Minimum Qualifications for Advanced Placement 2018-19

In order to be approved for an AP course, a student must meet **all grade level/prerequisite requirements**. In addition, the student must meet the minimum requirement in **two** of the following: (1) unweighted subject GPA, (2) teacher recommendation from most current subject-area instructor, (3) PSAT scores or (4) Gifted-Identified. Due to space restrictions, minimally qualified students may not be approved. **Approval is tentative and does not guarantee placement in the course. If you meet the prerequisite course requirements but NOT the grade level requirements, there may be a way for you to apply and possibly be approved. Relax. The online application will guide you through this process.**
