Dr. Earls shared with the Team the school's strategic plan beginning with the District Mission and Vision, the Douglas Cluster Mission and Vision and F. L. Stanton's Mission and Vision. Next we discussed F. L. Stanton's signature program, STEM (Science, Technology, Engineering and Math) and STEM Integration- Interdisciplinary and Project Based Teaching and Learning. Dr. Earls led the Team through a discussion of the school's priorities and strategies for achieving a desired outcome. The Team then reviewed key performance indicators for 2016 by grade level contrasted against desired outcomes. The goal is to "increase the percentage of students in the Development Proficient and Distinguished categories in each of the core content areas on GMAS (state standardized assessment).

The discussion then turned to strategies for achieving improvement towards goals, resource implications and specific strategies for maintaining high student attendance for purposes of learning outcomes.

All of the above was summarized in prepared materials provided to Go Team members for discussion purposes. (See attachment A) There was some discussion about consequences for not achieving desired goal increases by grade level.

It was moved and seconded that the “Strategic Plan” be adopted and indorsed without qualifications. Meeting was adjourned at 4:50 p.m.
