Discussion Items

- 1) Library Partnership
 - a) Executive representing Fulton County libraries attended Board Member Leslie Grant's recent constituent coffee. Funding is available to partner with schools to reimagine "the library". Opportunity to pilot a program in the Grady cluster. This fits with our concerns re: literacy, and also to figure out how we might outfit the new middle school media center.
 - b) Herrera suggested that the contact point be the media specialist in each school
 - c) Price: wonders how stable the funding source is

- d) May not need as much space for books, but need more break-out collaboration spaces, along with technology capability (outlets)
 - e) APS Class Pass collection funding is available through the library - can help with Race to Read.
 - f) Dr. Bockman to follow up with the library representative
- 2) Security/ Sandy Hook Promise
- a) APS going forward with parts of the initiative, particularly See Something Say Something - school personnel and students will receive training. This initiative enhances existing practices. Gets students on board with the need to look out for each other.

Information Items

- 1) Principal's Report
 - a) No current report but we will discuss the Excellent Schools Committee's efforts at our next meeting in December
- 2) Design Team report clarification
 - a) Need a system for reporting out from the design team meetings. Gail and Sharon are the GO Team members serving on the committee, along with Dr. Bockman.

Announcements
