## IV. Discussion Items

### A. Universal Screener

MAP stands for Measure of Adequate Progress is a computer adaptive test created by NWEA™ that kids take two to three times per school year. MAP is used to measure a student's performance level at different times of the school year and compute their academic growth. MAP helps schools and teachers know what your child is ready to learn at any point in time. Teachers can see the progress of individual students and of their class.

## V. Information Items
