

July 29, 2022

Welcome parents and scholars to the Gifted/Talent Development Program! I am Mrs. Dickson and I am excited to provide Gifted and Talent Development (TD) instruction beginning the week of **August 8, 2022**. M. Agnes Jones scholars will be served Monday – Tuesday, and Tuskegee Airmen Global Academy scholars will be served Thursday – Friday. Our classroom theme this year is ***#Using STEAM to create Dreams.***

All participants will attend class one day a week, where the focus is on standards-based differentiated lessons and activities that promote the Atlanta Public School's Gifted and Talented Program Standards: Advanced Communication Skills, Creativity, Creative Problem Solving, Global Citizenship, Higher Order Thinking Skills, Leadership, Advanced Research Skills, and Social Emotional Learning. Units of study are aligned with the Georgia Standards of Excellence. Through positive interactions and meaningful collaboration associated with Problem Based, Learning, STEAM engineering design challenges, unit projects, and various differentiated activities both inside and outside the classroom, social and emotional needs will be supported throughout the school year.

Scholars should come prepared on their designated day with the following materials.

- 1) one 2-inch three ring binder with notebook paper and pencil.

Scholars are expected to complete any homework assignments, projects, and the end of the unit performance task. You may also scan the QR code below for direct access to the APS Gifted and Talented Program's web page. Please contact me with any questions or concerns.

Sincerely,
Mrs. Dickson
Itinerant Gifted/Talented Development Teacher
