### Principal Momon's Parent Update

#### *Virtual School Is Back in Session!!!!!!*

We are so impressed with the way that virtual learning and student engagement is happening for the first two weeks of school at Cascade Elementary for the 2020-2021 school year. The teachers, students, and parents are Rocking the Virtual Learning Experience. Students are up in masses attending the SEL gatherings, House Meetings, and Block Parties. Following the morning meetings, students make their way to their homeroom and specials classes to engage in meaningful standards based instruction. What a way to begin an unpredictable school year.

Parents, we appreciate you serving as teacher assistants when your students are working from home, especially during the first two weeks of school as students become acclimated to their devices and online instructional sites. We encourage you at this time to begin transitioning away from teacher assistant to a silent observer so that the students can work independently as if they were in a classroom in the building. This will allow you as parents to have time to conduct your business affairs while the children are in school. The teachers will inform you of their parent office hours in the event that you have specific questions or concerns because we want to always honor your parental needs. We also want to alleviate distractions during instructional time since every minute of instruction is valuable in the virtual learning space. Don't forget that teachers are available for parent conferences each Wednesday from 2:30-4:00. Parents must schedule an appointment since teachers are also tutoring students during this same time. We appreciate your cooperation with this transition.
