MEMORANDUM

To: All APS Supervisors

From: Skye Duckett, Chief Human Resources Officer

Date: July 31, 2020

Subject: Updated Supervisor Guidance

As health conditions in the Atlanta area continue to change, it is very important that our supervisors know and follow health and safety guidelines in the workplace. In addition to the information below, please ensure that you have read the previous memos to supervisors posted at: https://www.atitantpublicschools.us/coronavirus. Please make sure to provide today’s employee email from the Superintendent to any of your employees, contractors and volunteers who may not regularly access email.

Human Resources FAQ’s
A comprehensive frequently asked questions document for many matters pertaining to staffing and employment has been posted on the District’s coronavirus updates page at https://www.atlantapublicschools.us/coronavirus. You’ll find information in that document related to employees’ and supervisors’ duties and responsibilities related to the start of the new school year. Please pay close attention to the supervisory components, especially paid leave and workplace safety procedures.

Workplace Safety
For employees who do come to work in person, either daily or occasionally, it is critical that they follow current social distancing guidelines and wear masks, plus any additional personal protective equipment (PPE) unique to their job. Supervisors are responsible for ensuring that workplace safety guidelines are being followed by their employees, especially social distancing in spaces with multiple employees. Please monitor your work sites and employee behavior regularly and redirect as needed. Please refer to the Human Resources FAQ’s and the CDC guidance for businesses for additional details.

Reminders of Procedures for Responding to Employee Reports
It is very important that supervisors understand and follow the procedures for handling a variety of situations that may arise from employees related to COVID-19, personal health, and travel. Remember that there are standard email templates for responding to employees’ notifications of testing positive for COVID-19 and other scenarios available here. Also, keep in mind the following:

- Essential employees who report that they are unable to work in person or telework due to a COVID-19 related illness of themselves or a family member, or due to childcare issues stemming from a COVID-19 closure, should email LeaveRequests@atlanta.k12.ga.us in
order to receive emergency paid sick leave, if applicable. The supervisor may also send the email.

- Employees should still avoid unnecessary personal travel outside of the state and cancel or postpone any such travel where possible. Email HRFrontDesk@atlanta.k12.ga.us for any questions regarding personal travel. We still want to know about travel outside of the country; however, we are no longer tracking travel within the United States.

**Telework Arrangements**
On July 24, 2020, the District updated its administrative regulation for emergency provisions, EBB-R(2) to accommodate an extended period of telework. Most school-based positions have already been designated by the District as eligible for telework. Employees in the operations division received written notification this week that indicated whether they were eligible for telework or not. All other employees should have their telework status assigned by their Chief Officer or designee. [Click here](#) to view all telework support documents for supervisors, including sample employee notices, complete telework procedure step-by-step instructions, Board administrative regulations and a flow chart visual guide. (Use your APS Google login: username@apsk12.org.)

**Employee Return to Work Procedures**
Where attendance at the physical work site is necessary, employees who have confirmed COVID-19 via testing, diagnosed COVID-19 without testing, suspected COVID-19 due to symptoms displayed on the job, or exposure to someone with a confirmed or diagnosed case of COVID-19 must follow the reentry requirements based on their circumstances below. If obtaining any of the required testing is difficult, APS’ health services department can provide guidance to the employee on next steps for how to proceed. These requirements are subject to change as new guidance and research is developed.

- For employees with confirmed COVID-19 (via test) or diagnosed COVID-19 (from a physician without official testing), the employee may return to telework status if available and whenever he/she feels recovered enough to work. The employee may return to the physical work site if:
  - APS has reinstated attendance at the physical work site; AND
  - The employee has had at least 72 hours without a fever without taking fever-reducing medication; AND
  - Improvement in all respiratory symptoms; AND
  - At least ten days have passed since symptoms first began; AND
  - The employee has received a negative COVID-19 test.

- For employees with COVID-19 symptoms that are detected at the physical worksite, the employee may telework if available and whenever he/she feels recovered enough to work. The employee may return to the physical work site if:
  - The employee obtains a negative COVID-19 test result; AND
  - The employee has had at least 72 hours without a fever without taking fever-reducing medication; AND
  - Improvement in all respiratory symptoms; AND
  - At least ten days have passed since symptoms first began.
• For employees without COVID-19 symptoms who have a confirmed COVID-19 test or diagnosed COVID-19 (from a physician without official testing), the employee may return to physical work site after:
  ○ At least 10 days have passed since the positive laboratory test and the person remains without symptoms. This is 7 days after positive lab results plus 3 days of social distancing per CDC guidelines
  ○ Note, persons without symptoms who test positive and later develop symptoms should follow the guidance for symptomatic persons above
• For employees with exposure to a confirmed or diagnosed case of COVID-19, the employee may continue to telework if available. The employee may return to the physical work site if:
  ○ APS has reinstated attendance at the physical work site; AND
  ○ The employee has completed a 14-day quarantine with no symptoms.
  ○ Note: Employee should remain on telework status until official COVID-19 tests results have been received. If the employee is tested for COVID-19 during the 14-day quarantine and tests negative, this reentry protocol still applies. If the employee tests positive, then the employee falls into the confirmed COVID-19 category for reentry protocol.

Please note that this guidance may change on a daily basis. Check email frequently for updates, as well as the district’s health alerts page.

For any supervisor questions regarding employment matters, please contact Skye Duckett, Chief Human Resources Officer, at 404-802-2304 or sduckett@atlanta.k12.ga.us. For questions regarding COVID-19 or health matters, please contact Valencia Hildreth, Comprehensive Health Services Manager, at 404-802-2674 or Valencia.hildreth@atlanta.k12.ga.us.
