It is with great pride and excitement that I write this spotlight of introduction to you as your 21st Century Program Director. For the duration of this school year, we must work together to give our children the best opportunity to become self-motivated learners and productive citizens. Parents, teachers, support staff, and administration all play an important role in encouraging our children to become active learners. Through a collegial partnership with everyone associated with the 21st Century Program at Scott elementary school, I am confident that our students can continue to learn and grow as we uphold our county's mantra that students do come first!

As the Program Director, my door is always open and I welcome your input. Please don't hesitate to reach out to me with any suggestions or concerns you might have.

Byron Purnell, EdS
Program Director
(404) 802-7022
