**Re:** Delayed Gifted Eligibility Reports

Greetings,

We hope that you are staying safe and healthy during these unprecedented times. Please allow this correspondence to serve as an update regarding gifted eligibility reports. Historically, families would receive their child's gifted eligibility reports during this time; however, much like everything else, the official reports will be delayed. Schools will send gifted eligibility reports via the US Mail once school reopens. Again, thank you for your patience and understanding as we navigate this season together.

In the event that school does not resume in August, we will find an alternative way to distribute eligibility reports.

Feel free to reach out to your child's school or the gifted department ([giftedandtaled@atlanta.k12.ga.us](mailto:giftedandtaled@atlanta.k12.ga.us)) if you have further questions or concerns.
