

Mrs. Butler; ESOL Educator
Cascade Elementary

As Cascade's **E**nglish for **S**peakers of **O**ther **L**anguages instructor I provide the cultural bridge between my student's native culture and their new cultural experience. Students learn faster, and with less effort, when the brain has references for learning. These bridges provide an easy jump-off point to new knowledge. My teaching preparation trains me in instruction techniques to understand and use these learning bridges combining popular culture, between the various language groups represented in my classroom.
