This list is subject to change daily.

Pre K – Ms. Gipson, Ms. Williams

K – Ms. Lopez, Ms. Miles, Ms. Williams, Ms. Fulmer

1st – Ms. Stitt, Ms. Miles, Ms. Fassinger, Ms. Manning

2nd – Ms. Rucker, Ms. Duff, Ms. Underwood

3rd – Ms. Dottery, Ms. Bowie, Ms. Smith/Adeniji

4th – Ms. Alexander, Ms. George, Ms. Conner

5th – Ms. Byrd, Ms. Williams, Ms. Evans

Special Ed – Mr. Muhammad

Specials – Ms. Cantu, Ms. Bethune

Returning Paraprofessionals

Pre K – Ms. Jackson

K – Mr. Marable, Mr. Swindle, Ms. Holloway

Sp. Ed. – Ms. Cotton, Ms. Armstrong

Hourly – Mr. Fenhagen, Ms. Saures, Ms. McGee, Ms. Despinasse, Ms. Houser

Breakdown of students

• Pre K	26	13 per teacher
• Kindergarten	39	10 per teacher
• 1 st Grade	42	11 per teacher
• 2 nd Grade	24	8 per teacher
• 3 rd Grade	24	8 per teacher
• 4 th Grade	23	8 per teacher
• 5 th Grade	23	8 per teacher
• Total	201	

Class Rosters

- All students will keep their current homeroom teachers.
- Students who return for In-person virtual, but homeroom teacher will telework, will be divided among the in In-person teachers' classes. However, the student will still get instruction for the telework teacher virtually. OR
- Those students will be placed in a classroom with an adult monitor.

What will In-Person Virtual look like?

- Each classroom will hold up to 10 students and 1 adult
- Students will continue to use chrome books and Zoom to participate in class.
- Students will eat breakfast and lunch in the classrooms.
- Students will be required to wear a mask all day.
- There will be little interaction between the students or teachers
- Teachers will monitor engagement and participation.
- Small group learning will happen via Zoom.
- Specials will happen via Zoom.
- Recess

Daily Screening

- Temperature Check as students enter the building.
- Temperature of 100.4 will trigger isolation protocol.
- Student will be sent to the Care room.
- Parents will be called to come and get the student.
- Student can return to school after being fever free for 24 hours. **OR**
- If the student test positive for COVID-19, he/she can only return to school after a negative COVID-19 test result.

PPE for Each Classroom

- Sanitizer station
- Disinfectant spray bottle
- Paper towels
- Face Mask
- Gloves
- Gowns (Special education classes)
- Face shields (at teacher's request)
- Student Desk Shields

Facts To Know

The air in the classroom changes 6.7 times an hour.

The air filters have been upgraded to the highest our units can hold (MERV-13).

The returns have been adjusted from 15% to 70% to bring in more fresh air.

It is not necessary to leave doors and windows open during class.

Going outside for class or lunch is always an option, if the weather permits.

Reporting time frame

- Once a case has been identified, staff persons are contacted within the same day if possible (not to exceed a period of 24 hours) to inform them of potential exposures. Written communication is sent per our procedures for notification that include the date of exposure, length of quarantine period and public health resources.

Reporting & Tracking Student Cases

Step 1 (Report): Parent reports positive student diagnosis to principal or school nurse. In the event that notification is provided to principal, information should be shared with the school nurse for follow up.

Step 2 (Trace): School nurse contacts the Health Services Manager and initiates the case investigation process including an exposure assessment to identify close contacts. Health Services Manager notifies the local public health department immediately when a positive COVID-19 case is identified in the school setting (as required by § OCGA 31-12-2).

Step 3 (Notify & Inform): In collaboration with Health Services, memorandums are drafted by the school nurse and distributed to impacted staff/students/parents by the school principal.

Step 4 (Quarantine & Clean): Anyone who was within 6 feet of the case for > 15* min cumulatively in a school setting such as a classroom, school bus, extracurricular activity, meeting, etc. will be quarantined. Principal contacts Robert Palmer in facilities for deep cleaning/disinfection of classroom and/or shared spaces the diagnosed individual was in. This may include busses if the student was transported via bus as well.

Returning to school

After close contact

Asymptomatic persons – after 7 full days have passed since exposure

- ❖ Test for COVID-19 (PCR/molecular or antigen test) no earlier than day 5
- AND**
- ❖ Receive a negative result AND
- ❖ Do not experience any COVID-19 symptoms during the quarantine period

Asymptomatic persons – after 10 full days passed since exposure

- ❖ No test required **AND**
- ❖ Do not experience any COVID-19 symptoms during the quarantine period

Returning to school

After positive COVID-19 test result

Symptomatic – confirmed COVID-19 or suspected COVID-19

- ❖ At least 10 days have passed since symptoms first appeared AND
- ❖ At least 24 hours have passed since last fever without the use of fever-reducing medication AND
- ❖ Symptoms (e.g. cough, shortness of breath) have improved

Asymptomatic – with confirmed COVID-19

- ❖ At least 10 days have passed since the positive lab test AND
- ❖ The person remains asymptomatic
- ❖ If symptoms develop later, the person should follow the symptomatic guidance

When & Who will quarantine?

In the event of an identified positive case of COVID-19, all close contacts (as identified by case investigation in collaboration with health services) must be excluded (recommended for quarantining) from the school or workplace until fourteen days after last contact with case.

If a close contact becomes ill and is diagnosed with COVID-19, they must remain excluded for their isolation period and until told they are no longer contagious.

What constitutes an Outbreak?

According to DPH, “A COVID-19 outbreak in a school setting will is defined as: Two or more laboratory confirmed COVID-19 cases among students or staff with illness onsets within a 14-day period, who are epidemiologically linked (e.g., have a common exposure or have been in contact with each other), do not share a household, and were not identified as close contacts of each other in another setting during standard case investigation or contact tracing”. If an outbreak is confirmed, building closures will be implemented for the timeframe designated by local public health officials.

Testing Groups

Students, teachers and staff with symptoms identified through the health screening protocols.

Students, teachers, and staff who have had contact with someone with COVID-19 in the school.

All student, faculty and staff with possible exposure in the context of an outbreak setting.

Testing Locations

Dobbs ES – 2025 Jonesboro Rd SE 404-802-8050

Hollis Innovation Academy – 225 James P Brawley Dr. NW 404-802-8200
