CSK Middle School Scholars

Greetings! The 2023-2024 school year has officially begun, and the CSKYWLA family is proud to admit that our scholars have had a phenomenal start to the new year! Students came to school fully prepared and energized, donned in their school uniforms and ready to tackle those locker combinations. Sisterly bonds and friendships were formed on the first day as the girls found support in one another; walking to class together, and guiding each other to the correct destination. Our middle school teachers, along with our supportive middle school counselor, Ms. Parnell, was only a step away for those students who needed additional assistance. By the end of the week, our students were transitioning in the hallways with ease.

Parents, guardians, family members and friends, we invite you to our first middle school newsletter, *The Eagle's Nest!*

In this monthly newsletter, we will detail all the happenings at our school, which will include special events, field trips, sports news, upcoming assessments, and all things academics. In *The Aerie* section of the newsletter, you will find what our scholars are currently learning in their classrooms. Typically, these topics are centered around a standard with the expectation of students achieving standard mastery by the end of the unit. In *What's Hatchin'*, we will include upcoming news, events, and special announcements. Lastly, and because we are confident that some fruitful discussion and creativity will be happening in the classrooms, we will include photos of our scholars and staff members learning and growing together. We are so pleased that you chose to be a part of this family, and we are ecstatic that all the great things our scholars, your marvelous daughters, will experience this school year. Welcome!

The Aerie

Students are actively engaged in Ms. Durdin's (ding-lao shi) Chinese connections class. In this class, students are currently learning the stroke order of Chinese characters and what they are made of, in addition to learning Chinese radicals (Chinese character root words)!

The Aerie

What we're learning!
