Stay Engaged & Stay Connected

What do I do if it says my Activation key has already been used? This means that an account has already been created. If you do not remember the username and/or password, click Forgot Username or Forgot Password.

What if I click Forgot Username or Forgot Password and don't receive an email? This means that you didn't complete the email verification or the email we have on record is incorrect. Please submit a Let's Talk ticket and include your name, your email, your child's name, grade, date of birth and school.

Do I need to create my own account? Can't I just use my child's login?

While students have access to many features, they cannot update contact information nor can they complete Online Registration.

What if I don't see all of my children?

This means that the school may not have realized you were already in the system. Please contract your school and ask that your households be combined.

I don't have an activation key:

Please visit tinyaps.com/?lookup to find your activation key. You will need your child's student number (can be found on student's report card and/or transcript), the last four digits of your student's Social Security Number (SSN) or SSN-like number* assigned to your child and the student's date of birth.

*If you did not provide your child's SSN at registration, they were assigned an SSN-like number. To receive the last four digits of that number you will need to contact your child's school.

Atlanta Public Schools Parent Portal Walkthrough

See what is happening in the classroom so you can understand, monitor, and participate in the educational process. Stay up to date on grades, assignments, attendance, announcements, schedules and more.
