GUIDING PRINCIPLE ON EQUITY?

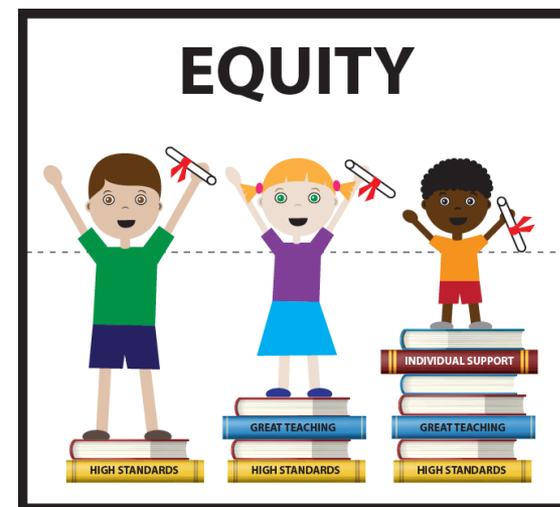

Equity is strategic decision-making, with the goal of remedying opportunity and learning gaps, and creating a barrier free environment, which enables all students to graduate ready for college and career.

COMMUNITY ENGAGEMENT INTRODUCTION

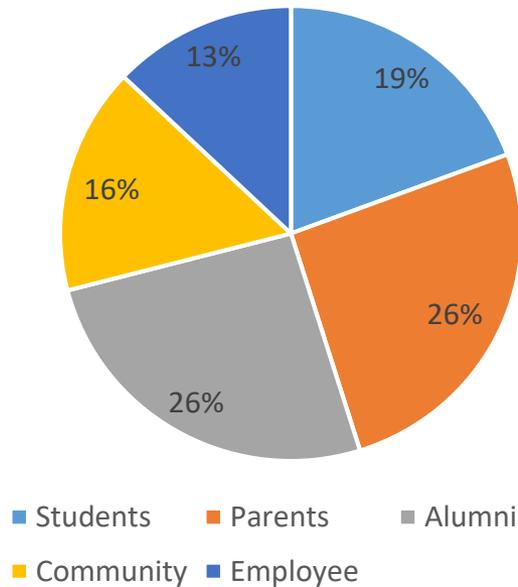

Members of the committee were asked to conduct **“Empathize” Interviews**. These are brief conversations that connected members to the authentic experiences of the Atlanta Public Schools community and staff related to equity and inequity. Although we want to hear about people’s experiences of inequity, their positive experiences are equally valuable as we consider what we want to foster and build.

Equity Policy Timeline

Creating a System of Excellent Schools

Community Conversation
16 January 2019

Why this project? Why now?

Together, our aim is to:

- Knit together into a more cohesive whole the important initiatives and work streams we already have underway;
- Deepen our implementation of the strategic plan and core tenets of our operating model; and
- Better prepare us to develop our next strategic plan.

Remember, our ‘north star’ is to define and enact a vision of excellence for APS and our system of schools

We must create a system of excellent schools that serves the needs and aspirations of ***Every Student*** through a clear vision of excellence and a plan to operationalize that vision.

Therefore, we will:

- ▶ Align on a **definition of school excellence** that integrates with existing definitions of teaching and leadership excellence and includes a profile of an APS graduate;
- ▶ Determine how to best measure schools’ **progress toward excellence** and determine **how to respond** when schools do or don’t fulfill the vision; and
- ▶ Determine how to best advance the vision **through a system of excellent schools** that includes neighborhood, charter and partner schools, but may also include other school models.

We have crafted and revised three main deliverables through extensive feedback from hundreds of stakeholders

Vision of Excellence

Integrates with definitions of teaching and leadership excellence to define the characteristics of excellent schools and learning experiences that prepare APS students for college, career and community

A screenshot of a table titled 'Excellent Schools Framework'. The table has several columns, including 'Domain', 'Indicator', 'Description', and 'Measurement'. It lists various indicators and their descriptions, such as 'Student Learning' and 'School Culture'. The table is organized into sections with different background colors (yellow, green, blue, red).

Excellent Schools Framework

Translates the vision of school excellence into specific, measurable domains of school performance to enable planning, analysis and public transparency

It lists various actions and their descriptions, such as 'Student Learning' and 'School Culture'. The table is organized into sections with different background colors (yellow, green, blue, red).

Excellent Schools Action Framework

Outlines the scenarios and decision criteria that will guide the district's responses to schools' progress toward our vision of excellence and answers related questions about autonomy, accountability and authorizing

What we heard (December 2018)

The vision presented reflects my beliefs about the characteristics of an excellence school.

"I believe the overall domains and indicators are very good and are structured in a manner that would encourage and support a healthy educational system."

To what degree would a local Excellent Schools Framework benefit APS (compared to simply using the CCRPI)?

"It's a seemingly better approach than just CCRPI data and addresses the role of parents in the education process."

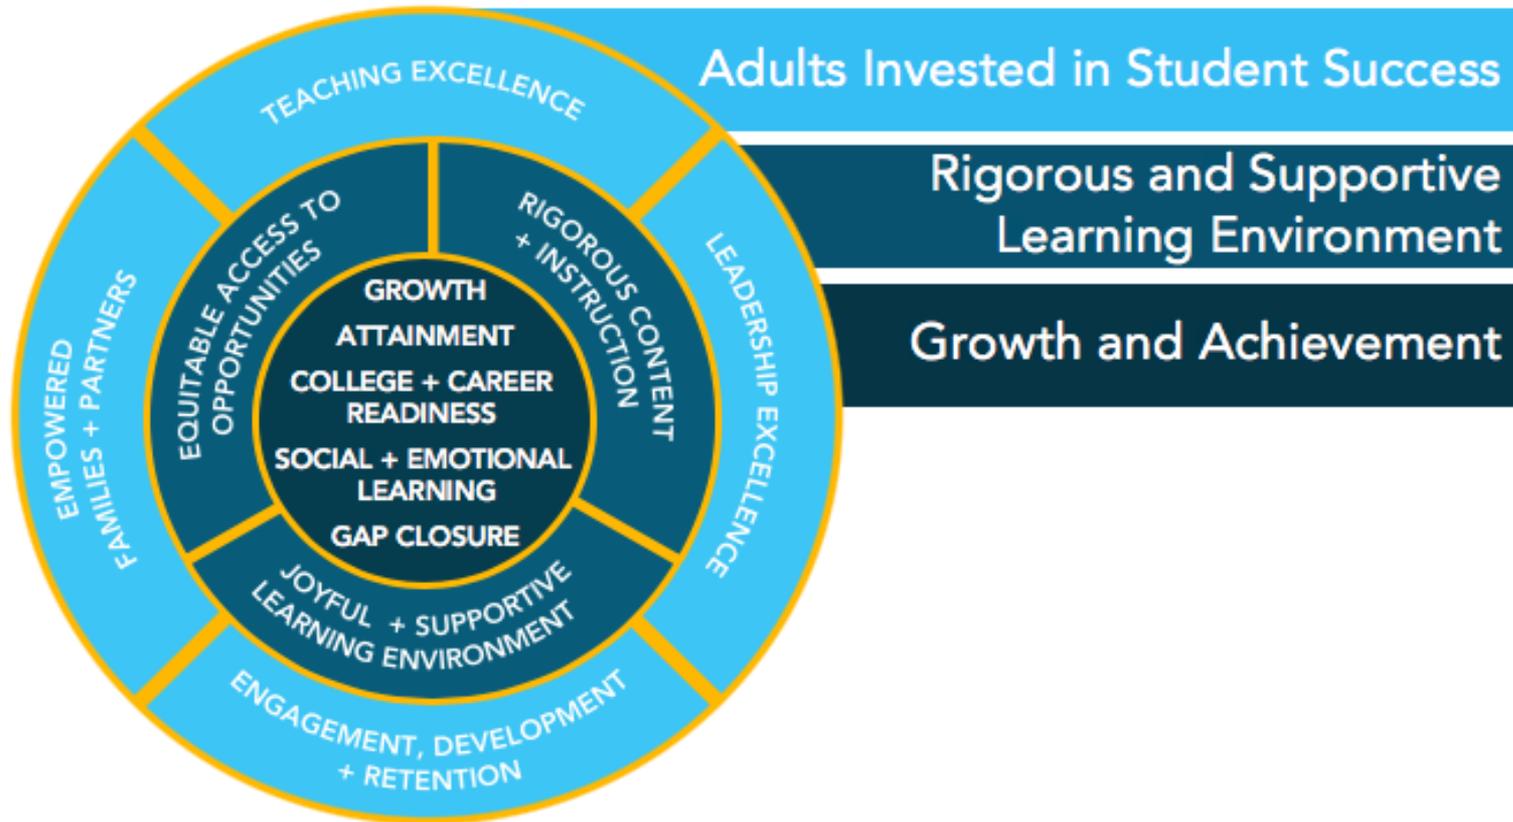

What we heard (December 2018)

- “This is too broad. Some components need to be broken down a bit more comprehensively.”
- “Where is funding tied to this?”
- “Access vs. Opportunity”
- “What is the timeline? When does this take affect?”
- “We should discuss what our graduates need to know when they graduate.”
- “What are the root causes?”
- “How is the equity policy aligned with this work?”

If adopted by the Board, APS leadership will then begin work on a multiyear implementation plan. The table below is an illustrative DRAFT.

THRU SUMMER 2019	SY19-20	SY20-21
<ol style="list-style-type: none"> 1. Develop a comprehensive set of measures, floors, targets and weights to complete the design of the Excellent Schools Framework 2. Determine implementation criteria for the Excellent Schools Action Framework 3. Adopt and begin implementation of a multi-year plan for all System of Excellent Schools work 4. Continue to design and facilitate opportunities for broad engagement 	<ol style="list-style-type: none"> 1. Pilot the Excellent Schools Framework in order to gain data to inform its refinement and finalization 2. Progress monitor and refine implementation of multi-year plan 3. Uniqueness of the Vision

- ✓ Makes clear the relationship between enabling conditions (like signature program implementation) and outcomes
- ✓ Comprehensively incorporates stakeholder feedback through surveys of students, staff and families
- ✓ Builds from CCRPI when appropriate and possible
- ✓ Is distinct from CCRPI due to the inclusion of a holistic set of indicators, such as early literacy and social-emotional development

Small group discussion questions

As you review the Vision of Excellence, to what extent (1-10 scale + narrative) does this communicate your vision of an excellent school? If not, what is missing?

As part of the Vision of Excellence, a Portrait of an APS Graduate defines the competencies, mindsets and knowledge bases APS graduates must attain to prepare for college and career.

Existing Cluster Plans

South Atlanta Student Experience

- My school...
- Supports me.
 - Develops my learning and leadership skills.
 - Encourages expression and creativity.
 - Prepares me for college and career.
 - Allows me to be active in the classroom and the community.
 - Challenges me and expects me to succeed.

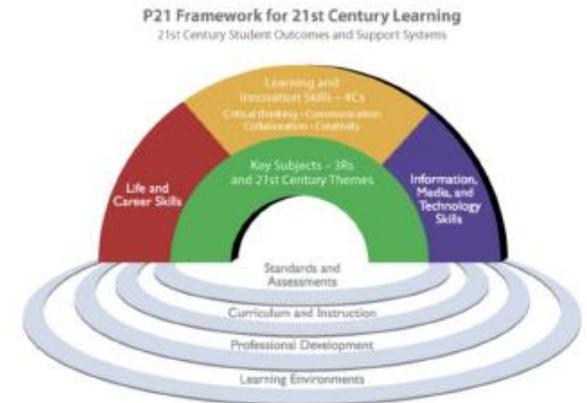

South Atlanta Graduate Profile

- Graduates will be...
- Academically prepared.
 - Engaged learners and critical thinkers.
 - Community focused and globally aware.
 - Skilled problem solvers.
 - Effective communicators.
 - Confident, resourceful and responsible.
 - Technologically savvy.
 - Collaborative leaders.

In order to operationalize the Vision of Excellence, we must address design tensions

1. How heavily should each components (Adults Invested in Student Success; Rigorous & Supportive Learning Environment; and Growth & Achievement) be counted in determining a school's level of excellence?
2. Should different school types (grade band, governance type) have different frameworks?
3. How much of our framework should focus on perception or observational measures?

Small group discussion questions

1. What action, if any, is missing from this framework?
2. Are there any actions listed on this framework that should be removed? If so, which one? Why?
3. What else should be considered, as part of the decision-making process, when determining the best action for a school?
