Dear Parents/Guardians,

We welcome you to Brown Middle School. The years that students spend in middle school are defining and crucial years for all students. As students exit elementary school, they are naturally faced with more advanced academic responsibilities, combined with many physical, emotional and cognitive changes. Because the middle school transitional years can be quite challenging for all those involved, your continued active participation is a key ingredient to the success of your new middle school student. It is imperative that parents stay well informed regarding the progress of students' academic and social progress as they advance through these transitional years. Please look for periodic progress reports to arrive home throughout the year. Our ongoing communication with you is both a vital link and a valued asset in our endeavor for excellence.

The following is a list of supplies that each student on our team is required to have for the upcoming school year. This list was compiled by your student's academic team of teachers based on pre-planned projects and lesson plans. In addition, we feel that this list will help students with organization as they progress through the challenging academic year we have planned for them. Since poor organization can be an obstacle for students, we highly recommend that all students have access to every item on this list to ensure they have the tools necessary to complete assignments in a timely manner.

Please have students bring the following items on the first day of school:

Supply List
