## Extended Family (Grand, Foster, Adopted, Kinship Parent) Resources

### Kinship Care

515 Fairburn Road SW

Atlanta, Georgia 30331

404-505-2272/3958

<https://dhs.georgia.gov/kinship-care-portal>

The Georgia Division of Family and Children Services (DFCS) has launched this program in direct response to the increasing number of grandparents and other caregivers who have assumed responsibility for raising another relatives' child(ren). As of 2013, 16 percent of all children in another's care are placed with kin. The Kinship Navigator Program is designed to support and assist relative caregivers, understanding the importance of keeping children within their family unit, when their biological parent cannot adequately provide for them.

Who does the Kinship Navigator Program serve?

A kinship caregiver serves as a short or long-term caregiver for relative child(ren). A kinship caregiver can be a grandparent, aunt, uncle, sibling or anyone who has established a 'kin-like' bond with the child(ren). The majority of kinship care arrangements are informal, private arrangements between parents and relative caregivers, while other situations arise

as a result of involvement with the child welfare system. Kinship caregivers may also apply for child support services at no cost at their local Division of Child Support Services (DCSS) office or by completing an application for services through the DCSS Customer Online Service

Project Healthy Grandparents

Tiffany McKesson

Phone: 404-413-1125

<http://phg.snhp.gsu.edu>

Our mission is to improve the quality of life for families in which grandparents are raising grandchildren in parent-absent homes. The overarching goal of the program is to strengthen grandparent-headed families by providing social work and health services, support groups, legal assistance referrals and improved access to community resources. Through these interventions, PHG seeks a reduction in the stress level of intergenerational families, and stabilization or improvement in their social, physical, and mental well-being.

**Social Work Services**

Monthly home visits by the social worker include strength-based family assessment, goal setting, case management and information, advocacy, and referral services. Social workers coordinate services with project nurses and the early intervention staff.

**Health Services**

Monthly home visit by a registered nurse includes a health assessment of the grandparent with a focus on blood pressure, weight, cholesterol, diabetes and vision screening. To link families to needed health resources, families are visited monthly by a registered nurse and/or receive appropriate referrals through the social worker. Grandchildren are screened for health issues and current immunization. Children aged five and younger are screened by project healthy Grandparents early intervention specialists and assessed for developmental delays at the Emory Neurodevelopment Exposure Clinic.

**Grandparent Support Groups**

Each month the Grandparent Support Group meets on the Georgia State University Campus. The Group is a forum for mutual sharing encouragement. Sessions are facilitated by a masters-prepared social worker. Transportation is provided.

**Parenting Education Classes**

Parenting Education Classes are provided throughout the year and meets on the Georgia State University campus. Parenting Education topics include behavioral management, parent child interaction, positive parenting strategies, and child development. Qualified professionals such as social workers and therapists conduct the classes. Transportation is provided.

## Transportation

During the year of participation in Project Healthy Grandparents, transportation is provided to monthly grandparent meetings, appointments for developmental evaluations at the Emory Neurodevelopment Exposure Clinic and PHG sponsored special events.

## Early Intervention Services

Project Healthy Grandparents professional staff identify grandchildren ages 0-5 years who may have developmental delays due to prenatal exposure to drugs and/or alcohol. If delays are indicated, a referral is made to the Emory Neurodevelopment Exposure Clinic for a thorough medical, social psychological and educational evaluation. PHG then works with grandparents to implement the recommendations of the Emory Neurodevelopment Exposure Clinic. Referrals are made to appropriate public health, education and social service for young children, including but not limited to Babies Can't Wait, Preschool Special Education, Early Head Start/Head start, and Children's medical services.

## Legal Services Referrals

The Atlanta Legal Aid Society (ALAS) works with PHG to provide adoption and other legal services to clients. ALAS also refers clients to the private law firm of Kilpatrick Stockton when necessary.

Our Immigration Services Department offers affordable legal services to help eligible low-income immigrants and asylum seekers obtain immigration benefits in this country. We represent clients with all types of immigration cases, including family petitions; naturalization and citizenship; removal proceedings; protections for minors and for immigrant victims of crime; asylum; and deferred action, among others.

We bring the American dream to life by serving the needs of immigrants from Latin America in metro Atlanta with a full spectrum of services and programs that help families adapt to their new country and integrate into the community.

We offer Latino women, men and children the tools and resources they need — including immigration legal services, English classes, emergency assistance and computer literacy courses in Spanish, among many others – to achieve their fullest potential, ultimately empowering them to become self-sufficient and thrive.

Our professional staff includes bilingual/bicultural attorneys and paralegals with years of experience practicing immigration law and working with immigrants. We are committed to working with individuals to secure the legal protections they may be eligible for.

### **HOMELESSNESS PREVENTION PROGRAM**

Finding affordable housing near schools and public transportation hubs is one of the biggest challenges our families face. Making sure that Latino families are financially secure and able to stay in their homes is a priority for us. We offer one-on-one case management in the area of personal finance to prevent homelessness and ensure that Latino families are able to afford their monthly rent or mortgage. We offer rent assistance in cases of extreme need, as well as assistance to tenants who have complaints against their landlords. We also provide referrals to housing providers and other community organizations for those in need of shelter.

We partner with organizations such as Metro Fair Housing in cases involving housing discrimination and the Georgia Law Center for the Homeless, which represents families facing eviction.

Project GRANDD is a community-based support program for grandparents in the greater Metropolitan Atlanta area who are raising their grandchildren who have disabilities, chronic illness, or behavior or learning difficulties.

Project GRANDD provides group educational meetings, monthly support groups, home visits, individual case management and practical help where needed. Each year, with the support of caring donors, we collect school supplies, food and holiday gifts to help grandparents struggling on fixed incomes to raise a second family.
