***There are areas in the Climate Survey that need to have issues addressed so that we meet and exceed the district average***

- Clear rules for behavior
- high standards (*both teachers and students*)

***Average Daily Attendance***

- How is this being addressed?
- Is the 2016 data correct?

***Discipline***

- Is there a discipline team?
- What are the plans for students with chronic discipline challenges so that we don't go past the suspensions per student numbers? ***We are well over that district average.***

- ***Safety of Student and Visitors to this Building***

- What safeguards are in place for the building?
- Are there new safeguards in place for the students?
- How are we measuring these safeguards?

**School Priorities****Key Performance Measures**

- Graduation Rate- what measures are in place to assist MHS in maintaining and increasing this rate to stay above the district average.
- What are our measuring tools for the potential changes in tutorial?
- What do we expect to see?
- Who will monitor this progress?
- How will we engage parents in this process?
