# **INTRODUCTORY SECTION**

December 15, 2011

Dear Citizens:

We are pleased to present to the community the Comprehensive Annual Financial Report (CAFR) of Atlanta Public Schools (APS) for the fiscal year ended June 30, 2011. APS continues its transition under new leadership after 12 years of continuous improvement on many fronts. Our priority remains to provide quality instruction in a safe and nurturing learning environment that educates today's children for tomorrow's world.

This report was prepared by APS financial management officials and is intended to fulfill the requirement for audit prescribed by Georgia Statutes for local boards of education. The APS management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive and reliability of the information contained in this report, based on a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

### **Snapshot of Atlanta Public Schools**

Like many urban, public K12 school districts, APS faces ongoing challenges. More than three-fourths of APS students qualify for the federal free and reduced price meals program, which is based on family incomes at or below the poverty line. Nearly one-third of APS students relocate within and outside of the district during the school year. Recent allegations of cheating on state standardized tests and subsequent investigations have challenged APS to continue its education mission undistracted, even while new leaders take the helm to navigate the district through a perfect storm of events. Despite these issues, APS continues its journey to excellence.

APS is currently composed of 96 schools: 55 elementary schools (grades K-5), 16 middle schools (grades 6-8) and 25 high schools (grades 9-12), for a total enrollment of approximately 49,874.

### **APS Highlights and Points of Pride**

- Twenty-one APS students were awarded 2011 Gates Millennium Scholarships this year – the second highest number of any school district in the nation. APS students have earned approximately 70 Gates Millennium Scholarships over the past three years, more than any other system in the nation.

- APS students improved their performance by 4 percentage points and eliminated the achievement gap between the district and students around the state on the new Georgia Grade 8 Writing Assessment in 2011. Eighty-three percent of APS eighth grade students scored at “meets” or “exceeds” standards levels.
- APS students improved their performance on the 2011 Criterion-Referenced Competency Tests, showing gains in 20 of the 30 grade and subject areas tested compared to last year’s results. APS students had performance gains exceeding state averages in 15 of the 30 grades and subject areas tested and continued to narrow the achievement gap with state averages.
- APS students improved their performance on the 2011 Georgia Grade 5 Writing Assessment, with 77 percent scoring at the “meets” or “exceeds” standards levels. This performance represents a 5 percentage point increase over last year’s results.
- APS has developed more than 400 partnerships between schools and community/business organizations which provide students with invaluable resources, such as internships, attendance incentives, mentoring and tutoring opportunities.
- APS is working with the Georgia Institute of Technology and Ford Motor Company to develop a prototype high-tech, fuel-efficient hydraulic hybrid propulsion system that employs used vegetable and cooking oils as a renewable energy source. APS donated a surplus school bus for the “Green Eco School Bus” project.
- Major renovations to existing schools were completed this year, including North Atlanta (08/01/2011) and D.M. Therrell (08/07/2011) high schools and Continental Colony Elementary School (07/01/2011). Construction of the new Mays High School is scheduled for completion by the end of the current calendar year. For more information on school buildings, acreage and capacity please see pages 86-87 in the Statistical section.

## **Challenges Ahead**

The challenges that lie ahead are considerable but manageable, as the District fully transitions into the new decade:

- The special state investigation into conduct during the 2009 CRCT exam revealed widespread testing improprieties associated with a relatively small number of APS educators. Individuals named in the state report have been removed from classrooms, pending the outcome of the follow-up investigations and processes being conducted by various organizations.
- Ramifications from testing improprieties continue to unfold, as the state recently announced its decision to adjust schools’ adequate yearly progress (AYP) ratings for previous years. As a result, the state has determined that 42 schools have not met AYP for at least two consecutive years, which places the schools in needs-improvement status under the federal No Child Left Behind Act.

- APS has enacted a number of improvements to tighten the testing environment and reduce the potential for cheating or testing improprieties. These enhancements include locked safe rooms for testing material that are accessible only by principals and test coordinators, sealed envelopes with tamper-proof security strips where testing materials are stored, and implementation of the two-person rule for counting and tracking testing materials.
- The District has embarked on a comprehensive culture change that involves mandatory annual ethics training for all employees and revised performance evaluation reviews that emphasize strict adherence to policies and laws.
- The main focus is the continued growth of students' academic performance. The District's new leadership is assessing the results of school reform programs implemented over the past decade and determining how to move forward in the ongoing effort to continue the academic progress in a safe, secure and nurturing learning environment.

### **Local Economy**

The nationwide economic downturn continues to negatively impact the District's primary funding sources. The District's main source of funding is property taxes, which continues to show the effects of a flat economy. Actual property tax revenues fell short of the budget projection and are well below actual revenues in previous years. The second major revenue stream for the District is state funding through the Quality Basic Education Act funding. The Governor continues to make major cuts to this revenue stream, exceeding \$20 million for FY11.

Based on these factors and others, including increased unfunded mandates and tax revenue challenges, there will be continuing financial challenges in FY12 and beyond.

### **Long-Term Financial Planning**

APS plans capital improvements as future capital needs arise due to student population changes and facility repair and maintenance needs. Specific capital expenditure plans are formalized in conjunction with special-purpose, local-option sales tax receipts and anticipated annual receipts of capital outlay funds from the Georgia Department of Education. The District regularly monitors anticipated capital outlay needs.

### **Strategic Planning**

APS leaders are committed to using strategy to drive budgets. Budget recommendations align with the district's strategic objectives. The charge is for every division, department, office and employee to align with the district's goals in support of student achievement. Employees evaluate and execute their work based on its support of schools and students.

### **Financial Information**

The CAFR is prepared pursuant to OCGA 36-81-7. Mauldin & Jenkins, Certified Public Accountants, LLC, have issued an unqualified ("clean") opinion on the financial statements for fiscal

year ended June 30, 2011. The independent auditor's report is located at the front of the financial section of this report.

Using the full accrual basis of accounting, APS has total net assets of \$1.37 billion, an increase of \$68.55 million from fiscal year 2010. Further discussion is included in Management's Discussion and Analysis (MD&A) which immediately follows the independent auditor's report and provides an overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

**Fund Accounting:** APS reports its financial activities through the use of fund accounting. This is a system wherein transactions are reported in self-balancing sets of accounts to reflect the results of activities. See Note A of the Notes to the Basic Financial Statements for a summary of significant accounting policies and a description of the fund types.

**Internal Control Structure:** APS financial management officials are responsible for implementing and enforcing a system of internal controls to protect the assets of APS from loss, theft or misuse and to ensure that reliable accounting data are available for the timely preparation of financial statements in accordance with Generally Accepted Accounting Procedures (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits relies upon estimates and judgments by management.

## **Financial Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to APS for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2010. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

APS received the Association of School Business Officials (ASBO) International's Certificate of Excellence in Financial Reporting for the CAFR for fiscal year 2010. This is the second year the District submitted the CAFR to ASBO. This award certifies that the report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials International.

Valid for a period of one year, the award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials.

## Acknowledgments

Management is responsible for the financial information and this report could not have been prepared without the dedicated and effective assistance of the entire Finance Department staff. We wish to express our gratitude and appreciation to them for their contributions and professionalism.

## Closing

Again, we are pleased to present to the community our Comprehensive Annual Financial Report (CAFR) for fiscal year 2011. Our community deserves the highest quality instruction, outstanding academic programs and comprehensive student support systems to prepare our city's youth for the challenges of the world of tomorrow. Equally important, our community deserves relevant financial information and tight fiscal controls that will result in greater accountability to our taxpayers, legislators and government entities that serve the needs of our students. We will continue to do our very best to meet both goals.

Respectfully submitted,

### SCHOOL SYSTEM BOARD MEMBERS

#### **District 1: Brenda J. Muhammad, *Chair***

Brenda Muhammad is the executive director of the Atlanta Victim Assistance, Inc. (AVA), an organization that advocates for the fundamental rights of victims and witnesses of crime with compassion, dignity and respect. AVA provides comprehensive services which remove barriers, strengthen victims and their families and foster a healthy transition from victim to survivor.

Passionate about children and their educational needs, particularly those who are underserved, Brenda currently serves as the School Board Representative for District 1. She has also served the Atlanta School Board in times past as president and vice president.

#### **At-Large Seat 8: Reuben R. McDaniel, III, *Vice Chair***

In May 1999, Reuben R. McDaniel, III was named President/CEO of Jackson Securities, LLC an Atlanta based investment banking firm. With over 25 years of investment banking experience in finance management, capital markets and municipal finance, McDaniel relies on his proven financial insights, exceptional talents in building relationships, strong analytical background and consummate corporate management skills. Selected as one of Black Enterprises' "75 Most Powerful Blacks on Wall Street", Mr. McDaniel was responsible for transforming the firm from a regional public finance boutique into a national institutional investment bank. Under his leadership, Jackson Securities has sustained double-digit revenue growth and diversified revenue streams by establishing a Corporate Finance Group, Wealth Management Group and an Institutional Sales & Trading Group.

#### **District 2: *Vacant***

### **District 3: Cecily Harsch-Kinnane**

Cecily Harsch-Kinnane has been involved in Atlanta Public Schools for nine years. She and her husband, Paul, have three children in APS and she has served as PTA president at Morningside E.S., on the PTA boards at Inman M.S. and Grady H.S., as co-president of the Council of Intown Neighborhoods and Schools and on the principal selection committee at several schools. She has been involved with Habitat for Humanity, served on the City of Atlanta Elected Officials Compensation Commission and on the board of the Atlanta Youth Soccer Association. Ms.Harsch-Kinnane is a former middle and high school math teacher and has recently been the coordinator of an after school-mentoring program. She is a native of Atlanta and received a BA in Mathematics from Brown University and has done graduate work in Math Education and Educational Psychology at Georgia State University.

### **District 4: Nancy M. Meister**

As a parent and stakeholder, Nancy Meister is passionate about the future of the Atlanta Public Schools and has been personally involved in the district for many years and recognizes the importance of public education. She and her husband have watched their children grow and thrive in the Atlanta Public Schools system. As a residential real estate agent, she understands and appreciates the importance of great neighborhood schools, their impact on attracting new businesses to our city and their contribution to the overall sustainable growth of the metro area.

### **District 5: LaChandra Butler Burks**

Born and raised in Atlanta, Georgia, LaChandra Butler Burks' passion for children and commitment to education has been evident all of her life. As a product of Atlanta Public Schools, she considers it an honor to now serve as a member of the Atlanta Board of Education because it allows her to fight daily to have quality, public education for the children of a city she dearly loves. It is her strong belief that everyone must be involved in making sure that children are whole and well.

On November 8, 2005, the residents of Atlanta elected LaChandra Butler Burks out of six candidates with 58% of the votes as the Atlanta Board of Education District 5 Representative. She is a graduate of L.P. Miles Elementary School and C.L. Harper High School with a Bachelor's Degree from State University of West Georgia, (formerly West Georgia College) and a Masters of Business Administration from Keller Graduate School of Management. LaChandra Butler Burks received most of her political experience from having worked under the leadership of three Atlanta mayors for 13 years.

### **District 6: Yolanda K. Johnson**

Yolanda Johnson is a proud resident of the Adams Park Community of Southwest Atlanta. She is a product of public schools and a practicing attorney who has been actively engaged in the community since she made Atlanta her home more than a decade ago.

She began volunteering with the Atlanta Public Schools (APS) when she agreed to serve on a committee redeveloping the curriculum for the Law and Government Magnet at Therrell High School. This experience gave her unique system insight and firsthand knowledge of how even a small group of dedicated people can make differences in the lives of our children: our future.

### **At-Large Seat 7: Courtney D. English**

Courtney English is a former Atlanta Public Schools middle school teacher and community activist. Born and raised in Atlanta, he is a proud graduate of Morehouse College. English was a founding teacher at the new All-Male BEST Academy at Benjamin Carson where he taught seventh grade Social Studies. Ironically, English’s lessons were delivered in the same room where he learned the subject content as a student. English is a member of the 2007 Atlanta Corps of Teach for America and now direct his efforts toward enhancing the quality of education for students.

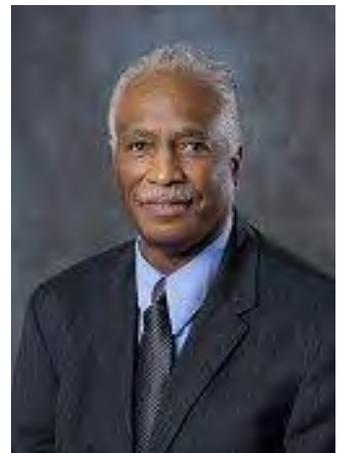

As a teacher, English designed and implemented a unique curriculum to teach “Applied Social Studies”, in which students learn the subject through the lens of all academic disciplines. His talents as an educator have been reinforced by his success rate in the classroom. Eighty percent of his students have met learning objectives with at least 80 percent proficiency for two consecutive years on the Criterion Reference Competency Test (CRCT).

### **At-Large Seat 9: Emmett D. Johnson**

Mr. Johnson has proven that he is a person dedicated to making a positive difference. He is committed to serving the need of our youth. He is knowledgeable about educational issues. As a member of the Atlanta Board of Education, Mr. Johnson:

Received the 2009 Richard A Green Award- The Richard A. Green Award the Nation’s highest honor for urban education leadership, at the Council of the Great City Schools 2009 fall conference. The Council represents 66 of the largest urban school districts in the nation, educating 7.1 million students. The Green Award is named in honor of the first African-American chancellor of the New York City school system, who had also headed Minneapolis Public Schools. As the recipient of the Richard Green Award, Johnson received a \$10,000 college scholarship to present to a high school senior of his choice in the Atlanta Public Schools or from his high school alma mater.

## INDEPENDENT AUDITOR'S REPORT

---

**To the Superintendent and Members of the  
Atlanta Independent School System  
Atlanta, Georgia**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Atlanta Independent School System** (the "School System") as of and for the fiscal year ended June 30, 2011, which collectively comprise the School System's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School System's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Atlanta Independent School System as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note A, the Atlanta Independent School System implemented Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, effective July 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2011, on our consideration of the Atlanta Independent School System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

---

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget to Actual and the Schedule of Funding Progress as presented on pages 3 through 14 and pages 51 and 52, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School System's basic financial statements. The other supplementary information and schedules, as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Atlanta Independent School System's basic financial statements. The introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

# **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**ATLANTA INDEPENDENT SCHOOL SYSTEM**  
**Management's Discussion and Analysis**  
**For the Fiscal Year Ended June 30, 2011**

The discussion and analysis of the Atlanta Independent School System's financial performance provides an overview of the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to examine the School System's financial performance as a whole, identify changes in financial position as well as to provide basic financial statements. The basic financial statements and notes to the basic financial statements should be reviewed by the readers to enhance their understanding of the School System's financial performance as a whole or as an entire operating entity. The basic financial statements contain the following components:

- 1) Government-wide financial statements including the Statement of Net Assets and the Statement of Activities, which provide a broad, long-term overview of the School System's finances.
- 2) Fund-level financial statements provide a greater level of detail about the School System's major funds and focus on how well the School System has performed in the short-term in the most significant funds.
- 3) Notes to the Basic Financial Statements.

This report also presents the highlights for the fiscal year ended June 30, 2011 and contains other supplementary information.

### **FINANCIAL HIGHLIGHTS**

Overall, net assets in fiscal year 2011 increased by 5.3% over fiscal year 2010. This is evidence of management's ability to maintain a balanced budget and control expenses, despite austerity reductions due to economic downturns affecting the Districts revenues. The key financial highlights for fiscal year 2011 as represented are:

#### Government-wide Financial Statements:

- Total net assets for the School System increased from approximately \$1,298.92 million in fiscal year 2010 to approximately \$1,367.47 million in fiscal year 2011, an increase of approximately \$68.55 million or 5.3% due to revenues exceeding expenses by approximately \$68 million primarily due to budget cuts. Net assets increased by approximately \$68.41 million for Governmental Activities and increased by \$145,157 for Business-type Activities.
- Total revenues decreased from approximately \$805.55 million in fiscal year 2010 to approximately \$803.28 million in fiscal year 2011, a decrease of approximately \$(2.27) million or -0.3%. Revenue for Governmental Activities decreased approximately \$(2.92) million while revenue for Business-type activities increased by approximately \$0.65 million.
- Total expenses decreased approximately \$(54.61) million or -6.9% from approximately \$789.34 million in fiscal year 2010 to approximately \$734.73 million in fiscal year 2011. Expenses decreased in Governmental Activities by approximately \$(55.19) million and increased by approximately \$0.58 million in Business-type Activities.

## Fund Financial Statements:

The School System has prepared its annual financial reports corresponding to the Governmental Accounting Standards Board No. 34 financial reporting model. The following graphic is provided to give the reader an overview of this reporting model.

## OVERVIEW OF FINANCIAL STATEMENTS

### Government-wide Financial Statements

The Government-wide financial statements are designed to provide the reader with a broad overview of the School System's finances in a manner similar to those used by private-sector businesses. The Statement of Net Assets and the Statement of Activities provide information about the activities of the whole School System, presenting an aggregate and long-term perspective of the finances. These statements include all assets and liabilities using the accrual basis of accounting. This basis of accounting includes all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

- The *Statement of Net Assets* presents information on all of the Schools System's assets and liabilities, with the difference between the two reported as net assets. Increases or decreases in

net assets may serve as a useful indicator of whether the financial position is improving or deteriorating.

- The *Statement of Activities* presents information showing how net assets changed during the fiscal year. All changes in the net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (for example, uncollected taxes and earned but unused vacation leave).

Included in the Statement of Net Assets and Statement of Activities for the School System are two distinct kinds of activities:

- *Governmental Activities* – Most of the School System’s programs and services are reported here including instruction, pupil services, improvement of instruction, educational media, general administrative, school administrative, business administration, maintenance and operation of facilities, student transportation and central support.
- *Business-type Activities* – This service is provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The Food Services proprietary fund is reported as a business-type activity.

- **Total assets** increased by roughly \$157.68 million or 10.7%.
- **Current and other assets** increased by roughly \$8.25 million or 2.2%.

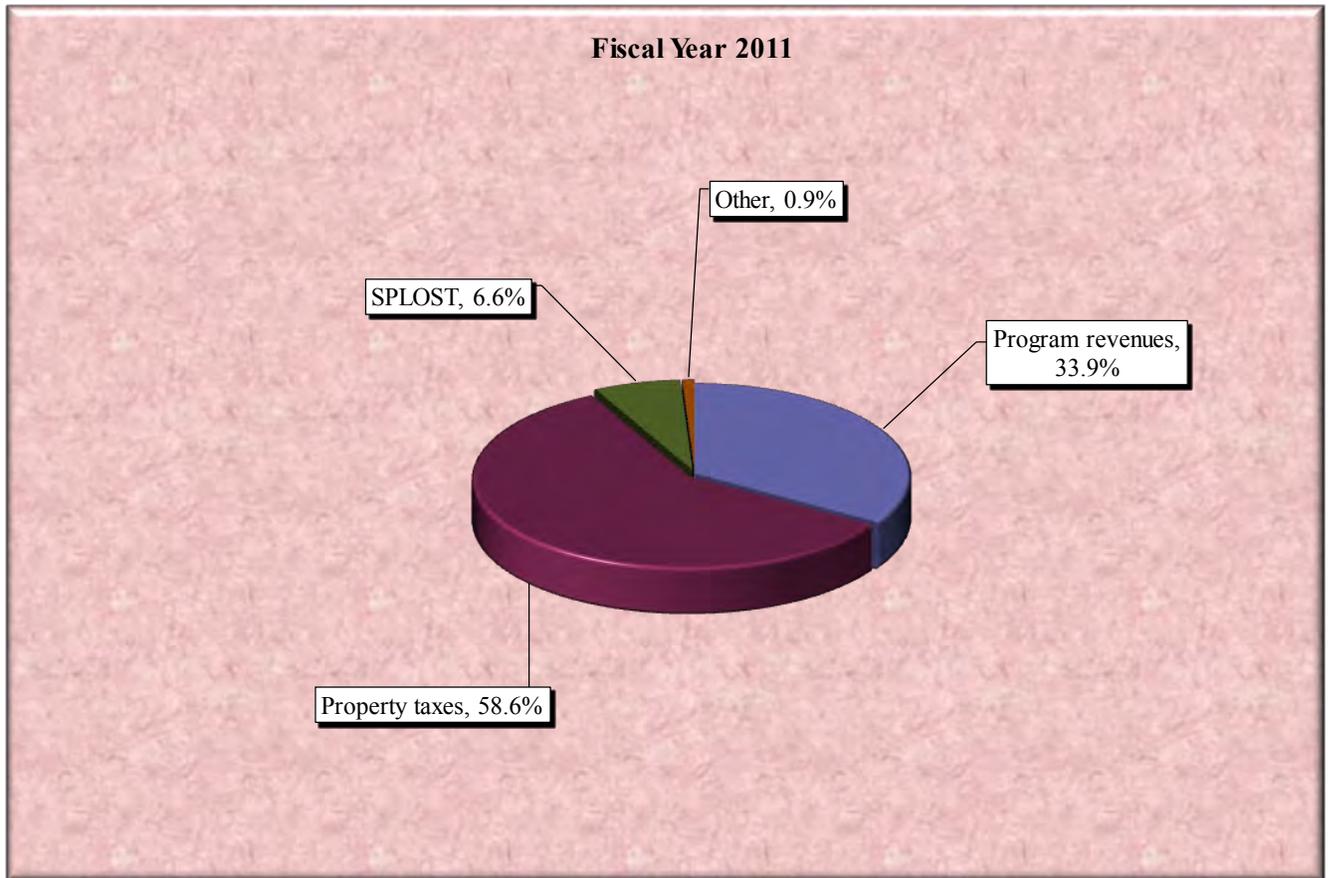

- **Capital assets, net of accumulated depreciation** for all governmental activities increased by roughly \$149.43 million or 13.6%. The increase primarily represents additions to buildings and building improvements.
- **Long-term debt outstanding** increased by roughly \$69.38 million or 78.1%. The increase was primarily due to the issuance of Certificates of Participation in the amount of \$104.4 million offset by reductions of roughly \$34.07 million for contingent liabilities.

## Primary Government

### *Sources of Revenues*

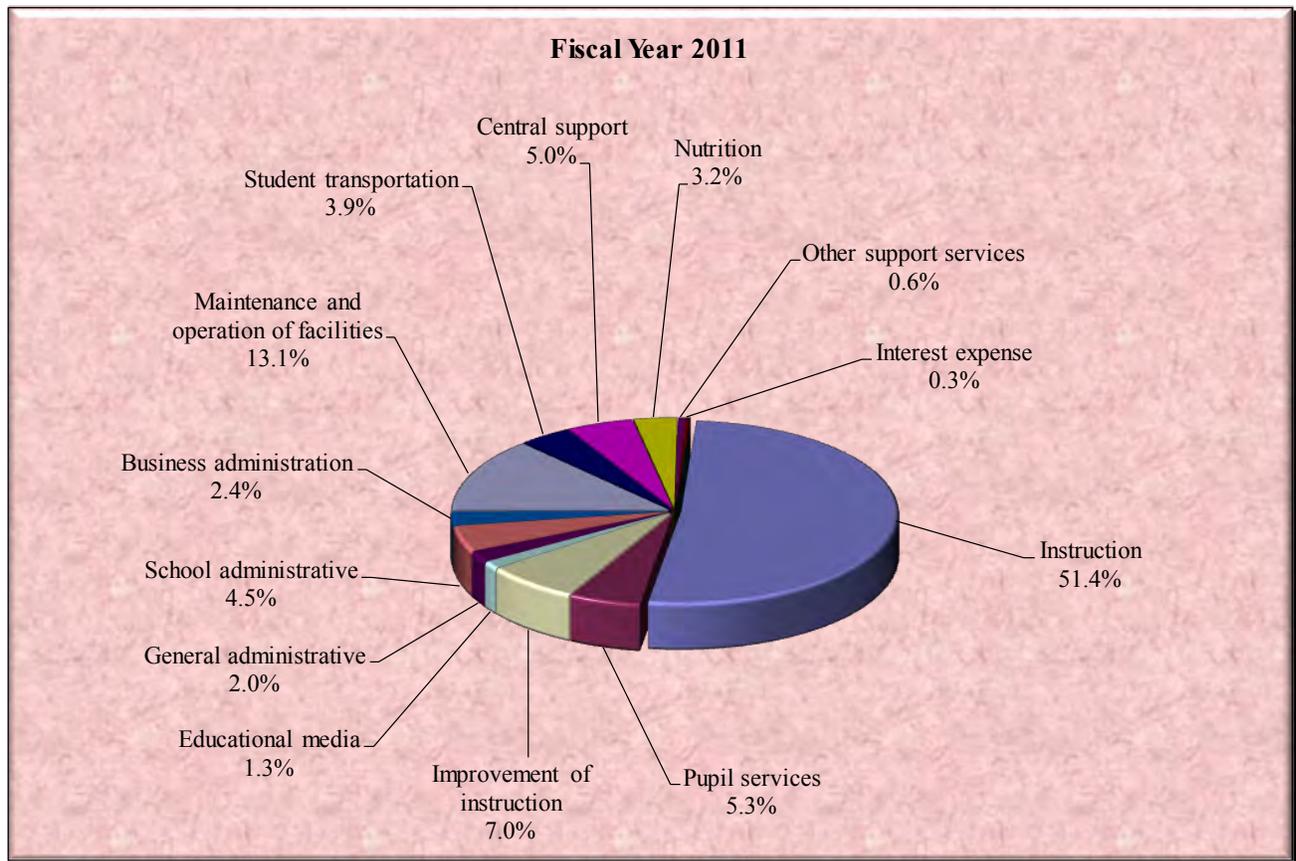

**Total revenues**, overall, decreased roughly \$(2.27) million or -0.3% from fiscal year 2010 to fiscal year 2011, due to continued decreases in property tax revenues.

- Program revenues are primarily grant related and account for approximately \$272.54 million or 33.9% of total revenues received and include State QBE revenue.
- General revenues represent the major revenue stream for the School System. They account for 66.1% or roughly \$530.74 million of total revenues received in FY 2011. Between fiscal years 2010 and 2011, a decrease of roughly \$(29.71) million in property tax revenues and a decrease in SPLOST sales tax revenues of roughly \$(10.53) million occurred.

## Primary Government

### *Expenses*

**Total expenses** decreased from 2010 to 2011 by -6.9% or roughly \$(54.61) million. Management continues to forecast spending levels and manage spending throughout the year.

- Governmental activities account for 96.8% or roughly \$710.93 million of total District spending. Four groups of activities account for 88.6% or roughly \$629.04 million of governmental spending: instruction roughly (\$377.49 million or 53.1%); pupil and improvement of instructional services roughly (\$89.52 million or 12.6%); administration and business services roughly (\$65.69 million or 9.2%); and maintenance and operations roughly (\$96.33 million or 13.6%).
- Business-type activities revenues and expenses increased from 2010 to 2011, with revenue increasing by approximately \$658,000 or 2.8% and expenses increasing by approximately \$578,000 or 2.5%. Revenues increased due to an increase in pupil sales. Expenses increased as a result of unanticipated increase in costs.

### Fund Financial Statements

Fund financial statements provide detailed information regarding the resources segregated for specific activities or objectives, not Government-wide. Funds are used to track specific sources of revenue and expenditures for particular programs.

*The School System has three kinds of funds:*

**Governmental funds** include most of the School System’s basic services and focus on providing cash flow available for spending. These funds include the General Fund, Capital Projects Fund, Education Reform Success Fund and other governmental funds of lesser magnitude. Fund accounting statements use the modified accrual method of accounting, which measures cash and other financial assets that can be readily converted to cash. These statements present a short-term view of the School System’s operations and services and do not include the long-term focus presented in the Government-wide financial statements. For an explanation of the differences, see the reconciliations included with the Governmental Fund Statements.

**Proprietary fund** consist of services provided by the School System for a fee and employ the full accrual method of accounting in the same manner as the Government-wide statements. The School System has one proprietary fund, Food Services. This fund provides student meals at a cost based on the student’s ability to pay, subsidized by Federal funds and the School System.

**Fiduciary fund** account for assets not owned by the School System but for which the School System is responsible for ensuring that the assets in the funds are used for their designated purposes. These funds are not included in the Government-wide financial statement because they cannot be used to finance the School System operations. The School System has one fiduciary fund - Agency Funds (Local School, Club and Class Funds).

The following presents a summary of the General Fund, Capital Projects Fund, Education Reform Success (ERS) and other non-major governmental funds by type of revenue for the fiscal year ended June 30, 2011 as compared to June 30, 2010.

Decreases in instruction, student transportation, maintenance and operation and central support are due to budget cuts during the current fiscal year.

### **Analysis of Major Funds**

The School System has three major funds: the General Fund, Capital Projects Fund and the Education Reform Success Fund. The General Fund is the general operating fund of the School System and is used to account for all financial resources except those funds accounted for in another funds. The Capital Projects Fund is used for the acquisition or construction of major capital facilities and to account for the bond proceeds restricted to renovation and school construction. The Education Reform Success Fund is used for the purpose of providing financing sources for some of the School System's buildings and equipment (Forest Hill Academy and New North Atlanta High School).

### **General Fund**

As of June 30, 2011, total fund balance in the General Fund was approximately \$81.27 million. This balance includes approximately \$0.46 million nonspendable, \$1.10 million restricted, \$17 million committed, \$16 million assigned and approximately \$46.71 million unassigned fund balance. As a result of operations in fiscal year 2011, the fund balance decreased by approximately \$(28.46)

million. The decrease in fund balance is attributable to a decrease in property tax collections. For Budget to Actual comparison purposes, the General Fund reported excess expenditures over final budget for the following functions:

**GENERAL FUND**

**Instruction**

<i>Salary</i>	\$18,484,843	Due to an increase in teacher salaries
<i>Non-Salary</i>	\$39,470,477	Due to charter school expenses which are not budgeted

**Pupil Services**

<i>Non-Salary</i>	\$2,410,991	Due to an increase in professional purchased services

**General Administration**

<i>Non-Salary</i>	\$1,547,003	Due to an increase in professional purchased services

**Maintenance and Operations**

<i>Salary</i>	\$28,360,413	Due to unfunded pension costs increase which was budgeted in Business Administration

**Debt Service**

<i>Principal</i>	\$5,339,366	Did not budget principal amounts
------------------	-------------	----------------------------------

**Transfers Out**

	\$10,966,449	Did not budget transfers to other funds
--	--------------	---

**Capital Projects Fund**

As of June 30, 2011, total fund balance in the Capital Projects Fund was approximately \$85.80 million. This balance includes approximately \$56.90 million restricted and approximately \$28.90 million assigned. The fund balance decreased by approximately \$(51.08) million due primarily to an increase in SPLOST capital expenditures and a decrease in SPLOST revenues.

**Education Reform Success (ERS)**

As of June 30, 2011, total fund balance in the ERS fund was approximately \$50.69 million all of which is restricted.

**Other Governmental Funds**

As of June 30, 2011, total fund balance in Non-major Governmental Funds was approximately \$6.37 million. This balance included approximately \$4.16 million restricted and approximately \$2.21 million assigned. The fund balance decreased by approximately \$(5.46) million due to an increase in expenditures, primarily instruction.

**Current Issues**

Currently known facts, decisions or conditions that are expected to have a significant effect on the financial position or results of operations are as follows:

Atlanta Independent School System received Federal American Recovery Reinvestment Act (ARRA) funds which helped to offset reductions in State QBE funding. The continued support of our schools by the public and by local community organizations and businesses is also an integral part of our ability to educate our students.

Continuing revenue from the Special Purpose Local Option Sales Tax should facilitate our ability to replace and improve existing schools and add additional classrooms. Our operating budget will continue to be tight, as we expect decreased funding from the State of Georgia due to current financial conditions. Despite these challenges, we remain committed to using our financial resources efficiently to provide an exceptional educational experience for our students.

In February 2008, the Supreme Court of Georgia issued a decision holding that educational ad valorem taxes can only be used for educational purposes. In response, the General Assembly passed Senate Resolution 996, a proposed amendment to the Georgia Constitution permitting Boards of Education to agree to pledge educational ad valorem taxes for redevelopment projects and purposes, and the voters ratified the constitutional amendment by referendum in November 2008. As a result of Senate Resolution 996 and the referendum, House Bill 63 was passed by the General Assembly and became effective April 22, 2010, reenacting the Redevelopment Powers Act.

However, in December 2008, a challenge to the use of retroactive educational ad valorem taxes was filed by a taxpayer. In August 2010, the Superior Court issued an order expressly authorizing the City and Atlanta Development Authority (ADA) to transfer to APS for its general purposes all of the Perry Bolton and BeltLine ad valorem tax increment that they had received for tax years up to and including 2009. Pursuant to this order, the City and ADA actually made a transfer of funds to APS.

The Plaintiffs in the Clark case have initiated two appeals of orders related to the August 2010 transfer of funds. Plaintiffs have recently amended their complaint to drop some claims. After two appeals, a summary judgment was issued in favor of the School System on November 15, 2011. The revenue has been recognized at the government-wide level.

### **General Fund Budgetary Highlights**

The School System's budget is prepared by the Finance Division and is a collaborative effort between the School System and the Atlanta community. The basis for preparation utilizes a zero-based approach because it has systematically provided a more accurate account of anticipated spending levels for the year.

Details of the General Fund original budget and the amended budget are presented on page 51 in the Financial Section of this report.

### **Requests for Information**

This financial report is designed to provide a general overview of the School System's finances for all those with an interest in the School System's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the School System's Chief Financial Officer, 130 Trinity Street SW, Atlanta Georgia 30303.

Reconciliation of Governmental Funds Statement of Revenues, Expenditures and  
Changes in Fund Balances To the Government-wide Statement of Activities  
For the Fiscal Year Ended June 30, 2011

Total Net Change in Fund Balances - Governmental Funds \$ (34,319,816)

Amounts reported for Governmental Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays of exceed depreciation of in the current period.

Capital outlays	160,894,669	
Depreciation expense	<u>(34,968,029)</u>	<u>125,926,640</u>

The net effect of various miscellaneous transactions involving disposal of capital assets which decreased net assets.

Historical cost of disposal of capital assets (land, vehicles, buildings, and building improvements)	(2,276,489)	
Accumulated depreciation	<u>2,184,939</u>	<u>(91,550)</u>

Revenues reported in the statement of activities that do not provide current financial resources and, therefore, are not reported as revenues in governmental funds.

Deferred property tax	24,497,981	
Deferred sales tax	(4,777,168)	
Capital Contributions	<u>23,600,000</u>	<u>43,320,813</u>

Pension contributions in excess of Annual Required Contributions are reported as assets for Governmental Activities. 1,941,406

Bond issuance costs are reported as an expenditure in Government Funds, but are reported as deferred charges on the Statement of Net Assets and amortized over the term of the debt, using the effective interest method. 1,466,547

Accrued interest is reported in the government-wide statement of activities, but does not require the use of current financial resources and therefore is not reported as an expenditure in governmental funds. (454,246)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. The issuance of long-term debt (e.g., leases, notes) provides current financial resources.

## Notes to the Basic Financial Statements

June 30, 2011

### A. Summary of Significant Accounting Policies

The financial statements of the School System have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to government units. The more significant of the School System's accounting policies are summarized below.

#### 1. Reporting Entity

The Atlanta Independent School System (School System) was established by the Georgia State Legislature and is composed of nine publicly elected members serving four-year terms. The School System has the authority to approve its own budget and to provide for the levy of taxes to cover the cost of operations and maintenance and to cover debt service payments. Additionally, the School System has decision-making authority, the power to approve selection of management personnel, the ability to significantly influence operations, and primary accountability for fiscal matters. Accordingly, the School System is a primary government and consists of all the organizations that compose its legal entity.

As required by generally accepted accounting principles, these financial statements present the School System and its component units, entities for which the School System is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the School System's operations. Therefore, data from these units are combined with data of the School System.

#### *Blended Component Unit*

Education Reform Success, Inc., (ERS) (a non-profit corporation) was established by the School System for the purpose of providing financing for some of the School System's buildings and equipment. The School System has a voting majority on the Board. ERS has issued certificates of participation (COPS) for the acquisition and construction of facilities and equipment. The COPS are repayable solely from payments made by the School System to ERS under a lease agreement for the related facilities and equipment. Accordingly, the COPS and the related capital assets are reported in the government-wide financial statements. Separate financial statements for ERS are not prepared.

#### 2. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the School System and its' component units. The effects of inter-fund activity have been netted in these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to applicants who use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the governmental fund financial statements.

### 3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. The agency fund does not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School System considers revenues to be available if they are collected within 30 days of the end of the fiscal period. The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally, teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, intergovernmental revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the School System.

The School System reports the following major government funds:

*General Fund* - The General Fund is the School System's primary operating fund. It accounts for all financial transactions of the School System, except those required to be accounted for in another fund.

*Capital Projects Fund* - This fund accounts for resources which are used exclusively for acquiring school sites, constructing and equipping new school facilities, and renovating existing facilities. The major revenue sources are proceeds from debt proceeds, bond sales, property tax revenue, special purpose local option sales tax revenues and amounts received from the State of Georgia.

*Education Reform Success (ERS) Capital Projects Fund* - This fund was established by the School System for the purpose of providing financing for some of the School System's buildings and equipment. ERS has issued certificates of participation (COPS) for the acquisition and construction of facilities and equipment.

The School System reports the following major proprietary fund:

*Food Services Fund* - The primary purpose of the Food Services Fund is to account for activities of the School System's school breakfast and lunch programs, which are funded primarily by the United States Department of Agriculture, passed through the Georgia Department of Education.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The School System has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the enterprises fund includes the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. Proprietary funds and fiduciary funds employ the economic resources measurement focus and are accounted for on the accrual basis.

The fiduciary fund accounts for assets held by the School System in a trustee capacity or as an agent on behalf of others. The School System reports the following fiduciary fund:

*Agency Fund* - This fund is used to account for local school student club and class accounts. It is custodial in nature and does not involve measurement of results of operations.

The fiduciary fund is excluded from the government-wide financial statements.

#### 4. Assets, Liabilities and Net Assets or Equity

##### a. Cash Equivalents

The School System considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Georgia Laws, OCGA 45-8-14, authorizes the

School System to deposit its funds in one or more solvent banks or insured Federal savings and loan associations.

b. Investments

Investments made by the School System in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year and equity investments are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School System to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

- 1) Obligations issued by the State of Georgia or by other states
- 2) Obligations issued by the United States government
- 3) Obligations fully insured or guaranteed by the United States government or a United States government agency
- 4) Obligations of any corporation of the United States government
- 5) Prime banker's acceptances
- 6) The Local Government Investment Pool administered by the State of Georgia, Office of Treasury and Fiscal Services
- 7) Repurchase agreements
- 8) Obligations of other political subdivisions of the State of Georgia

c. Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met.

d. Inventories and Prepaids

Inventories are valued at cost using the first-in, first-out method of accounting. The costs of food services fund inventories are recorded as expenditures when consumed (consumption method). Prepaids are payments made to vendors for services that will benefit periods beyond June 30, 2011 and are recorded as prepaid items in the government-wide financial statements.

e. Capital Assets

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the Government-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at their estimated market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included in the cost of capital assets. The School System does not capitalize book collections or works of art.

Capitalization thresholds and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	<u>Capitalization Policy</u>	<u>Estimated Useful Life</u>
Land	All	N/A
Land Improvements	\$50,000	10 to 20 years
Buildings	\$50,000	20 to 50 years
Building Improvements	\$50,000	10 to 30 years
Furniture and Fixtures	\$50,000	3 to 15 years
Vehicles	\$50,000	5 to 8 years
Equipment	\$50,000	3 to 15 years
Capital Leases	\$50,000	3 to 8 years
Intangible Assets	\$50,000	5 to 10 years

Capital assets donated to proprietary fund type operations are recorded at their estimated fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the assets.

f. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive salary related compensation are attributable to services already rendered and it is probable that the School System will compensate the employees for the benefits through paid time off or some other means. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as long-term obligations in the government-wide financial statements and are not liabilities of the governmental funds.

g. Long-term Obligations

In the governmental-wide financial statements and proprietary fund types in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net assets. Long-term debt and other long-term liabilities that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due but are reported in the government-wide statements as long-term debt.

h. Fund Equity

In the fund financial statements, governmental funds report limitations on the purpose for which all or a portion of the resources of the fund balance can be used. The limitations can vary depending upon their source. Financial statements for governmental funds report up to five components of fund balance:

*Nonspendable* – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

*Restricted* – Amounts that can be spent only for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors.

*Committed* – Amounts that can be used only for specific purposes determined by formal action by the Board of Education. The Board of Education is the School District’s highest level of decision-making authority, and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Board.

*Assigned* – Amounts that are designated by the Superintendent, or designee (Chief Financial Officer), for a particular purpose.

*Unassigned* – All amount not included in other spendable classifications.

Fund Balances of the Governmental Funds at June 30, 2011 are as follows:

FUND BALANCES

Nonspendable- The following are nonspendable because they are not in spendable form:

General Fund- Prepaid Items	\$	<u>456,347</u>	456,347
-----------------------------	----	----------------	---------

Restricted - The following fund balances are legally restricted to specified purposes:

General Fund - Debt Service	1,104,717	
Capital Projects Fund- Capital Projects	56,905,042	
ERS - School construction	50,686,163	
Non-Major Funds - Continuation of Federal programs	14,077	
Non-Major - Other State and Local programs	<u>4,145,071</u>	112,855,070

Committed - The following fund balances are committed to specific purposes:

General Fund - School Based Activities	995,134	
General Fund - For instruction and support services expenditures	<u>16,000,000</u>	16,995,134

Assigned - The following fund balances are assigned to specific purposes:

General Fund - For fiscal year 2012 budget deficit	16,000,000	
Capital Projects Fund- Capital Projects	28,898,894	
Non-Major Funds- Local school programs	<u>2,210,361</u>	47,109,255

Unassigned - The following fund balances are not included in the other categories:

General Fund	<u>46,711,357</u>	46,711,357
--------------	-------------------	------------

Total Fund Balances		<u>\$ 224,127,163</u>
---------------------	--	-----------------------

When multiple categories of fund balance are available for expenditure, the School System will use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, the School System will use fund balance in the following order: committed, assigned, and then unassigned.

i. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School System applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

j. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, revenue and expenses including the disclosure of contingent assets and liabilities. Actual amounts could differ from those estimates.

Workers Compensation:

The School System recognizes in the government-wide statements the liabilities for estimated losses to be incurred from pending worker compensation claims and for worker compensation claims incurred but not reported (IBNR). IBNR claims are estimates of claims that are incurred through the end of the fiscal year but have not yet been reported. These liabilities are based on actuarial valuations.

k. Deferred(Unearned) Revenue

The government-wide financial statements use the accrual basis of accounting. Revenue is recognized when earned. Property taxes are recognized as revenue in the fiscal year for which they are levied. Deferred revenues reported in governmental fund financial statements represent unearned revenues or revenues, which are measurable but not available and, in accordance with the modified basis of accounting.

## **B. Budgets and Budgetary Accounting**

Atlanta Independent School System employs zero-based budgeting for budget preparation. The zero-based budgeting process provides for the identification and prioritization of school system activities and resources starting from zero and accumulating to the targeted funding level. Each activity is linked to the goal, objectives and mission of the System and ranked as to its importance. As the proposed budget moves through each level of the organization, program activities and goals are aggregated further and ranked again. The final budget produced and presented is one, which includes all program activities ranked in order of importance in reaching the System's mission. Our basis of budget presentation is in accordance with GAAP.

The School System follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Budget requests are completed in December.
2. Proposed budgets are consolidated and reviewed by the CFO, and submitted to the Superintendent of Schools and Budget Commission for additional review prior to approval by the Atlanta Board of Education.
3. Public hearings on the proposed budget are held in March and April.
4. The annual budget is legally adopted by the Board in May for the General Fund and Special Revenue Funds in June.
5. The administrative level of budgetary control upon adoption is at the program level. The Atlanta Board of Education must approve revisions between salary and non-salary expenditures. Transfer of budgeted amounts between object categories within program functions requires the approval of the budget center manager.
6. Revenues and expenditures of the Capital Projects Fund are budgeted on an annual basis.
7. Education Reform Success (ERS) does not have a legally adopted budget.
8. The Atlanta Board of Education approves the budget for the Special Revenue Funds as a whole, which is the legal level of budgetary control (the level at which expenditures may not legally exceed appropriations). The combined Special Revenue Funds budget to actual schedule does not include the Proprietary Fund which is included when provided to the board for approval.

**C. Fund Deficit/Excess Expenditures over Appropriations of Individual Funds**

The following funds reported excess expenditures over final budget:

**GENERAL FUND**

<b>Instruction</b>		<b>Pupil Services</b>		<b>General Administration</b>	
<i>Salary</i>	\$18,484,843	<i>Non-Salary</i>	\$2,410,991	<i>Non-Salary</i>	\$1,547,003

<i>Non-Salary</i>	\$3,255,860	<i>Non-Salary</i>	\$2,601,758

## **D: Deposits and Investments Risks**

### **Deposits (Governmental Funds)**

The School System's cash and investment policy limits deposits to demand and money market accounts and time deposits at local banks. The School System's deposit shall be secured by Federal Depository Insurance Corporation (FDIC) coverage and /or bank pledges. State statutes require banks holding public funds to secure the funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held. State statutes define acceptable security for collateralization.

Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAM rated money market funds. However, Georgia 1 Fund operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on a \$1.00 per share value. The fair value of the School System's position in the pool is the same as the value of pool shares (\$1 per share value). The regulatory oversight agency for Georgia Fund 1 is the Office of Treasury and Fiscal Services of the State of Georgia.

Funds included in this Pool are not required to be collateralized. The fair value of the School System's position in the pool approximates the value of the School System's pool shares. Credit risk, value, and interest risk at June 30, 2011 are as follows:

<u><b>Credit Risk</b></u>	<u><b>Value</b></u>	<u><b>Interest Risk</b></u>
AAAM rated	\$52,128,727	59 day WAM

The School System classifies its investments in Georgia Fund I as cash and cash equivalents.

### **Categorization of Deposits**

As of June 30, 2011, all of the School System's deposits were covered either by FDIC or collateralized by the financial institution or a combination of both.

### **Categorization of Investments**

The School System's investments as of June 30, 2011, are presented below. All investments are presented by investment type and debt securities are presented by maturity.

	<u>281,782,129</u>	<u>(145,102,578)</u>	<u>136,679,551</u>

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates of debt investment will adversely affect the fair value of an investment. The School System's investment management policy limits investment maturities to 3 years as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### **Custodial Credit Risk**

Custodial credit risks for investments, is the risk that in the event of the failure of the counterparty, the School System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Because of the collateralization requirements, the School System has no custodial credit risk for its investments.

#### **Credit Quality Risk**

Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School System's policy for managing credit quality risk related to community bank certificates of deposits and repurchase agreements states such investments will only be purchased through banks having at least an AA rating.

The investment policy states Repurchase Agreements may only be purchased from a financial institution that has short-term ratings of AA or higher by Standard & Poor's (S&P) or Aa2 by Moody's. The U.S. Agencies investments are not required to be rated.

The investments subject to credit quality risk are reflected below:

Total by Quality Rating	281,782,129	276,782,129

### **Concentration of Credit Risk**

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. The School System does have a policy concerning the composition of its investment portfolio and is in compliance with its investment policy.

The investment policy establishes the following eligible investments individually are not to exceed the following composition in the portfolios of the General Fund, Capital Projects Fund and the Education Reform Success Fund:

U.S. Treasury Bills	100%
Federal Agencies (No more than 40% per issuer)	65%
Repurchase Agreements	30%
State of Georgia - Georgia Fund 1	25%
Bank Special Purpose Money Market Funds	25%
Commercial Paper	20%
Certificates of Deposit	10%

Investments in any one issuer that represents 5% or more of the total investments were as follows as of June 30, 2011:

Issuer	Investment Type	% of Total Investments
Tri Party Repo Agreement	Repurchase Agreement	18.10%
US MONEY MARKET BOFA Government Reserves Capital	Bank special purpose Money Market Funds	14.90%

Financial Institutions	Certificates of Deposits	1.77%
US Treasury Bill	Bank special purpose Money Market Funds	2.48%
US Bank Money Market	Bank special purpose Money Market Funds	18.10%

## Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. Foreign investments are prohibited by law in Georgia.

## **E. Due from Other Governments**

Due from other governments consists of grant reimbursements due primarily from the Georgia Department of Education for expenditures made, but not yet reimbursed and amounts due from City of Atlanta for bonds issued and unspent tax collections, collected and held by the City of Atlanta on behalf of the School System.

## **F. Property Taxes and Other Receivables**

Property taxes are normally levied and billed by July 1, based on property values assessed as of January 1, on all real and personal property located within the City of Atlanta. Property taxes are due by October 15, 2011 at which time they become delinquent and penalties and interest may be assessed and liens may be attached to property. An allowance has been established for estimated amounts that will not be collected. The School System considers revenues to be available if they are collected within 30 days of the end of the current fiscal year.

General Fund	<u>Property Taxes Receivable</u> 27,863,454	<u>Allowance for Uncollectible</u> (12,337,556)	<u>Net Property Receivable</u> 15,525,898

For the fiscal year ended June 30, 2011, the School System transferred \$121,096,039 from construction in progress to depreciable capital assets.

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 29,443,919
Support Services	
Pupil Services	27,215
Educational Media	41,457
Business Administration	2,103,050
Maintenance and operation of facilities	86,953
Student transportation	3,265,435
<b>Total</b>	<b>\$ 34,968,029</b>

## H. Long-term Debt

### *Capital Leases*

The School System has entered into various equipment lease agreements. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of inception.

In 2008, the School System entered into a lease agreement for the purchase of various capital assets in the amount of \$20,000,000. These leases were advanced funded. As of June 30, 2011, all the advance funds have been used to purchase capitalized assets.

The capital assets acquired through capital leases are as follows:

Asset	Governmental Activites
Buses	\$ 11,136,550
Less: Accumulated depreciation	<u>(4,957,360)</u>
Net Capital Assets	<u><u>\$ 6,179,190</u></u>

The following is a schedule of the future minimum lease payments under capital leases and the total present value:

Fiscal Year Ending	Governmental Activites
2012	2,129,354
2013	2,129,354
2014	1,470,357
2015	1,470,357
2016	1,469,917
2017-2020	<u>2,300,268</u>
Total minimum payments	10,969,607
Less: Amount representing interest	(1,287,602)
Present value of minimum payments	<u><u>\$ 9,682,005</u></u>

### *Intergovernmental Agreement*

Over the years, the City of Atlanta has issued various annual general obligation bonds and general obligation refunding bonds on behalf of the School System. The debt service for the bonds has been funded through the School System's bonded debt portion of the annual tax levy. The maturity date for the bonds is December 21, 2027. The bonded debt portion of property taxes collected by the City on behalf of the School System is retained by the City and used to pay the annual debt service on the outstanding bonds. The debt service payments are calculated using assumptions and estimates based on information available. As of June 30, 2011, \$1,104,717 is available and held by the City.

General Obligation Bonds currently outstanding at the City of Atlanta on behalf of the School System are as follows:

<u>Purpose</u>	<u>Interest Rate</u>	<u>Amount</u>
Governmental activities	3-5%	\$18,439,000

In prior fiscal years, the City of Atlanta School System defeased certain bonds by placing funds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School System's basic financial statements. At June 30, 2011, \$58,865,000 of bonds is outstanding and is considered defeased.

#### *Education Reform Success, Inc. (COPS)*

In October 2006, ERS issued certificates of participation (COPS) on behalf of the School System in the amount of \$10,115,000. The proceeds from the certificates were used to finance the renovations and improvements to the Instructional Service Center.

In June 2011, ERS issued COPS on behalf of the School System in the amount of \$104,415,000, (Series 2011A, \$72,460,000) and (Series 2011B, \$31,955,000). The proceeds from the certificates will be used to finance the construction and or renovation of North Atlanta High School. Interest rates varies (5.457% - 5.657% for Series 2011A and 2% - 5% for Series 2011B) and payments are due on March 1 and September 1 of each year until maturity (maturity dates for series 2011A is March 1, 2027 and March 1, 2017 for Series 2011B).

### **I. Long-Term Obligations**

Changes in long-term obligations during the fiscal year ended June 30, 2011, were as follows:

	Beginning Balance	Additions	Deductions	Ending Balance	Amounts Due within One Year
Governmental activities:					
Long-term debt

Note: The General Fund has been typically used to liquidate the liability for compensated absences, contingent liabilities and worker's compensation.

The Contingent liabilities amount of \$34,068,778 for SPLOST refund is now reflected at the governmental fund level as due to other governments. This amount (\$34,065,778) represents amounts due to Fulton County Board of Education for excess ELOST III proceeds received by APS from the Georgia Department of Revenue which Fulton County Board of Education was legally entitled to.

At June 30, 2011, payments due by fiscal year, which includes principal and interest for these items, are as follows:

## J. Inter-fund Receivables and Payables

Inter-fund receivables and payables net balances as of June 30, 2011 are as follows:

	Due from other funds	Due to other funds
Governments Funds		
General Fund	\$ -	\$ 17,159,617
Capital Projects Fund	29,305,618	-
Education Reform Success	150,317

Business- Type Fund		
Food Service Fund	-	4,175,042
	<u>\$ 29,455,935</u>	<u>\$ 29,455,935</u>

During the course of its operations, the School System makes transfers between funds to finance operations, provide services and acquire assets. To the extent that certain transfers among funds had not been received as of fiscal year-end, balances of inter-fund amounts receivable or payable have been recorded. It is management's intent to repay inter-fund balances within the next fiscal year.

## K. Inter-fund Transfers

Transfers within the governmental funds for the fiscal year ended June 30, 2011 are as follows:

	Transfers In	Transfers Out
Governmental funds:		
General Fund	\$ 2,824	(10,966,449)
Capital Projects Fund	10,000,000	
Education Reform Success - Capital Projects Fund	966,449	(2,824)
	<u>\$ 10,969,273</u>	<u>\$ (10,969,273)</u>

Transfers are used to move local funds from the General Fund to Capital Projects Funds to fund construction projects.

## L. Risk Management

The School System is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. The School System is self-insured for workers' compensation claims and unemployment compensation. The School System purchases commercial insurance in amounts deemed prudent by management for all other risks of loss. Settled claims have not yet exceeded purchased commercial insurance coverage in any of the past three years.

Unemployment Compensation:

The School System is self-insured for unemployment compensation. The State bills the School System quarterly for the outstanding claims and the School System pays the claims at that time. Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Fiscal Year Liability	Claims and Changes in Estimates	Claims Paid	End of Fiscal Year Liability
Fiscal year 2010	\$ -	\$ 519,930	\$ (519,930)	\$ -
Fiscal year 2011	\$ -	\$ 657,496	\$ (657,496)	\$ -

Workers' Compensation:

The School System is fully self-insured for workers' compensation claims of its employees. The School System accounts for claims within the General Fund with expenditures and liabilities being reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. An accrued liability for the estimated costs of claims and related settlement costs incurred but not paid and/or reported as of fiscal year-end is reported on the governmental activities financial statements. The calculation of the present value of future workers' compensation liabilities is based on a discount rate of 3.5%. Changes in the claims liability during the last two fiscal years are as follows:

	Balance at Beginning of Fiscal Year	Claims and Changes in Estimates	Claim Payments	Balance at End of Fiscal Year
Fiscal year 2010	\$ 7,826,556	\$ 1,131,414	\$ (2,575,931)	\$ 6,382,039
Fiscal year 2011	\$ 6,382,039	\$ 3,767,909	\$ (2,891,948)	\$ 7,258,000

**M. Nonmonetary Transactions**

The School System received from the United States Department of Agriculture through the Georgia Department of Education approximately \$1,230,789 in donated food commodities for its lunchroom programs. The federally assigned value of these commodities is reflected as revenue and expense in the Food Services Fund financial statements.

**N. On-behalf Payments for Fringe Benefits**

The School System has recognized revenues and expenditures in the amount of \$797,858 for health insurance and pension costs paid by the Georgia Department of Education to the State Merit System of Personnel Administration for non-certified personnel on the School System's behalf.

## O. Retirement Plans

### Teachers Retirement System of Georgia (TRS)

#### *Plan Description*

Substantially all teachers, administrative and clerical personnel employed by local school systems of the State of Georgia are covered by the Teachers Retirement System of Georgia (TRS), which is a cost sharing multiple employer public employee retirement system sponsored by the State of Georgia. Most School Systems' employees participate in TRS.

TRS provides service retirement, disability retirement and survivor's benefits for its members. A member is eligible for service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service. Early retirement benefits are reduced by the lesser of 1/12 of 7% of each month the member is below age 60, or by 7% of each year or fraction thereof by which the member has less than 30 years of service.

Normal retirement benefits paid to members are equal to 2% of the average of the member's two consecutive highest paid years of service multiplied by the number of years of creditable service up to 40 years. The normal retirement pension is payable monthly for life. Options are available for distribution of the member's monthly pension at a reduced rate to a designated beneficiary on the member's death.

Retirement benefits also include death and disability benefits whereby the disabled member or surviving spouse is entitled to receive annually an amount equal to the member's service retirement benefit or disability retirement, whichever is greater. The benefit is based on member's creditable service (minimum of 10 years) and compensation up to the date of death.

The TRS Board of Trustees has the authority to establish and amend benefit provisions of the pension plan under Title 47, chapter 3. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by calling 404-352-6500 or by accessing their website at [www.trsga.com](http://www.trsga.com).

#### *Funding Policy*

Employees of the School System who are covered by TRS are required to pay 5.25% of their gross earnings to TRS. The School System makes monthly employer contributions to TRS at rates adopted by the TRS Board of Trustees as advised by their independent actuary. The employer contribution rate is 9.74% at June 30, 2011.

Total actual and required contributions were as follows (the School System contributed 100% of the annual required contribution):

	<u>2011</u>	<u>2010</u>	<u>2009</u>
School System	\$ 32,515,502	\$ 32,863,759	\$ 30,872,725
Employees	18,178,891	17,724,959	16,655,525
	<u>\$ 50,694,393</u>	<u>\$ 50,588,718</u>	<u>\$ 47,528,250</u>

## City of Atlanta General Employees Pension Plan

### *Plan Description*

All permanent employees of the School System who are not covered under the TRS are eligible to participate in the City of Atlanta General Employees' Pension Plan (the "Plan"). In addition, certain School System employees employed prior to July 1, 1979, also participate in the Plan.

The Plan provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. The Plan is an agent multiple-employer pension plan administered by a Board of Trustees, which includes the Mayor of the City of Atlanta or designee, the City's Chief Financial Officer, one member of City Council, one member of the School System, one member elected by eligible employees of the City, one member elected by eligible employees of the School System, one member elected by retired employees of the School System and one member elected by retired employees of the City. The Board of Trustees has the authority to establish and amend the benefit provisions of the Plan.

On December 12, 2005, the School System adopted the following changes to the Plan:

1. 10 year vesting;
2. 2.5% benefit multiplier (capped at 80%); and
3. Unreduced retirement at 30 years of service regardless of age.

The Plan issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. The report may be obtained by writing or by calling the Plan at:

City of Atlanta General Employees Pension Plan  
68 Mitchell Street  
Atlanta, GA  
Telephone Number: (404) 330-6000

The Plan provides retirement benefits that, initially, are 2% of the employee's highest average monthly base compensation over any 36-month period. A participant may retire at age 65 or, after 15 years of service, at age 60. Cost-of-living increases are awarded annually, up to a 3% maximum increase. Partial vesting percentages based on years of creditable service and provisions for early retirement are included in the Plan. Benefits also may be payable at termination, death, or disability.

The School System's membership in the Plan as of July 1, 2010 is as follows:

Active employees	871
Inactive members	38
Retirees and beneficiaries	2,467
Total membership	<u><u>3,376</u></u>

### *Method Used to Value Investments*

Investments are stated at fair value. Fair value of Plan assets at July 1, 2010 was \$105,573,290.

*Funding Policy and Annual Pension Cost*

The School System's funding policy is to contribute a percentage of covered employee payroll as developed in the actuarial valuation for the Plan. Obligations to contribute to the Plan are established by the Board, subject to minimum financing standards established by the State of Georgia.

Active participants are required to contribute 7% of pay (8% if participant has a covered beneficiary or is married). The School System's contribution percentage is the actuarial determined amount necessary to fund Plan benefits after consideration of employee contributions.

The actuarial determined contribution amount is the sum of the annual normal cost (determined under the entry age normal actuarial cost method) and the amortization of the unfunded actuarial accrued liability as a level percentage of future payrolls (over 40 years from January 1, 1979). The remaining amortization period is closed 22 years remaining as of July 1, 2010.

The Plan's annual pension cost for the current fiscal year, based on actuarial valuations performed as of July 1, 2010 and related information for the Plan is as follows:

Contribution rates as a percent of covered payroll:

Employee	7.0% or 8.0%
Employer	8.00%

Annual required contribution	\$37,216,555
Employer contributions made	\$39,000,000

Actuarial valuation date	7/1/2010
--------------------------	----------

Actuarial cost method	Entry age normal
-----------------------	------------------

Amortization method	Level % of payroll
---------------------	--------------------

Actuarial assumptions:

Investment rate of return	8.0% per year
---------------------------	---------------

Projected salary increases:

Inflation	3.0% per year
-----------	---------------

Merit or seniority and productivity	4.5% per year
-------------------------------------	---------------

Post retirement benefit increases	N/A
-----------------------------------	-----

The asset valuation method used is the actuarial value from the prior year plus net new money plus 20% of the asset appreciation/depreciation for the current year and each of the prior four years.

Three-Year Trend Information is as follows:

Year	Annual Pension Cost (APC)	% of APC Contributed	Net Pension (Asset)/Obligation
2009	\$39,570,397	106%	(\$7,272,550)
2010	\$43,560,100	104%	(\$9,212,450)
2011	\$37,058,594	105%	(\$11,153,856)

Net Pension Asset - The School System's actuarially required contribution, pension cost and increase in the beginning net pension asset for the fiscal year ended June 30, 2011, were computed as follows:

Actuarially required contribution	\$ 37,216,555
Interest on net pension asset	(736,996)
ARC adjustment	579,035
Annual pension cost	<u>37,058,594</u>
Actual contributions made	<u>(39,000,000)</u>
Increase in net pension asset	1,941,406
Net pension asset, June 30, 2010	9,212,450
Net pension asset, June 30, 2011	<u><u>\$ 11,153,856</u></u>

Plan Funded Status – The School System's funding status based upon the most recent actuarial valuation is as follows:

Actuarial Valuation Date	Actuarial Value of Assets* (a)	Actuarial Liability (AAL) Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL use as a Percentage of Covered Payroll ((b-a)/c)
7/1/2010	\$114,615,676	\$669,032,859	\$554,417,183	17.13%	\$26,304,364	2107.70%

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to

continual revision as results are compared to past expectations and new estimates are made about the future.

Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of July 1, 2010.

## **P. Post-Employment Benefits**

### **Georgia Retiree Health Benefit Fund**

**Plan Description.** The Georgia School Personnel Post-employment Health Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit postemployment healthcare plan that covers eligible former employees of public school systems, libraries and regional educational service agencies. The School OPEB Fund provides health insurance benefits to eligible former employees and their qualified beneficiaries through the State Employees Health Insurance Plan administered by the Georgia Department of Community Health. The Official Code of Georgia Annotated (OCGA) assigns the authority to establish and amend the benefit provisions of the group health plans, including benefits for retirees, to the Board of Community Health (Board). The Georgia Department of Community Health issues a publicly available financial report that includes financial statements and required supplementary information for the School OPEB Fund. That report may be obtained from the Georgia Department of Community Health at 2 Peachtree Street, Atlanta, Georgia 30303.

**Funding Policy.** The contribution requirements of Plan members and participating employers are established by the Board in accordance with the current Appropriations Act and may be amended by the Board. Contributions of Plan members or beneficiaries receiving benefits vary based on Plan election, dependent coverage, and Medicare eligibility and election. On average, Plan members pay approximately twenty-five percent (25%) of the cost of health insurance coverage.

Participating employers are statutorily required to contribute in accordance with the employer contribution rate established by the Board. This contribution rate is established to fund all benefits due under the health insurance plans for both the active and retired employees based on projected pay-as-you-go financing requirements. Contributions are not based on the actuarially calculated annual required contribution (ARC) which represents a level of funding that, if paid on an on-going basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The employer contribution rates for the combined active and retiree plans for the fiscal year ended June 30, 2011, were as follows:

#### Certified Employees

July 2010- April 2011	21.955% of state-based salaries
May 2011 – June 2011	14.492% of state-based salaries

Non-Certificated Employees	July 2010 – November 2010 - \$162.72 per month
Non-Certificated Employees	December 2010 – June 2011 - \$218.20 per month

The School System's contribution to the health insurance plans for the fiscal year ended June 30, 2011, June 30, 2010, and June 30, 2009 were \$43,496,218, \$38,330,627, \$30,600,143 respectively, and which equaled the required contribution/annual OPEB cost.

## **Q. Commitments and Contingencies**

### *Construction Commitments*

The School System has active construction projects as of June 30, 2011. The projects relate to construction, renovation of school buildings and other projects. At fiscal year-end, the School System's commitments with contractors were \$26,896,301.

### *Litigation and Other Contingencies*

The School System is a defendant in various lawsuits, which arose, in the ordinary course of its activities. The School System believes its liability in these matters is \$1,311,976.

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School System believes that such disallowances, if any, will be immaterial to its overall financial position.

### *Encumbrances*

The School System's Board reauthorized \$16 million to fund encumbrances that were outstanding as of June 30, 2011. The actual amount was approximately \$13.8 million and was used for Instruction and Support services expenditures.

## **R. New Accounting Pronouncements**

GASB Statement No. 54 was implemented during the current fiscal year. GASB 54 was issued in February 2009 to classify the various components of fund balance and clarify the use of governmental fund types. The various components of fund balance are designed to indicate the extent to which the government is bound to honor constraints on the specific purposes for which amounts in the fund can be spent.

## **S. Pollution Remediation Obligations**

GASB Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations, establishes accounting and financial reporting criteria for liabilities that address current or potential detrimental effects of existing pollution by participating in pollution remediation activities. When one of five obligating events identified by the GASB occurs, the components of the expected pollution remediation outlays must be estimated and a determination made whether the outlays should be accrued as a liability or capitalized when goods and services are acquired, as appropriate. Pollution remediation liabilities must be measured based on the pollution remediation outlays expected to be incurred to settle these liabilities. It must be based on "reasonable and supportable" assumptions of future events that may affect the eventual settlement of the liability, and should be measured and reported at current value. The current value of the liability should be based

on applicable federal, state or local laws or regulations that have been approved, regardless of their effective date and the technology expected to be used for the cleanup.

Outlays for pollution remediation obligations should be recognized as liabilities if goods and services used for pollution remediation activities are liquidated with expendable available financial resources (modified accrual accounting). However, pollution remediation outlays should be capitalized in the government-wide or proprietary fund statements when goods and services are acquired for certain specific purposes; these amounts are recorded as expenditures at the fund level.

As of June 30, 2011, the School System was the responsible party in the remediation of mold removal, asbestos abatement, expired chemical disposal, paint disposal, tire disposal and air quality testing. A site assessment and preliminary evaluation of required remediation indicated that the amount of liability is immaterial as of June 30, 2011 and therefore, not recorded in the governmental activities statement of net assets. The potential liability is deemed immaterial at this time to record to the School System's financial statements. APS paid \$619,261 for current financial fiscal year remediation activities.

#### **T. Subsequent Event**

On November 8, 2011, SPLOST IV referendum was approved. It is estimated that SPLOST IV will generate approximately \$520 million for APS that will fund numerous Capital Improvement projects and Certificates of Participation debt liquidation.

As noted in the Management Discussion and Analysis section, the School System has been involved in a court case related to the Tax Allocation Districts (TAD). The educational ad valorem tax collections specific to the Perry Bolton and Beltline districts have not been recognized as revenues (although the School System had received \$25,022,211 prior to June 30, 2011 from the Atlanta Development Authority and the City of Atlanta) in the School System's financial statement at the governmental fund level (in the General Fund) nor in the government-wide level until a summary judgment in favor of APS was issued.

After two appeals (which had been outstanding during the last two fiscal years and up to November 14, 2011), a summary judgment was issued in favor of the School System on November 15, 2011. The summary judgment cleared the way for the School System to recognize these balances as revenues at the government-wide level as of June 30, 2011. However, since the appeals surrounding this revenue were still outstanding past thirty (30) days of June 30, 2011 and the summary judgment in favor of the School System occurred 30 days subsequent to June 30, 2011, the School System did not recognize the revenue at the governmental fund level (in the General Fund) as of June 30, 2011 and will recognize the balance of the associated deferred revenue in the General Fund during Fiscal Year 2012.

## Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenues that are legally restricted for specific purposes or committed to expenditures for specified purposes other than debt services or capital projects.

The School System's Special Revenue Funds have been established primarily on the basis of program purpose and include the following funds and primary funding sources:

Title I Fund was established to account for federal grant funds passed through the Georgia Department of Education to provide remedial education in the areas of reading and math and to provide a special education program for children who are physically handicapped.

Title II Fund was established to account for federal grant funds passed through the Georgia Department of Education, for the purpose of improving teacher quality and increasing the number of highly qualified teachers, para-professionals, and principals.

Title VI-B Fund was established to account for federal grant funds passed through the Georgia Department of Education, for the purpose of providing special education programs for children in pre-kindergarten through the twelfth grade.

Lottery Fund was established to account for State of Georgia lottery funds passing through the State of Georgia Department of Education for various programs as established by the State.

Other Federal Programs Fund was established to account for other federal funds for which separate presentation is not considered necessary.

Other Special Projects Fund was established to account for other state and local funds for which separate presentation is not considered necessary.

**Note:** GASB Statement number 54 established a hierarchy of fund balance classifications based primarily on the extent to which governments are bound by constraints placed on resources. The effective date for implementation of GASB 54 was for periods beginning after June 15, 2010. Presentation for years 2002-2010 is pre GASB 54. Fiscal Year 2011 is when the standard was implemented.
