

Frederick Douglass High School TSA

What is FDHS TSA?

The Technology Student Association (TSA) provides middle and high school students with opportunities for **leadership, teamwork, community service, personal growth and recognition**. Our chapter has plan a for the year that includes technology conferences, competitions ,and activities and will prepare you for entry into college and/or the work force.

Competitions

Over 60 competitive events (middle and high school) appeal to many students across the spectrum of technology. Events include CAD architecture and engineering, website design, medical technology, film, graphic design and inventions and innovations as well as many other technological topics. Affiliated students can purchase downloadable rules for individual middle and high school competitions.

Leadership

Students are exposed to leadership learning and opportunities through officer and committee level participation, as well as through Leadership Lessons -- which includes leadership content that can be incorporated into the classroom and/or into chapter meetings.

Personal Growth

As students work on TSA related projects, they learn to engage as a team, to accept and give recognition, to increase their knowledge and to help others. TSA provides the structure for a successful group experience, shaped and managed by the student membership with the assistance of an adult advisor.

Out-of-Town Conferences

C.O.R.E.

The CORE program is designed to provide Georgia TSA local chapter officers with an opportunity to develop interpersonal and leadership skills, gain necessary knowledge and abilities to carry out the duties of their individual offices, and prepare a Chapter Program of Work for the year.

Technology Day

Technology Day at the Georgia National Fair provides Georgia TSA members with an opportunity to compete in various competitions to win money for their chapter and participate in a motivational rally to get you pumped up and excited about the school year!

Fall Leadership Conference

The annual Fall Leadership Conference is designed to provide Georgia TSA members and advisors the opportunity to increase their leadership, communication, and teambuilding skills by attending hands-on workshops, seminars and general sessions.

State Leadership Conference

Georgia TSA's annual program of leadership development and competitive events provide students opportunities beyond the traditional classroom/laboratory setting which add to their increased knowledge and understanding of an ever-changing technical world.

National Leadership Conference

TSA members throughout the nation all agree that for them, the highlight of the school year is the annual national conference. The TSA national conference is packed with competitive events and challenging activities that foster personal growth and leadership development.
