Design Committee, Communications & Design Reviews

This memorandum summarizes the approach of the APS Construction Management Team in maintaining structured design review process and communication between all parties during the planning, design, construction and renovation of Atlanta Public Schools’ facilities.

1. **Establishment of a Design Committee**

To ensure communication and participation of the school community throughout the design and construction process, the school Principal will be asked by the Project Manager to assist in the establishment of a Project Committee including representatives for the following parties:

School Principal	Community Member
Associate Superintendent (instruction)	Architect
Director / Executive Director (facilities)	PTA Representative (2max)
School Board Representative	Go Team Representative (2 max)
Project Manager	Community Member (NPU Rep., etc.)

2. **The Project Committee will meet during the course of the project as outlined below**

- | | |
|------------------------|---|
| 1. Meeting #1.0 | Validate school needs and define Architect’s scope of work. |
| 2. Meeting #2.0 | Review Schematic Design options proposed by Architect. |
| 3. Meeting #3.0 | Review Construction Documents at 50% completion and discuss the phased construction or relocation and construction process. |
| 4. Meeting #4.0 | Construction briefing to be held prior to the start of construction to inform the Design Committee of what to expect during the construction phase. |
