

CENTENNIAL ACADEMY

AN OVERVIEW OF SCENARIOS PRESENTED BY THE FACILITIES MASTER PLANNING PROCESS

WHY ARE CHANGES NEEDED?

Current and projected enrollment show the following:

- Centennial Academy is over capacity.
- Midtown High School is over capacity
- Washington Cluster schools are under utilized.

WHAT IS THE IMPACT TO FAMILIES LIVING IN THE CENTENNIAL ACADEMY ZONE?

2023-24

To address overcrowding at Midtown HS and underutilization at Washington HS, high school students zoned for the Centennial Academy attendance area would be **redistricted from Midtown HS to Washington HS (229 students) in 2023-24 School Year.**

2024-25

To address capacity challenges at Centennial Academy itself, **Centennial Academy and APS will determine a pathway for charter renewal**, subject to ABOE and GaDoE approvals. Centennial's Capacity is now 606. Modulars are used to achieve its currently chartered maximum enrollment of 800 at the loss of athletic and recreational field space.

SCENARIO 1

Centennial Academy will change to a **K-8 Locally Authorized charter** for the 2024-25 SY contingent on ABOE and GaDOE approval.

The Centennial attendance area will be incorporated into Hollis Academy (K-8) by redistricting 398 students from Centennial Academy to Hollis Academy during the 2024-25 school year (these are all of the in-zone K-8 students).

For the 2024-25 renewal, Centennial and APS would negotiate enrollment and facilities, limited by whatever enrollment cap is set by the Charter.

SCENARIO 2

Continue Charter at Centennial as a **Conversion Charter with a facility capacity of 600** in 2024-25 contingent on ABOE and GaDOE approval.

Centennial is projected to have an enrollment of 812 in the school year 2026-27; 414 of those students would be from out-of-zone. Its Chartered Maximum Enrollment is 800. Its facility capacity is 606.

Once the charter is renewed at 600, stop accepting new out of zone students until the school reaches 90% of capacity (540).

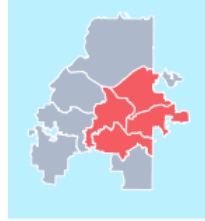

HOW CAN I SHARE MY THOUGHTS?

Attend community meetings on March 15th or March 28th. You can find more information here: www.atlantapublicschools.us/FMP

Please share feedback here: <http://tinyAPS.com/?CentennialFacilities>

DUNBAR ELEMENTARY

AN OVERVIEW OF SCENARIOS PRESENTED BY THE FACILITIES MASTER PLANNING PROCESS

WHY ARE CHANGES NEEDED?

Current and projected enrollment show the following:

- Maynard Jackson High School is over capacity
- Washington Cluster and Carver Cluster schools are under utilized.

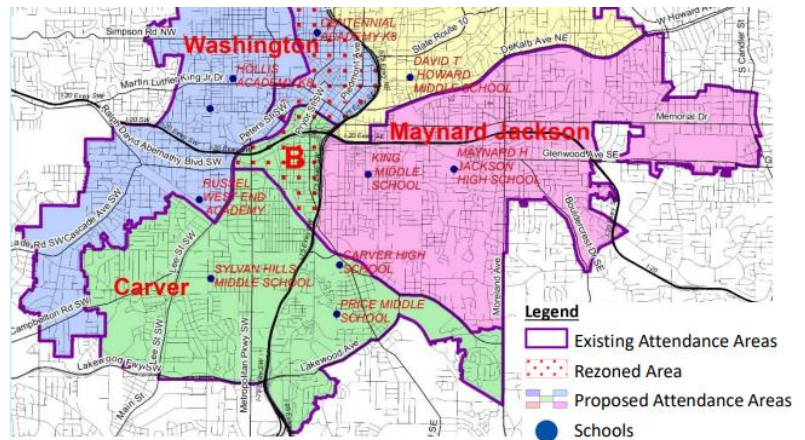

WHAT IS THE IMPACT TO FAMILIES LIVING IN THE DUNBAR ES ZONE?

Both scenarios would change the current schools for 163 middle school students and 255 high school students living in the Dunbar Elementary attendance zone. (Area B on both maps)

SCENARIO 1

2023-2024

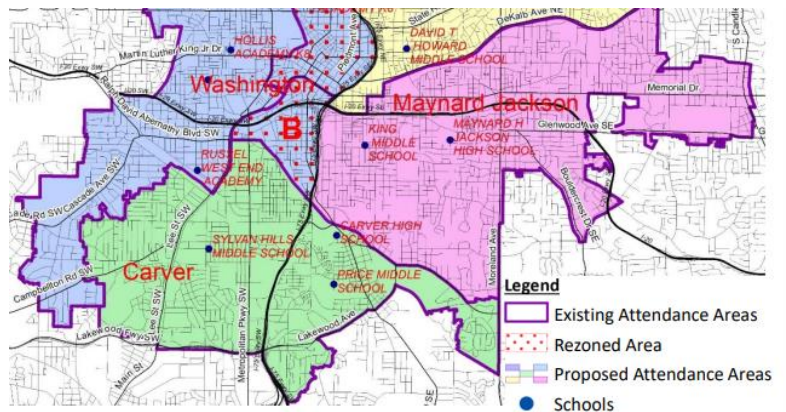

Redistrict Dunbar attendance area **from the Maynard Jackson Cluster to the Carver Cluster** (Dunbar ES – Price MS – Carver EC/Carver STEAM)

SCENARIO 2

2023-2024

Redistrict Dunbar attendance area **from the Maynard Jackson Cluster to the Washington Cluster** (Dunbar ES – HJ Russell West End Academy – Booker T Washington HS)

HOW CAN I SHARE MY THOUGHTS?

Attend a community meeting on March 17th. You can find more information here: www.atlantapublicschools.us/FMP
