Dear Dr. Elgart:

On January 18, 2011, I received a letter from you placing the district on "accredited probation." You indicated that it was the responsibility of the school system to identify and implement corrective action steps to address six Required Actions and standards/policy violations noted in the report of the AdvancED Special Review Team.

The district was given the deadline of September 30, 2011 to address each action. Prior to the deadline, two progress reports are required. This letter accompanies the submission of the first Institution Progress Report which is due on or before May 1, 2011. Since that day was a Sunday, you extended the deadline to Monday, May 2, 2011.

Please contact me if you have questions.

Sincerely,

Beverly L. Hall, Ed.D.
Superintendent
