IV. Discussion Items

- a. **Discussion Item 1:** School Improvement Plan Overview
 - New process for writing a school improvement plan (1 year plan). This will inform the school strategic plan (5 year plan that GO Team helps author)
 - Karin Greeson and Melanie Sithole in attendance. For school improvement plan: Milestone data (less applicable b/c did not have majority of students taking test last year) + staff survey data and staff input used to inform plan, ie technology in the classrooms
 - The school improvement plan shared for visibility/insight. As MAP and other scores come in, this will help inform/revise the plan
- b. **Discussion Item 2:** Data Analysis: Milestones
 - Results not indicative of student performance due to low participation
 - Results for ELA and Math reviewed and discussed. Larger disparity in math scores due to COVID.
 - Milestones= tell us if students have met proficiency on GA standards. Criteria-referenced test. For grades 3-5.
- c. **Discussion Item 3:** Data Analysis: MAP Testing
 - MAP data more reliable and better indication of where our students are performing. All grades took this.
 - MAP tells us how students perform relative to how students perform all across the country at the same point in time
 - Math is an area that has higher low performance than reading
 - MAP test is taken 3x/yr (fall, winter, spring)
- d. **Discussion Item 1:** Strategic Planning Process
 - 5 year plan: We will work on this next 2x time we meet, will align to the Cluster plan. We will build out the strategic plan before the budget is approved in Jan. 2022

V. Information Items

- a. **Principal's Report:**
 - i. Dr. Waller's 2nd day back: Met with teachers and admin to get feedback and get up to speed
 - ii. We've gotten a higher influx of students (approx. 70 students) after school started
