For just \$28.00 a year you can provide limited accident insurance coverage for your child. Limited coverage provides accident insurance for the school year while your child travels to and from school, while in class and while on school field trips.

Included with all student accident insurance plans is \$10,000 accidental death insurance.

This *Student Accident Insurance plan may help pay for medical bills associated with an accident on an “excess” basis and may only pay for medical services that are NOT paid for by your current insurance according to the schedule of benefits.
