

Sign-Up for HealthCheck!

APS has partnered with HealthCheck to aid our district in the task of collecting daily health screenings for students. HealthCheck is a health screening tool available as a mobile app and website, and for the 2021-2022 school year, all APS schools will shift to use HealthCheck as the primary daily student health screening tool. HealthCheck will aid the district in not only mitigating the risk of COVID exposure, but will also provide school-level data regarding screening use, and the number of health screening fails.
