What is Xanadu?

Xanadu is a summer enrichment program for gifted and high achieving students offered by the Office of Gifted and Talented Education in Atlanta Public Schools. The program began over twenty-five years ago for first through fifth grade students, later adding programming for sixth through twelfth graders.

Xanadu teachers take academic content and turn it into fun and exciting ways for students to be enriched while still enjoying the sunny days of summer! Students are allowed to select courses that are focused on academics and fine arts/athletics. Course offerings include everything from courses like “Xtreme Xperiments” where students explore the science behind lava lamps to courses like “IMPACT” where students work to make a difference in their immediate community and understand the value of their civic contributions.

The program concludes with a culminating activity where parents and the community are presented with student work.
