IV. Discussion Items

- a. **Discussion Item 1: [School Strategic Plan](#)**

- Strategic Plan and CIP Alignment- We will look at our previous strategic plan and make sure it is in alignment with our school's current school performance. Will make necessary updates to align with the budget, as well. We will definitely be updating the strategic plan to match the current school year's budget. The strategic plan is the guide for the work we are doing in the school. We are in alignment with step four. We will be using MAP and GMAS data. Our CIP has already been approved by the district and state DOE.
- Strategic Plan Updates- Will be updating our current strategic plan. The current strategic plan is based on MAP Data from last year. We most likely will be updating the current strategic plan at our next meeting to match MAP data from this school year 2023-2024. We want to make sure our goals are in alignment. We do not want to have different goals on the different Strategic Plan and CIP. Use our school CIP goals to replace our current Smart Goals. And update school strategies to be in alignment with school priorities. Add parent and community to number seven.
