

Pre-K Mid-Year Updates

As we move towards the second half of the school year, please continue to work with your child in learning how to spell and write their name. It is important that students be able to print their name on paper. For Language and Literacy, while at home, continue to have students learn all letters of the alphabet, both upper-case & lower-case letters. This can be done by having your child practice writing the alphabet and saying each letter aloud.

For Mathematical Thinking, please continue to work with your child in learning to count and recognize numbers #1-20. Practice counting different objects around the home or while outside so that your child understands counting and number quantity.
