

CREDITS, CREDITS, CREDITS!

The High School Road to Recovery

Please join Dr. Dan A. Sims, Associate Superintendent of Schools and the Office of High Schools for a discussion on high school credit accrual and the importance of acting now about the performance of your student. Based on current data, recovery will be a necessity for many students between now and graduation. This meeting will:

- 1 Ensure you are aware of how to know where your student stands.
- 2 Empower you with tools to keep up with your student's progress.
- 3 Engage you more meaningfully all the way to graduation.
