February 16, 2021

Dear Parents:

Today was a great day for Sutton Middle School. Despite a few hiccups, including a two-hour delay, overall things were incredibly successful. We are experiencing some issues with our internet connectivity and we are working with technology services to address those concerns. In addition, some face-to-face students experienced issues logging in from the school. Again, we are working to address each issue and hope to have everything running smoothly by Friday for our face-to-face and virtual students.

I want to thank all of our staff and parents who have worked together to prepare our students for this transition today. We do know that we will have concerns arise, but I can promise you that we are ready to address them.

Our busses ran very late this afternoon and some students likely arrived home later than anticipated. I have been in communication with the Director of Transportation and he is working to remedy this for us. It is my hope that by Thursday students who ride the bus are home sooner in the afternoon. Please take the time to download the transportation app so that you may track your child's bus location in real time.

Once again, thank you for your ongoing support of Sutton Middle School and our return to learning. Please continue to reinforce with your student, whether remaining virtual or face-to-face, the importance of daily attendance for each class. Posted on our web site is the new Wednesday tutoring schedule. I encourage you to have your students attend tutoring.

I look forward to the remainder of the week going as smooth as today. Remember Wednesdays are asynchronous at home learning for all students! Please thank your child on behalf of me and the entire Sutton staff, for an amazing day today.

Sincerely,
Gail Johnson
Gail Johnson, EdS
