Welcome to the Gifted and Talent Development program here at Fickett Elementary School. Through the resource model, we offer a differentiated curriculum that will help students to develop critical thinking skills, research and study skills, as well as creativity. Students feel empowered to apply what they have learned in school to real-life situations. Students will experience small class sizes, talented and enthusiastic teachers, and an opportunity to learn through exploration. We want our students to be lifelong learners that have the ability to work hard and think outside of the box. Students will be involved in various district field trips such as the STEAM Carnival which takes place 2nd semester, as well as other engaging activities throughout the school year that will foster curiosity.

Our school eligibility team is here to support you. Our eligibility members are:

Dr. Rae Debose 3rd Grade

Adriane Woods Specials 3-5 Science
