CCRPI Component Weights by Grade Band

	Elementary	Middle	High
Content Mastery	30%	30%	30%
Progress	35%	35%	30%
Closing Gaps	15%	15%	10%
Readiness	20%	20%	15%
Graduation Rate	--	--	15%

Figure 2: Atlanta Public Schools & State CCRPI Scores by Grade Band 2017-2018

APS trails the state in overall CCRPI score at the elementary, middle, and high school level, but outperforms the state in progress at the elementary level and in closing gaps at both the elementary and middle school level.

To assist in further understanding of

the revised CCRPI calculation, this document is broken out into four sections:

Section 1: CCRPI District Trends (Pages 3 – 4) – This section shows performance by cluster and the district’s student growth by grade and course.

Section 2: CCRPI Scores (Pages 5 – 8) – This section includes performance of clusters and schools by 2018 CCRPI score.

Section 3: 2018 CCRPI Component Scores (Pages 9 – 12) – Tables in this section display performance of each component in the revised CCRPI by school level and sorted alphabetically.

Section 4: Student Growth by Subgroup (Pages 13 – 14) – These tables report the percent of students falling into different growth categories by subgroup.

Section 1: CCRPI District Trends

Figure 3 details each cluster's average CCRPI score. Two clusters, Grady and North Atlanta, scored above the state's overall CCRPI score of 76.2.

Figure 3: Average CCRPI Score by Cluster

*CCRPI cluster averages use a weighted average based on October 2017 FTE count

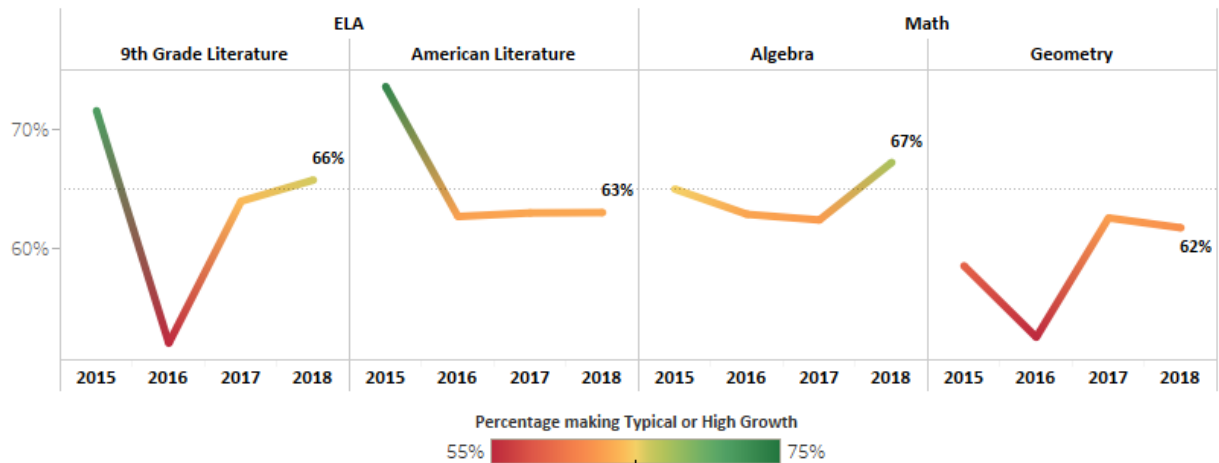

The percent of students making typical or high growth on both ELA and math End-of-Grade Milestones increased across Atlanta Public Schools. Students demonstrating typical growth maintain or improve their academic status and students establishing high growth make greater improvements in their academic status. While apples-to-apples comparisons of CCRPI cannot be made across years, the definition of typical and high growth remains unchanged from 2017 and earlier. In 9 out of 10 subject-grade combinations, the percent of students making typical or high growth improved from 2017 as shown in **Figure 4**. The largest increase occurred in 8th grade for both ELA (+8%) and math (+10%).

Shown in **Figure 5**, the percent of students making typical and high growth increased in 9th grade literature (+2%) and algebra (+5%). Geometry decreased by one percent and American literature stayed flat year-over-year.

Figure 4: Percentage of Students Making Typical or High Growth by Subject over Time, End-of-Grade
Dotted line indicates state average (65%)

Figure 5: Percentage of Students Making Typical or High Growth by Course over Time
Dotted line indicates state average (65%)

Section 2: CCRPI Scores

Tables 1 through 5 list school CCRPI score by grade level. 27 schools in APS performed above the state in their respective grade levels.

Table 1: APS Elementary Schools with CCRPI Scores above State

School	CCRPI Score
Morningside Elementary School	97.8
Brandon Elementary School	96.5
Jackson Elementary School	96.4
Lin Elementary School	93.1

Section 3: 2018 CCRPI Component Scores

The five components of CCRPI measure many aspects of a child such as preparation for the next grade, academic growth, on-time graduation, and college and career readiness. Tables 6 through 8 detail how well schools performed in each of the indicators on a 0 to 100 scale.

Table 6: Elementary CCRPI Component Performance

School	Content Mastery	Progress	Closing Gaps	Readiness	CCRPI Score
Atlanta Classical Academy	74.4	80.2	12.5	91.3	70.5
Atlanta Neighborhood Charter - Elementary	84.7	94.4	78.6	91.6	88.6

Section 4: CCRPI Progress Percentages by Subgroup

In the past progress was calculated based on the percentage of students having a growth percentile of 35 and above. In the revamped CCRPI calculation, progress utilizes weights based on 4 growth levels— 1-29, 30-40, 41-65, and 65-99. The table below displays the percent of students in APS in each of the growth weights by subgroup for elementary, middle, and high school.

Table 9: Distribution of Elementary Student Growth Percentiles (SGPs) in ELA & Math

Subgroup	1st – 29th SGP	30th – 40th SGP	41st – 65th SGP	66th – 99th SGP
All Students	30.4%	10.5%	25.4%	33.7%
American Indian/Alaskan Native	41.2%	17.7%	17.7%	23.5%
Asian/Pacific Islander	20.4%	8.6%	29.0%	41.9%
Black	32.6%	10.7%	25.2%	31.6%
Hispanic	30.7%	10.6%	26.9%	31.9%
