

Welcome to the 2020-2021 School Year!

“There’s No Place Like Home!”

Return to the Mays Cluster for Virtual Learning

We hope that all of our families are healthy and safe. As we work together to prepare a successful virtual start for all of our children and families, we want to make you aware of some of the most important things we know so far:

All students will have access to working technology and/or a hotspot for wifi if needed. Students will need access to a device and reliable internet for the entire school day. More details will be provided as Day 1 gets closer.

As soon as we are aware of the district requirements for scheduling, grading, attendance and accountability we will share them with you. Please know we understand the strain this may put on working families and will be as flexible and supportive as possible.

While we will be flexible, attendance and work completion are required for all students. It is extremely important that you communicate with us regularly about anything that will keep your student from being engaged daily so we can offer support.

School staff will begin reaching out in the coming weeks to students who were not engaged in the Spring to see how we can support you being successful in the Fall. High school students will be offered an opportunity to clear any “Incompletes” received in the Spring.

Each school will send out a schedule for when students can come in during the **week of August 17th** in small groups to meet their teachers, and to receive technology (if needed). During that time, we will also assess Reading & Math Levels and complete a health & wellness check-in.

Updates will be sent on school websites, social media, Class Dojo (elementary) and Infinite Campus about virtual schedules and dates for meeting teachers, testing, and picking up items. Stay connected!

Our first virtual day is **Monday August 24th**. We will see everyone online that morning.

All schools are currently completing registration for students who will be newly enrolled (did not attend last year). The process is online here...

Thank you for your support!

Sincerely,

Mays Cluster Principals

Dr. Mulanta Wilkins, Benjamin E. Mays High School
Ms. Kara Stimpson, Jeans Childs Young Middle School
Mrs. Crystal Jones, Beecher Hills Elementary School

Ms. Tiffany Momon, Cascade Elementary School
Ms. Thalise Perry, L.P. Miles Elementary School
Mrs. Cynthia Gunner, Peyton Forest Elementary School
Dr. Reginald Lawrence, West Manor Elementary School
