Discussion ItemsStrategic Plan/School Innovation Ideas

Strategic plan is currently a working document in place for Beecher Hills. Objectives were selected based on 15-16 Milestones Data. Additional decisions will be made based on Feb. 2017 budget when it becomes available. Team should reflect and make adjustments based on current/future needs.

- Academic Program- Discussed options for summer school at Beecher Hills- same hours, same dates as APS Summer Academy, offer remediation and advancement courses for students. Discussed extended day options- questions about how this would be affected by budget constraints. Discussed subject acceleration options- subject specific acceleration

classes. Need Infinite Campus support to capture grades. Discussed early admission options for 3-4 year olds, will need additional support with funding, inclusion in services.

- Talent management- gifted endorsement for all teachers so all students benefit. Discussed wavier from required school days for students- Interested in options for more teacher professional development and how this would look.
- Culture- Discussed what a K-8 school might look like, decided that it was a massive undertaking that would take a great deal of discussion, option still open to the team. Discussed revoking admission for administrative transfer students after missing 4 days of school- excused or unexcused absences- would take immediate withdrawal and forfeit spot. Team also concluded that we would like the requirements to match measurements used for evaluation purposes for teachers and administrators.
