## **Most Common Disciplinary Offenses**

### **#1. 5.18.2 Fighting: 2 individuals mutually participating in a physical altercation**

In this community, we believe that when students are taught the proper ways to talk out their problems, violence is not necessary. In this community students are expected to utilize the personnel on staff to help them resolve conflicts. At NO time will physical altercations be tolerated without consequence. Fights that result in injury will have more severe consequences.

***Progressive Discipline is used to determine punishment. Repeat offenders will face more severe consequences.***

**#2. 5.8.1 Offensive Language: No student shall use any type of profane, vulgar, obscene or ethnically and culturally offensive language (written or oral) and actions.**

In this community, we believe that Scholars deserve to be respected and that they should show respect to all staff members and visitors in the community at all times. Scholars who use offensive language towards an adult will be given consequences. The use of profanity or inappropriate comments regarding race, gender, or anatomy are all considered to be offensive language.

**#3. 5.8.3 Insubordination: All students shall comply with reasonable directions or commands of all authorized APS personnel or designees.**

In this community, we believe that teachers reserve the right to control all elements of their classroom to ensure that the learning environment is safe and orderly. Students are expected to follow the directions of staff members when given the first time. When students refuse to follow directions a great deal of instructional time can be lost if teachers are constantly redirecting and addressing students who refuse to follow directions. Acts of insubordination will result in the student's removal from the classroom environment. Depending upon the number of occurrences, the student may be given time out of school.

**#4. 5.9.1 School-wide Disruption: No student shall, in any manner, by the use of violence, force, noise, coercion, threat, intimidation, fear, passive resistance, or any other conduct, intentionally cause the disruption of any lawful mission, process or function of the school, or engage in any such conduct for the purpose of causing the disruption or obstruction of any such lawful mission, process or function.**

In this community, we believe that students and staff should always demonstrate behaviors appropriate for the school environment. Any action that interferes with the regular flow of operations within the school day will be considered as schoolwide disruption. This includes the following: fighting, horse playing, or the drawing of any crowds due to peer conflict or unruly behavior.
