In ELA we met our 6% goal that was set for ELA. In mathematics we increased by 4% and in Science we increased by 3%. As a school we were able to increase in every area. Ms. Momon stated that are achievement dat is above the prepandemic levels. She also discussed that or subgroups in SWD students with disabilities are not making the gains. We discuss how can we help those students. We also talk about the trends across the district and how those students are scoring higher.

Ms. Momon discusses the strategic plan. The strategic plan is a guide for the work we're doing in the school. She discusses that we have to modify the plan and ranking the priorities. We took this time to see if the goals of Improvement Plan and Strategic Plans align. Ms. Momon goes over each goal. At this time we have a discussion on how to align our priorities so that we can make adjustments. The Go Team we all talked about the things that we notice and wondered. Ms. Rowe, Ms. Joiner, Ms. Tarver all gave their insight about what the noticed about the data. As a whole we have to come up with a plan to help SWD students to get to the next level. Ms. Tarver also suggested that we need more parent involvement. She also wanted to know if parents had different programs to help the students. Ms. Momon talked about data night and different ways parents can come to the different nights. Ms. Joiner also talked about all the resources available to students with SWD.
