

Students of the Month

October

Perkerson Elementary School - Grades 3-5

This month we focused on BELIEF as our core value.

The students listed below exemplified this value through their words and actions.

Third Grade

Sarah George - She continuously strives to improve her test scores each week and knows she can!

Khloe Dyer - She comes to school every day and is the model student and example for her peers. She's a class leader and scholar. She goes above and beyond expectations and is a joy to have in class.

Dallas Barrow - He is a superstar that has displayed belief in himself and his peers.

London Pate - She has demonstrated belief in her abilities for the entirety of the school year and sets an example for many of her classmates of how to work confidently and diligently.

Fourth Grade

Jai'dah Watkins - She continuously demonstrates her ability to be successful by working hard, applying 100% effort, and asking questions when she's unsure.

Artasia Carter - She modeled the value of belief by stating that she would memorize her multiplication facts. She then took significant strides to do exactly that!

Mehki Foster - He came into the school year barely believing in his own ability to succeed. Since that first week of school, Mehki has shown an unquenchable desire to succeed. He demands extra practice when he struggles, he supports his classmates when they are down and he leads by example from 7:30am to 2:30pm, Monday through Friday. He is a rising star and this is just the beginning. Hard work does pay off.

Fifth Grade

Jaquez White - He "models the way." He has a disposition that makes him a natural leader in the classroom. He exhibits our Perkerson value of belief by constantly rooting his classmates on, being an all-star jokester, and showing a love for learning. Whether it's in the classroom, the gym, or the music room, Jaquez is going to always be his best self. He is Perkenized for sure!

Darelle James - He exudes an understanding of all standards and makes sure to help any classmates around him.

Dequilius Stokely - He has demonstrated unwavering belief in himself and his ability to assist his peers in their learning journey.
