I have reviewed the Digital Bridge Handbook (www.tinyAPS.com/?InmanBridge) and I am aware of the following:

Returning the Device: This device will be returned to the school at the end of the school year, unless otherwise communicated by the school. The use of this device provided by APS is not transferable to anyone and terminates when my child is no longer enrolled at the issuing school.

Withdrawal/termination: Students who transfer, withdraw, are expelled, or terminate enrollment at the school for any reason must return their device on the date of withdrawal/termination. A student who fails to return the device will be subject to paying up to the full replacement cost of the device and any accessories, and may also have grade cards, transcripts, diplomas or certificates of progress withheld until restitution is made.

Damage and Loss: All district-issued devices are the property of APS. If a device is damaged, lost, or stolen during the time that it is issued to the student, whether intentionally or due to negligence, the student and the student's parent/guardian will be responsible for paying the fines outlined in this document.

Responsible Device Use: All users of District-issued devices must follow the expectations outlined in **District Policy IFBG and Regulation JCDA – (R) (1)**. Failure to follow these expectations will lead to applicable student disciplinary consequences. **All District Policies can be found at www.atlantapublicschools.us (Student Code of Conduct and Board Policy Acceptable Use).**

Students may not exhibit inappropriate behaviors, or access prohibited materials with the device, at any time, at any location. Applications: APS has researched key applications which will be preinstalled on each device. Throughout the year, additional applications may be added to support learning. Purchasing and installing these applications is the responsibility of APS. No one other than an authorized school official may add or delete applications from a District-issued device. "Jail breaking" and hacking of device is not permitted.
