

PAUL LAURENCE DUNBAR ELEMENTARY SCHOOL

Greetings Dunbar Elementary and Mechanicsville Community,

I am so excited about the future of Paul Laurence Dunbar Elementary School. As Principal and instructional leader, I am excited and honored to continue working together in collaboration with you for a successful school year.

It is my expectation that we develop an environment where students receive a first class education and the staff works cohesively with all parents to build a caring culture of love, trust, collaboration that leads to student success. I fully believe in creating an engaging and family-oriented school environment.

We will focus on three critical areas to develop measurable actions to accomplish these goals as a team. Those goals include....

- ♥ Ensuring Dunbar Elementary School is a place where students feel proud of their school and are excited to learn in a safe, clean, and caring environment.
- ♥ Providing students engaging and rigorous learning activities infused with project-based learning and state of the art technology.
- ♥ Supporting parents with the resources needed for their child's academic progress and social emotional well-being.

Once again, I am excited to serve the Dunbar Elementary and Mechanicsville community.

Yours faithfully,

Ernest Sessoms, Jr.
