

Annual Capacity Review 22-23 FAQ: Douglass Cluster

Engagement

Q1: When will families be notified of the re-zoning decision?

A1: If rezoning (Scenario 2 or Scenario 3) is the recommended scenario, the Board would have first read in May and vote in June. We would immediately share out that decision at that time.

Scenarios

Q2: Can we speak more about Scenario 1? What innovative examples do you have with past scenarios like Woodson.

A2: As part of the review by the Office of Innovation, Improvement, and Redesign, design teams would identify challenges at each overcrowded school, experience a full-day “ideation experience” and ideate potential solutions, engage in design thinking events and charrettes, and propose solutions based on this process. The solutions would be unique to Woodson Park Academy’s school, building, challenges and opportunities.

Q3: Is Area C in Scenario 3 inclusive of both Etheridge and Rolling Bends apartment complexes?

A3: The northern part of the Woodland Heights/Rolling Bends and Etheridge Courts complex on 3500 Center Street is in Area C for rezoning from Boyd ES to Scott ES. The southern part of the complex at 2591 Etheridge Drive is not included in Area C for rezoning and would remain in the Boyd ES attendance area.

Q4: What leverage does a family have when advocating for their student if the student is doing well, a first-year student at KWPA, and has finally adjusted to their current school?

A4: Every family should advocate for what they believe is best. Please make sure your voice is heard before decisions are made. Leverage Let's Talk, these meetings, Board Members, community groups, etc.
