EMMA HUTCHINSON SCHOOL

This architectural rendering depicts a modern school interior. The space is characterized by a minimalist design with a light-colored, textured concrete wall. A prominent feature is a large, sculptural light fixture composed of several interlocking, curved metal rings suspended from the ceiling. The floor is made of large, light-colored tiles. In the center, a set of stairs leads up to a platform. To the right of the stairs is a glass door with a small, square handle. Large windows on the left and right sides of the room provide ample natural light. The overall aesthetic is clean and contemporary.
