Adjusted the stipend model for schools that improved enough to move from targeted tier to intensive tier. So that they are not punished for improving, a reduced retention stipend of \$3,000 will be provided for their transition year. The stipend remains the same for schools in the targeted tier. Retention stipends are paid in June each year based on success criteria and signing a contract for the next year. Hiring incentives are paid in June or July upon hire, depending on start date. No longer utilizing professional services for recruiting due to hiring a full time position for this in the budget.

Chief: Jernigan, David
BCM: Riggins, Jermal

Reading/Language Arts will continue to foster and support the implementation of the Georgia Standards of Excellence in English/Language Arts. Funds are included to support instructional resources that are targeted for increasing student learning and support of phonemic and phonological awareness. Additionally, funds provide opportunities for teachers and leaders to participate in ongoing, job-embedded professional learning so that students are able to become strategic readers, effective communicators, engaging speakers, and critical thinkers. Aligned with our district's strategic plan, the Reading/Language Arts budget includes funding for targeted professional learning and endorsement programs, and curricular resources aimed at appropriately differentiating instruction for striving readers and writers.

The K-12 world languages program is designed to develop and enhance student competence to communicate effectively and to interact with cultural competence in local and global communities. For students to succeed in a global economy, they will need to possess a new set of skills that were not required for the success of prior generations of Americans. Regional expertise, cross-cultural competence, and advanced language proficiency are no longer skills reserved only for those who plan for a career overseas - they are skills that will enhance any career field, encourage international investment in our state, and develop a workforce that is successful in working on diverse international teams to collaborate and solve global problems. Developing international perspectives and advanced language proficiency are the fastest route to success in an increasingly competitive global economy. The funding of program 1235 also includes professional learning emphasizing proficiency-based classroom instruction with a focus on building oral proficiency through comprehensible input pedagogy.

The ESOL program is a standards-based instructional program designed to promote academic and social language development. ESOL instruction is guided by the WIDA English Language Development Standards and grade-level content area Georgia Standards of Excellence. Students in the ESOL program develop proficiency in the language domains of listening, speaking, reading and writing while simultaneously acquiring academic content knowledge and skills. The ESOL program is federally mandated for eligible students in grades K-12. Per federal law, district-home and school-home communication must be provided in a language the parent/guardian understands at no cost to the parent. Atlanta Public Schools provides translation and interpretation support for parents with limited English proficiency.

The social studies program will continue to foster and support the implementation of the Georgia Standards of Excellence in Social Studies. Funds are included to support instructional resources that are targeted for increasing student learning and support of social studies instruction. Additionally, funds provide opportunities for teachers and leaders to participate in ongoing, job-embedded professional learning so that students are able to become strategic learners, effective communicators, engaging speakers, and critical thinkers. Aligned with our district's strategic plan, the social studies budget includes targeted professional learning and endorsement programs, curricular resources, and provisions for student experiences of doing history and student content area enrichments projects and programming aimed at appropriately differentiating instruction for all APS students.

Charters & Partners

The Atlanta Public Schools' Office of Innovation is responsible for the support and monitoring of the district's charter and partner schools. The office conducts a charter petition process each year, reviewing requests to establish new charters or renew existing charters that are coming to term. Innovation then makes recommendations to the district superintendent regarding the viability of each charter request. Partner schools are new to the Office of Innovation's portfolio and represent Atlanta Public Schools' (APS) commitment to quickly transform low performing schools and provide a high quality education to Atlanta's students. The first partner school transitioned to management by Purpose Built Schools in August, 2016. Several more schools are contracted to transition over the next few years. Partner schools serve all students in the original attendance zone and enrollment is open to any and every student living within that zone. The Office of Innovation supports parents of our charter and partner school communities with family engagement.
