## CAREER AND LIFE SKILLS INVENTORY

**Directions:** For each skill area, determine if you want to use the skill, have the skill, and/or want to learn the skill. There may be some skill areas for which you checkmark none of these categories and others you may check all three.

## When evaluating each of these skills think about...

- times you may have used the skill at work, school, home, recreation, etc.
- how easy or difficult that skill area is for you and if you seem to do better in that area than your peers

- why you believe you have that skill. Did you receive praise or recognized for an accomplishment?

Interpersona	al Skills	•	
	I want to use	I have	I want to learn
Advising, protecting, providing physical care			
Assisting, protecting, providing physical care
